We send no receipts unless by special request. Watch date on your label, Bubscribers changing postoffice address, and not notifying us, are liable for same. Bubscriptions will be continued, unless otherwise directed.

We employ no collector. You are expected to send the money to this office.

## EDITORIAL,

## WHO will be the new pope?

INSTEAD of trying to muzzle the press the Pennypacker squad should have gone into the work to hobble and handcuff the treasury plunderers.

GOVERNOR PENNYPACKER, as commander-in-chief of the Pennsylvania troops, is now making a round of the encampments to inspect the soldiery. Being unaccustomed to riding horseback, he refused to inspect the troops on a charger, and has taken a carriage instead. This is fortunate for the horsewith an amateur rider on his back it jump and thump for the animal to the amusement of the crowd.

THE machine organs are very timid in making mention of the astounding rottenness that has been unearthed in the post office department at Washington, and affect to make light of the infamous work of men in high places connected with that branch of the government. Roosevelt shuts one eye and views the rascality with the other half closed, and cogitates how to plan the cals in milk. The milk act of 1001, passescape of the boodlers by a whitewash ed by the State Legislature, strictly prothat will stick and cover up the frauds | bibits the adding of any substance in this to the public gaze. Rottenness reeks and smells everywhere throughout the national and state governments, and and it is estimated that in all there will few, mighty few, of the sinners are brought to justice.

According to discoveries of the agents of the Dairy and Food Division of the State Agricultural Department, the chemicals that are used in cheap socalled soda waters are injurious to health. That is a possible explanation of the prevalence of typhoid fever in cities of this and other states. Penny snowballs and hokey-pokey, penny lemonade and of Music was conferred upon you. Propsoda water, and doctors' and undertakers' bills that are something higher than a penny, go hand in hand according to the chemical analysis. Alleged syrups do not contain a drop of real ship. fruit juice, and thus the babes who are able to get and spend the pennies are poisoned. PRESS Muzzler Snyder served eleven years in the legislature and during all that time he never cast a vote against the wishes of the corporations. Every bill which has appeared on the calendar within that time in the interset of corporations as against those of the people has had his approval and received his yote and he has been the active champion of and earnest worker for every job which the corrupt political machine has put through the legislature during the period of his membership in both houses. Rippers, grabs, pinches, steals, all were alike to him, and all had his support. He might be called the king of the roosters, for he never failed to serve the ring. THE post office robbers taken from the Bellefonte jail to Williamsport last week are behind the prison bars living on jail grub. The far greater post office robbers at Washington, standing high in the g. o. p. circles, are at large, feasting on the fat of the land, basking at the fashionable watering places from the illgotten thousands that the government has been defrauded of. Why this favoritism shown the latter? What the first named will get should be duplicated upon the latter, and would be if it were not for the pull they have with the powers that be. There is a true German saying, "Kleina Diebe faengt man, grosse laeszt man laufen." Translated: "Little thieves are punished, great ones are permitted to escape." That is the precise attitude of the party in power, and the Centre Democrat yields the floor to any one for a successful refutation.

## THE "PROSPERITY" AGONY. When stocks go up and the millionaire

gamblers make additional millions, at the expense of the people, then the republican organs call it "prosperity." Few people own stocks and need not bother about stocks. But when stocks get into the slump and the millionaire stock gamblers get into the mire, then these same organs are silent and forget to tell the people that stock gambling is a republican bantling. Just now there is a wreck, and to give the readers of the Centre Democrat an insight of it, we

copy the following : "Newport has the blues to-night. The ed a panic here, and the despondency is almost as deep as if there had been a death dealing epidemic. There is no telling how many of the millionaire families are hard lift or are in great danger of heavy losses. The resort has suffered for the entire season from the "rich mens' panic in the speculative world, and the worst to date came with

the failures of to-day. Urgent summonses by wire have deof millionaires, who have gone to New York to look after their interests in the Street. There are no men here to-night for dinners or dances, and it is declared that the season, already bad enough, is now utterly blasted.

### Investigate State Milk.

food department and under the direction Western Penn'a. There are over 100 furnaces. cases to be brought within the next ten days for using embalming fluid to preserve the milk. There has been considerable sickness in this part of the State. The milk supply in Johnstown was worse than in any other city. The investigation has disclosed the fact that the dairy and food commissioner is determined to vigorously break up the use of harmful preservatives or any chemifluid. The war inaugurated has been carried into all other parts of the State be from 200 to 300 cases ready to be brought for trial by the time important work is completed.

Honors for a Centre Countian. Prof. Alfred Bierly,

Chicago, Ill. My dear sir :-- I take pleasure in notifying you that at the receut annual meeting of the Board of Regents of Heidelberg University the degree of Doctor er certificate will be forwarded to you by the Secretary. ## OUR HISTORICAL REVIEW

Continued from page 1.

23, 1813, being its earliest customer. Thomas Burnside's name appears under date of November 24th; Philip Benner and John Dunlop, November 26th. Andrew Gregg was president, and John Norris, cashier. A note has been preserved issued 24th December, 1813, letter B, No. 5856. The vignette is an agricultural scene, and the general engraving coarse.

On the 23d of January, 1814, twentyfour directors were elected, as follows : news of the crashes in Wall street creat- Andrew Gregg, James Potter, Jr., James Duncan, John Irvin, Roland Curtin, James Harris, Joseph Miles, Charles Huston, Thomas Burnside, Elisha Moore, John Dunlop, Philip Benner, John G. Lowrey, Isaac McKinney, Lyons Mussina, John Rankin, Hamilton Humes, of Centre county, William Brown, Jr., James Chreswell, and John McDowell, of Mifflin county, John Turk and John Hays, of Union county, and Robert Allison, of Huntingdon. Andrew populated the place of its ordinary quota Gregg was elected president, and February 4th John Norris, cashier, calls for the seventh and eighth installments of stock to be paid in. [LINN]

In the early days of our county, the manufacture of iron was the important industry that was a stimulant to wealth for the promoters and indirectly to other industries. Forges were quite numer-Upon examination made by the State ous, and were erected in over a dozen localities. Of these, with few exceptions, of Dairy and Food Commissioner B. H. only huge stone chimneys stand to mark would have been a plague of hump, Warren, a crusade has just been made the spot-the great iron works of the against the sale of embalmed milk in land have quenched the fires of the local

### RECENT DEATHS.

MRS. BESSIE KESSINGER :-- wife of H. C. Kessinger, died on the 22, at her home in Eagleville after a long illness. Mrs. Kessinger aged 18 years and is survived by her husband and one child.

WILLIAM :- the one year old son of Chas. Bartley, died Monday morning at 7 o'clock at the home of his parents on the Jacksonville road near town. The funeral took place Wednesday morning at 9 o'clock. Interment at Zion.

MISS SUSAN HAINES :- died at the home of her sister, Mrs. F. Hosterman, at Penn Hall, Thursday, 16. after an illness of several years at the age of 61 years. Two sisters and one brother preceeded her to the spirit world, viz : Mrs. Rebecca Appel, late of Freeburg ; Mrs. Charles Horner, late of Penn Hall, and Ambrose Haines, late of Haines township. She left to survive one brother, William Haines, of Freeburg, and one sister, Mrs. F. D. Hosterman.

MRS. MOSES CLARK :-- of Potters Mills, died at her home Saturday, aged 64 years, 4 months and eighteen days. In terment in the Sprucetown cemetery. The deceased was a member of the Methodist church, and had been ill from a complication of diseases, including cancer, the cause of her death. Mrs. Clark, before ber marriage, was Mary Palmer. She is survived by her husband and three children, namely, Agnes, wife of Rev. W. S. Hess, pastor of a Lutheran charge, near Des Moines, Iowa ; Maggie, wife of Mr. Decker, Worth City, Armstrong county Pa., and Alice, wife of Mr. Chambers, Bellefonte. ISAAC TRESSLAR :---died at his home near Linden Hall on Sunday morning at 4 o'clock after a lingering illness of diseases incident to old age. He belonged to one of the old pioneer families of that section of the county and was a good neighbor, an indulgent father, a faithful husband and was always interested in the welfare of his community. Surviving him are his wife and the following children: E.S., of Rock Springs; Fonathan, of Boalsburg; Wesley, of Centre Hall; Charles, of Peabody, Kan.; Mrs. John Getts, of Lemont, and Mrs. A. W. Haffer, of Bellefonte. The deceased was a consistent member of the Lutheran church at Boalsburg where the funeral was held Tuesday morning at 100'clock. MRS. MARY ANN FRY :-- one of Pine Grove Mills' highly respected ladies died in her ooth year, at her home Saturday morning, 25. She had been ill one week with paralysis which came while at the supper table enjoying her evening meal. She never regained consciousness. She was a good, christian woman, a kind neighbor and friend and a life long member of the Refermed church. She is survived by one brother, Thomas Kustenborder, of State College, and four children, Robert B., Mrs. G. W. Ward and Mrs, S. A. Young of Bellefonte ; Capt. William H. Fry, of Pine Grove Mills. There are also 22 grand and 9 great grand children to mourn the aged lady. The funeral took place Monday worning at 10:30 o'clock. Interment in the old cemetery by the side of her husband. MARY MOTZ WEAVER :- Died at Brockton, N. Y., on Friday 24 inst., where she made her home with her grandchildren. Mrs. Weaver was a daughter of Jacob and Elizabeth Hess Moiz, of Woodward, where she was born and resided all her life, except the past two years. She was the widow of the well-known Noah Weaver, a once prominept citizen of Haines township. De ceased leaves no survivors. Her son, Thomas having met an accidental leath in Tennessee. Mrs. Weaver death in Tennessee. devoted member of the Evan gelical church. Her remains were tak-en to Woodward for burial on Monday morning, having arrived at Bellefonte on Sunday afternoon. Funeral on Tuesday morning in the cemetery at Wood

## CANE OF THE HAIR.

Don't brush the hair only. Brush the scalp until it glows. Don't think that you must not brush

the hair because it is falling out. Don't wear the hair always in the same style. A change of mode is beneficial.

Don't brush the hair roughly. Let the motion of the hand be light and gentle. Don't brush the hair in any other direction than the way in which it

grows. As a rule don't wash the hair oftener than once a month. Too frequent wash-

ing makes it dry. Don't tie the hair or roll or twist it in any way tightly. This strains the roots of the hair and is very injurious. Don't use many hairpins. If each pin is made to do its duty and the hair is arranged to fit the head few pins will be needed.

Don't use too much soap, borax or soda when taking a shampoo. Substitute yolk of egg. If the hair is natural ly oily use only the white of the egg. Don't rub the hair briskly with towels after washing it. There is danger of breaking the long hairs. Absorb the moisture carefully with warm towels.

#### Avoid the Hurry Habit.

If there is one lesson more than an other that Americans, and especially American women, need to learn, and at once, it is to make haste slowly. Hurry is the most destructive of our national habits. It is the chief cause of our national disease, nervous prostration, and one of the principal allies of the undertaker. Hurry and worry always go together. Hurry destroys thoroughness. The woman who hur ries cannot have her heart in her work, says the Housekeeper. Thinking constantly of what is to be done next, the task of the present is slighted by borrowing unnecessarily from the future Paradoxical as it may sound, hurry is the subterfuge of the lazy. A man or woman who is lazy at heart often hurries to make a pretense of working and detract attention from real idleness Little time is required to compute the results achieved by the person who bustles breathlessly about with perveunstrung and putting every one within hearing in the same condition.

#### Miller and Grain Expert.

Miss Sallie Freishler, a seventeenyear-old girl, whose home is on the banks of the Perklomen, owns and operates a flour mill which grinds nearly all the wheat raised by neighboring farmers. During two years past she has managed entirely alone, only calling in assistance when a very heavy load of rye is to be taken in or an extra large invoice of flour shipped. The output of her mill when water power is good averages 2,000 pounds daily. Miss Sallie has also won reputation as a grain expert, being able to estimate the yield of rye while it is in the field and understanding thoroughly the qualities of the grain. She is a good woman also, making her own bargains keeping her own books and attending to her own correspondence. Her mill was in existence at the time of the Revolution, and it is said that Washington's soldiers slept within its walls and ate bread made of the flour it ground. It was owned by Miss Sallie's grandfather, being inherited by his son, her father, and passing thence to her.

#### Choosing a Husband. A girl may feel certain on this point

-as a man treats his mother and sisters so he will treat his wife six months after marriage. This may seem cold blooded, very far removed from the tender feelings which courtship induces, but a girl has a choice to make, a choice upon which the happiness of her whole life will depend, and there is always a time, whether she notices it or not, before she parts with the control of her heart at which she ought to listen to her judgment, says the Gentlewoman. Without better evidence than her own feelings she is very likely to make a mistake, but if she can assure herself that her lover is a man who is respected and liked by his male friends and is a favorite at home she may be pretty sure that in listening to The Bellefonte Republican Will Give a his love she is choosing wisely.

#### The Thin Neck.

Unfortunately the possessor of a thin neck invariably pokes her head forward as she walks, and this ungraceful habit encourages what is termed "saltcellars" in the collar bone. The neck must be held erect, both to prevent and cure these ugly defects, and also a regular course of arm exercises is equally necessary. The arms must be raised vertically, the lungs being inflated at the same time with long, deep breaths. In bringing the arms to the side again care should be taken that the elbows are kept in position. A semicircular movement of the arms is also an excellent exercise, but the elbows must be kept rigid or else the hollows in the neck will be increased.

#### Physical Attractions.

A woman is very foolish to underrate physical attractions. They have a power, as do the beauties of nature. She is also foolish to lay too much stress upon them, since they are perishable. Mere beauty will never make the impression upon the world that a combination of beauty and brains always has and always will. Charming manners are an open sesame to the heart, whether or not they are accompanied by beauty.

#### Cooking Utensils.

At house cleaning time brighten tins and other cooking utensils, put them all in the wash boiler and place on the fire with plenty of water and a liberal amount of washing soda. Let them boil for twenty minutes, remove the wash boller from the fire, but do not take the tins out for three hours. At the end of that time they will be when washed bright and new looking.

#### Water Colors.

Water colors appear to the best advantage when encircled by a gold mat, the deep yellow setting bringing out the coloring of the aquarelle with richer effect. For occasional subjects, such as an orchard scene with apple trees in bloom, a white mat makes an admirable frame, but the golden setting ts the better in most instances.

#### Wants Independence.

At the session of the home rule convention, in Honolulu, an ex-Delegate urged that congress be memoralized to grant Hawaiian independence. He also strongly favored the establishment of a government for the islands similar to that of Cuba. His remarks were received with much applause.

It is probably that a petition embodying the views xpressed by Wilcox will be prepared for presentation to congress by Delegate Kalanianole. Such an appeal would doubtless receive the signatures of many natives.

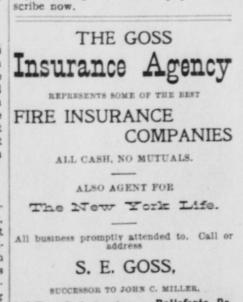

#### A NEWSPAPER'S ENTERPRISE.

Chapel Organ to Some Church or Religious Society in

## Centre County.

The Bellefonte Republican, which on the first of May, 1903, passed into the hands of Earle C. Tuten, is showing commendable enterprise by giving away to some worthy church, chapel or Sunday school in Centre county, a valuable chapel organ. The organ is manufac-tured by the Hobart M. Cable Co., of Chicago, and was purchased through M. C. Gephart. A coupon is published each week in the Republican and its readers are asked to write the name of their favorite church or religious society on these coupons and send in each week. The church that receives the largest number of votes will receive the organ. The contest is just starting and will close Oct. 1. This is an opportunity for some worthy congregation to receive an organ free for a little effort on their part. Write for a sample copy of the Republi can and get to work.

The Bellefonte Republican is furnished for \$1 per year, or will be sent on trial . until Dec. 1st for 25 cents. It publishes all the local happenings in the county and has a correspondent in almost every town and village. Special features are its bright editorials, Pennsylvanta German letter, Grange column, fashion letter and short stories. Each week a bright, up-to-date piece of sheet music is given away free with the paper. Subscribe now.

Bellefonte, Pa. 2nd Floor Bush Arcade.

#### Impure Molasses.

Thirty-seven suits are to be entered against Philadelphia grocers for the sale of impure molasses, the reports of chemists who analyzed forty-one samples, will be commenced at once in Philadelphia, where the Commissioner will appear as the prosecutor in several cases in which action has been brought for sale of adulterated fruit and soda syrups. There will be over 200 suits instituted in various parts of the State this week to bring sellers of impure articles to book.

An alarm clock will not make bread rise.

Would that the bark of the mosquito were worse than its bite!

Shooting rapidly toward the ground on Tuesday while hundreds of patrons of Paxtang Park looked on in helpless horror, Aeronaut Ed R. Hutchison could not make his parachute work until within seventy-five feet of the ground. The umbrella folds of the machine then loosened and although the balloonist struck the ground with unwonted force he was unhurt.

Saturday night Harvey Hunter, an old river pilot, of Newport, Perry county, caught a sturgeon in the Juniata River that is seven feet long. It was caught in a basket and is the biggest catch ever made in the Juniata as far as old residents can remember.

## HAY FEVER ABOLISHED.

Relief for this Malady Discovered by Medical Science -- Breathe Hyomei.

Among the important additions made to medical science in recent years, none is more notable than the positive announcement of a cure for hay fever.

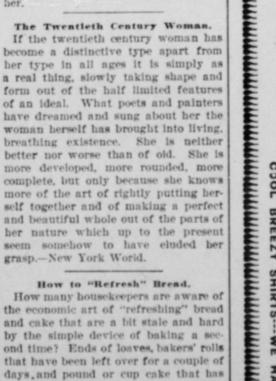

While this disease is not regarded as fatal, it is certainly a most distressing malady, and if anything can be devised to cure it, a great boon will be conferred apon the human race.

Exhaustive experiments with Hyomei prove that this treatment will prevent all attacks of hay fever if used two or three weeks before the annual appearance of the disease and that it may be relied upon if used faithfully after the disease has begun, to relieve at once and afford a speedy cure.

Sidney Krumrine has sold hundreds of Hyomei outfits for the treatment of disease of the respiratory organs under the agreement to refund the money if Hyomei did not afford relief.

In selling Hyomet for the cure of hay-fever he will continue this equitable plan, and want all who are subject to this distressing malady to begin its use at once, with the understanding that if it does not give satisfaction, the purchase price is to be refunded.

tomach dosing cannot cure hay fever. A change of climate is the only treatment that has heretofore aborted an attack, and Hyomei, which is breathed through a neat pocket inhaler coming with every outfit, acts upon this principle, giving in your own home a climate like that of the White Mountains or other health resorts. | ward. Her age was about 71 years.

How to "Refresh" Bread. How many housekeepers are aware of the economic art of "refreshing" bread and cake that are a bit stale and hard by the simple device of baking a sec ond time? Ends of loaves, bakers' rolls that have been left over for a couple of days, and pound or cup cake that has lost its first pristine excellence should be passed with the swiftest movement through a pail of pure cold water and then put in the oven to recuperate. And these odds and ends will recuperate in most wonderful fashion and be twice as digestible for their rejuvenating experience. When not dipped in water it is almost as effective to sprinkle the cake or bread before setting it in to bake a second time.

#### Woman Is as Man Makes Her.

A toast to the true woman, whether the "new woman" or the old love: Be true to her; life be dear to her; health stay close to her; joy draw near to her: fortune find what you can do for her: follow her footsteps the wide world over, and keep her husband always her lover. The woman is what the man makes her. Let the man learn the art of molding .- Mrs. Burton Kingsland in New York World.

#### Choosing a Hat.

Don't choose a hat without due deliberation. The value of a becoming one cannot be calculated. It is the article of attire more than any other which brings out the good points or accentuates the bad ones, not only of eyes and hair, but of complexion and the shape of the head. Don't forget that if the hat is suited to the wearer all else is forgotten and forgiven.
