SOAKING THE PUBLIC FOR IT.

There were collected last year in the United States \$53,000,000 revenues in excess of the great expenditures of the Federal Government, and one of the sum was derived from duties on the im- copy viz : portation of luxuries. This notion is very easily disposed of. The customs revenue last year amounted to \$283,000, 000, and it was the largest sum ever realized from the tariff. But instead of the greater portion being collected from the importation of luxuries, it is safe to say, and clearly demonstrated by the treasury reports, that three-fourths of the \$283,000,000 was collected from taxes upon the necessaries of life, or the requirements of business in the raw material of manufacture.

In a list of twenty-five leading articles of import, only three can be classed as luxuries-that is importation of silk, spirits and wine, jewelry and precious stones. The chief articles of import fast in pushing to trial the astounding taxed are sugar, chemicals, cotton goods, wool and woolen manufactures, iron and steel, leather, earthen, stone and China ware, tin plate, wool and its manufactures, fruits and nuts, fish and oils. These are not articles of luxury by a long shot, but the prime essentials of living and manufacture. The average duty on them is 50 per cent., and they comprise twenty-five of the leading articles of import. The luxuries get off lightly. The bulk of taxation-more than three-fourths in fact-is collected MORGANS undigested securities, in the from the necessities of living and the essentials of manufacture. WALLACE'S GREAT PARADE

And So Is His Circus, According to All Reports.

The Great Wallace show, which is extensively advertised to exhibit in Bellefonte on Tuesday, Sept. 8, seems to be unusually popular wherever it exhibits. It bears acquaintance, and its popu-

larity is greater where it exhibits annulife place him as the one dangerous foe in such cases is often efficacious, so he ally. ## Entertainments Galore.

There has been an abundance of amusement for our people. A medicine man with a lot of clever musicians and minstrel specialists are giving free shows on our diamond. They have a two weeks lease on the town. Tuesday evening a free dog show held forth, yesterday the big picnic at the Park, then we have a whole list of attractions ahead: Wallace's big show, Bellefonte, Sept. 8th, Veteran Club picnic at Pine continues for a week. The famous Centre County Fair, October 6th to 10th will ment right about home.

## Hazel-Shaffer.

A reunion will be held by the members of the Hazel and Shaffer families and two brothers and one sister, as follows: their relatives, at Penn Cave, Wednesday, September 23rd. Senator Heinle, Prof. C. M. Gramley, and others will deliver addresses. It will be a basket picnic to which all members of these families and their friends are cordially invited. These families are largely represented in this county and for that reason the gathering should prove a large one as well as interesting. This will be the first meeting, and it is proposed to form a permanent organization for future gatherings.

Council Meeting.

Monday evening's session was devoted principally to consideration of routine business. Owing to the great number of worthless dogs in the town and frequent complaint of children being bitten Burgess Walker was urged to enforce the dog ordinance by which all dogs not as-sessed shall be killed by the High con-stable. The bill boards on Thomas and Bishop street were ordered removed. Work on the Water street stone wall is progressing. Bills to the amount of \$825 were approved.

Three years ago Blair Hurley, of Bedford county, lost a five dollar bill in his barn. A few days ago he came across a bumblebees' nest at the building and upon examining it closely discovered that the insects had used a greenback in constructing their home. Placing the fragments together Mr. Hurley found that he had a five dollar bill, most likely the one he lost. He will ask "Uncle Sam" to redeem the tattered and torn money.

#### HAY FEVER FOR 27 YEARS.

CLYDE:-the youngest son of Mr. and Well Known New England Woman Cured by Hyomei.

The thousands of discouraged people who dread summer's approach because they think that hay fever cannot be avoided, will read with interest and gratitude the following statement from Helen F. Williams of Mansfield, Mass. "For 27 years, from the month of August until heavy frost, I have been af-

flicted with hay fever, growing worse and worse each year, and of late years I was unable to attend to my work during that period. "Last summer I fortunately gave Hyomei a trial and am happy to say that it entirely cured me and I have had no re-

turn of the affliction since." This letter is one of the many that have come to the proprletors of Hyomei, and the results following this treatment, have been so wonderful that it is proposed at the annual convention of hav fever sufferers to recommend Hyomei to all who are susceptible to this disease.

Hyomei is a treatment for hay fever that combines the latest discoveries of science and the best of common sense. Knowing that a change of climate was the only way in which relief could be obtained, the evolution of Hyomei naturally resulted. By breathing its germ killing and healing balsams, any one can have, at any moment of the day, either in their home, the office or the factory, a climate like that of the White Mountains or other health resorts, where hav fever is unknown.

Sidney Krumrine agrees to refund the money to any hay fever sufferer who uses Hyomei if it does not give satis-
