Parents living in the country and towns within easy access of Bellefonte should have their children take advantage of the courses of instruction offered by the Bellefonte Academy, one of the best preparatory schools in the country. The future will call for educated men and women in every department of life. Success will not be attained without it, you owe it to your children to place them early in a good school and have the foundation work of their education made the very best. It is a great mistake to keep them in schools inadequately equipped in teaching force or in apparatus until they have outgrown them, and then expect them, when entering such advanced schools as the Academy, to be prepared to class with those of their own age. Ten teachers constitute the Faculty of the Academy, and the apparatus is up-to-date. Special individual attention to your children is guaranteed. Students' rates on the railroads, school schedule arranged to suit the railroad schedules. Certificates admit to Penna. State and other Colleges. Terms reasonable. Fall session opens Wednesday, Sept. 9. For further particulars address JAS. R. HUGHES, A. M., Head Master.
