The little scribbler at Pine Creek won- future. ders where the scribe gets his news ; not at Pine Creek, as there is no news only huckleberry Dave and blackberry Philip and that is no news.

The whippoor wills are trying to leave the valley and skunks are moving north-ward and prince is dancing jubilee on a tin plate.

Jack, can you answer this question : don't you think it foolish of any one that has two farms and a mansion and money on interest to crawl among brush and briars and pick berries at 5cts. per qt.? I think I would sit in the shade and let those pick that are more in need.

The pursuers of the game were under the direction of Constable Grant Meyer, who stationed him-self on the summit of Mt. Nittany and had a man placed on the top of nearly every tree along the end of the moun-tain. Lou. Campbell manifested his appointment by bagging the catamount when he came along under his tree, and the rest of the gang, which were on the "afraid" list, were composed of the Wil-liams family by dod. If you are suffering from kidney or bladder disease, the doctor asks: "Do you desire to urinate often, and are you compelled to get up frequently during the night? Does your back pain you? Does your urinestain linen? Is there a scald-ing pain in passing it, and is it difficult to hold the urine back? If so, your kidneys or blodder are discoved or bladder are diseased.

Try putting some of your urine in a glass tumbler, let it stand twenty-four hours. If there is a sediment, or a cloudy, milky appearance, your kidneys are sick. Dr. David Kennedy's Favorite Remedy will surely relieve and cure the most dis tressing cases of these dread diseases, and no physician can prescribe a medicine that equals it for kidney, liver, bladder and blood diseases, rheumatism, dyspep-sia and chronic constipation. in the United States have used the Longman & Martinez Pure Paints. Every church will be given a liberal quantity whenever they paint. Don't pay \$1.50 a gallon for Linseed

want fourteen gallons of paint, buy only eight gallous of L & M., and mix six gallous of pure linseed oil with it.

You need only four gallons of L. & M. Paint, and three gallons of Oil mixed therewith to paint a good sized house. Houses painted with these paints

A Wonderful Invention.
