

AMERICA'S CUP REMAINS HERE

Reliance Wins Last Race in Series With Shamrock III.

SPECTACULAR FINISH IN FOG

New York, Sept. 4.—The Reliance, the America's cup defender, has won the third and final race in the series for that famous sea trophy, the America's cup. In a dense fog, which prevented vision beyond 200 yards, she finished the race amid the acclamations of the assembled feet. Shamrock III, after running for more than an hour in the fog, missed the finish line, passed by it and then returned to it from the opposite direction. The Reliance was then being towed to the fleet, yacht ensigns fluttering from her truck and spreaders in celebration of her victory. The Shamrock III did not cross the finish line. As often said of the historic race when the America won the cup, there was no second.

This successful result was achieved only after four futile attempts to sail off the final race and after the outcome had been admitted by even Sir Thomas Lipton to be a foregone conclusion. This was the eighth attempt to sail a race. After one fluke, the Reliance won the two following races, one by 7 minutes and 3 seconds, and the other by 1 minute and 19 seconds. A week ago the first attempt to sail the third race failed, and attempts have been made every day this week. On two occasions the Reliance led the Shamrock to the finish line by about two miles, but failed to reach it before the expiration of the time limit of five and a half hours. Yesterday's victory means that the cup is destined to remain in America until England is able to produce a genius equal to Herreshoff in yacht designing.

Rarely, if ever, has there been a more spectacular finish than the Reliance's. After racing for more than an hour at terrific speed through a blinding fog, the Reliance burst through the wall of mist upon the vision of the spectators on the fleet assembled at the finish line, and heeling under a great bellying balloon jibtop-sail until her lee rail was awash, led across the finish line almost before the spectators could determine for a certainty that it was she. Once more the Yankee boat had added to the long string of victories in contests for the honored old silver trophy that carried with it the blue ribbon of the sea.

Lipton May Challenge Again.
New York, Sept. 5.—Sir Thomas Lipton is still undecided whether to challenge again for the America's cup. He said:

"If I can find a man who can design a boat to beat the Yankee sloop I shall challenge again. To say that I will not challenge again is untrue. If I do not challenge again it will be with a 90-footer."

Sir Thomas said that when Shamrock III was sailing in England on a 92-foot water line, before her extra weight was removed to bring her within the 90-foot limit, she did a great deal better than after the change.

Both Shamrocks were towed to Erie Basin. They will be jury-rigged and start for England in tow in about 10 days. Sir Thomas said that he would not sell either of them.

WILL CONVERT FEUDISTS

Pittsburg Salvationists to invade Breathitt County, Ky.

Pittsburg, Pa., Sept. 7.—A deputation of Pittsburg Salvationists, under the leadership of Staff Captain White, will leave Wednesday for the feud district of Kentucky and undertake the work of reforming the feudists. The objective point will be Breathitt county. The party will be made up, outside of a few of the officers in the work in this city, of members of the local army who volunteer to give their time to the work, and it is likely that by the time that the party is ready to start there will be quite a formidable array of local workers in the party.

The reception which the members of the army will receive in the counties to be invaded is a matter of grave doubt to many interested in army work, but those who are going seem to have no fear of the manner in which they will be treated.

Fatally Shot By a Boy.

Pittsburg, Pa., Sept. 8.—William Hooper, of the firm of Hooper Brothers, brick manufacturers, was shot and probably fatally injured in a field east of his brick yard. For time boys and men have made a practice of hunting rabbits in the field, and the workmen in the brick yards felt unsafe. Mr. Hooper started to disperse a crowd of hunters from the field, when Joseph Anthony, aged 17, deliberately emptied the contents of his gun into Hooper's breast, tearing a large hole. Physicians say he cannot recover. Anthony claims that Hooper threw a stone at him and he fired in self-defense.

Cow Wrecks a Train.

Goshen, Ind., Sept. 7.—A south-bound Big Four passenger train was wrecked here by hitting a cow. The locomotive turned over and landed half way down an embankment on its side. The baggage car was derailed. The engineer and fireman escaped unhurt. While the wrecking crew was clearing the track a chain broke, the recoil hurling it into the crowd that was watching the proceedings. Samuel Oliver received a broken thigh and is in a critical condition. Victor Kauffman, aged 13, was badly injured in both legs, and Charles Alwine, aged 10, was seriously injured.

A WEEK'S NEWS CONDENSED.

Wednesday, September 2.

Representatives of the Quarrmen's Unions in the United States met in Washington to form an international union.

Three men were caught by a sudden rush of water in a sewer at Milwaukee, Wis., and drowned. They were making repairs.

A London dispatch says Field Marshal Earl Roberts may not visit America this year owing to press of official business.

In a wreck on the Norfolk and Western Railroad at Winston-Salem, N. C., Engineer Lucas was killed and his fireman fatally injured.

The 3-year-old daughter of Mrs. John Lennox, of Williamsport, Pa., was burned to death in her home during the absence of her parents.

Thursday, September 3.

Three men were injured by the falling of a 40-ton crane at the American Steel Foundry works at Chester, Pa.

The dredge Benyard, the last of the government vessels at the Triggs ship yards at Richmond, Va., has been launched.

An Animal Story For Little Folks

HOW
Jim Bug Was Frightened

"The police are after you!" cried But-terfly to Jim Bug.

"What for?" asked Jim Bug.

"They say you climbed the fence around Farmer Jones' orchard and bit a piece out of one of his apples."

"Oh, my!" cried Jim Bug. "I am dis-covered! What will they do with me?"

Then he began to run for his home. When he finally reached the house he rushed in out of breath.

"Oh, ma," he cried, "what am I to do? The police are after me for taking a bite out of one of Mr. Jones' ap-ples."

"Hide in the cellar under the wash-tub!" exclaimed his mother.

So down into the cellar Jim Bug hur-ried and crawled under the wash-tub. He kept just as quiet as he could be-

HE BEGAN TO RUN FOR HIS HOME.

cause he expected a big fat policeman would come along at any moment and carry him off to jail.

Presently he heard his mother com-ing down the stairs.

"It's all right, Jimmie; it's all right!" she cried. "They are not coming to do anything with you."

"How do you know, ma?" he asked.

"Caterpillar has just been here and told me," she replied. "They were go-ing to punish you, but changed their minds."

"Why, ma?"

"Because they found that you had only bitten a crab apple. They thought that would make you very sick and that would be punishment enough for you."

"I do feel rather sick under my shirt," said Jim.

"Well, I'll give you a dose of ginger and you'll be well in a little while," said his mother.

"That was the greatest scare I ever had in my life," said Jim. "I guess I won't eat any more apples that are not mine."—Pittsburg Dispatch.

An Animal Story For Little Folks

THE
Frog Makes Love to the Moon

The frog fell in love with the moon and made up his mind that he would ask her to marry him. He put on his best clothes, and when night came and the moon rose high in the sky he sat down beneath a tree and began to

HE PUT ON HIS BEST CLOTHES.

croak out his story of love. Just as he reached the point where he was going to ask the moon to marry him she hid behind a cloud.

When she reappeared he began his courtship all over again; but, just as he got to the point of proposing, away she went behind another cloud. Then he cried a third time and a fourth time, but whenever he was ready to "pop the question" the moon disappeared.

He was a very persistent fellow, however, and at last he was successful in asking her the very important question. He smiled his sweetest and spoke in his tenderest, most loving tones.

"Will you, oh, will you, dear moon, will you be?"

And before he could say "mine" the moon had disappeared behind a hill, and the poor, foolish frog shed a few frog tears and went home. He is a bachelor yet if he has waited to marry the moon.—Pittsburg Dispatch.

Paying Cash.

It would be a good thing if the fam-ilies of a neighborhood would band to-gether, pledging themselves to buy nothing on credit; to pay cash for every purchase, no matter how their "credit" stood, thus literally living within their means. Pecuniary indebtedness for cur-rent living is not desirable, and al-though involuntary indebtedness is well-nigh universal, it is yet one of the great-est evils extant. Very few people really have to go in debt for necessities. It is the purchase of the unnecessary which calls for credit. One's necessities are really very few, when closely planned down, if every one would make up his or her mind to buy nothing without pay-ing for it on the instant; it is really wonderful to what a small compass their wants would shrink. If everybody would adopt the cash system, there would be little cry of "hard times" for every one, knowing the exact state of the in-dividual finances would govern the pur-chase accordingly and the necessary would take precedence over the mere fancy. The credit system is responsible for an immense amount of unhappiness, loss and ill-feeling between friends. The good the system may do is greatly over-balance by the evil it has done, is doing and will continue to do so long as it is allowed.

Some time ago Emil Jeleni, a Stewart Station Italian, arranged with the foster-father and mother of Francesco Julia Amleli, aged 14, for the latter to become his wife on the payment of \$40. After-ward the ante was raised to \$100, and then to \$300. Jeleni stood for the ad-vance, paid the money, and was to get the girl Friday of last week. He arriv-ed at the girl's home, attired in his best with several kegs of beer, but the fair Francesco had disappeared, leaving bright and early with another fellow and now there is a very despondent "Ike" in Westmoreland county.

Men with polished pates ought to shine in society.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O. We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm.

It's About Now

That the School Shoe question is a very important matter. The Boys and the Girls must have School Shoes. If every parent, who intends to buy School Shoes for the children this Fall, would come here and examine our School Shoes, learn the good points in them, see how well they are made and how well they look, we believe that we would sell every pair of School Shoes sold in Bellefonte this season. Cheap School Shoes are a very poor investment and there is no use in getting that kind, and you won't, if you come here. We have School Shoes for big boys and little boys, for big girls and little girls; all sizes and all widths at all prices; \$1.00 to \$2.00. NOT A BIT OF RISK, for every pair of School Shoes we sell shall be as represented. If they fail in any respect, we will stand the loss. Bring in the children for School Shoes.

Mingle's Shoe Store,

Bellefonte, Penna.

FAIRBANKS GAS & GASOLINE ENGINES

FROM 1 TO 100 HORSEPOWER.

NO FIRE, NO ASHES, NO ENGINE, NO DIRT, NO DANGER, NO RISK.

The name "Fairbanks" on any engine or tool is a guarantee of highest excellence. Several thousand of our Gas and Gasoline Engines are being successfully operated today in all parts of the United States, and are not an experiment but the result of years of experience. It is a most convenient power, capacity can be developed in half a minute, and when it stops there is no further consumption of fuel. Costs less than any steam engine to operate, requires no special attention, and is easily regulated.

This shows our Horizontal Type

built from 3 to 100 horse power, and can be equipped for either gas or gasoline, which is ignited in the cylinders by an electric spark, causing the explosion that drives the piston with great force.

[Recently a 4-horse power engine like above was installed in the Centre Democrat office, Bellefonte, Pa., and has proven very satisfactory, and can be seen at any time.]

The Vertical Engine

occupies less floor space and is built on the same principle as the horizontal, and is made in from 1 to 4 horse power. It is a convenient engine for driving small machinery.

Write for our Engine Catalogue to

THE FAIRBANKS COMPANY

236 3rd Avenue, PITTSBURG, PENN'A.

WE ARE ALSO DEALERS IN ALL KINDS OF MILL SUPPLIES, SCALES, VALVES, MACHINE TOOLS, PULLEYS, SHAFING, TRUCKS.
