

EVENTS OF SEVEN DAYS PAST

Classified, Explained, No Sensationalism or Partisanship

COMMERCE and INDUSTRY

Financial.

Lake Superior's Receivership.

At the instance of Speyer & Co., the New York creditors of the defunct Consolidated Lake Superior company, the Canadian courts have appointed H. F. Frackenthal, Jr., of Easton, Pa., as receiver of the Canadian subsidiary works. The board of directors has accepted a plan for the company's reorganization. Many hundred workmen who were employed by the Lake Superior have come into the works at Sault Ste. Marie and the Soo in great distress because they have not received their wages. Monday it was reported that the company's promoter, Clergue, had raised the \$5,000,000 to pay the Speyer note.

Skyscrapers For Cleveland.

It was reported at Cleveland that John D. Rockefeller had decided to erect fifteen large office buildings at a cost of \$2,000,000 each.

Coal Output Curtailed.

Most of the large anthracite coal companies of Pennsylvania have curtailed operations, giving as a reason that the market was overstocked. The miners say that the object is to keep prices up.

China's New Money System.

Chairman Hugh Hanna of the monetary commission, sent to Europe to confer with the powers on the subject of a new monetary system for China and other silver using countries, said that the general object was attained—greater stability in the cost of bills of exchange that may be sold to Chinese imports for settlement of their outside purchases. Professor Jenks of Cornell university will soon go to China to take up the plan with the Chinese officials.

The Markets.

A further general decline in the great industrial and railroad stocks kept pace with the downward plunge of steel trust securities until the latter were steadied by the Morgan clique. This is believed to be a healthy reaction from last year's over-speculation.

Wheat and corn have eased off on more favorable crop reports. Oats have been at the top of the cereal list. Hay and straw active. Following last week's activity, the prices of meats and provisions have remained about stationary. At New York beans commanded \$3. best marrow; creamery butter, 21 1/2c.; fancy eggs, 26c. to 28c. Steady demand for fruits.

Accidents and Disasters.

The south bound fast mail train of the Southern railroad jumped a seventy-five foot trestle near Danville, Va., Sept. 26, killing nine of the crew of sixteen and injuring the rest.

Norval King, the \$25,000 trotting stallion, was killed in a Union Pacific wreck at Grand Island, Neb.

Fifteen lives were lost in the burning of the Hotel Brunswick at Rochester, N. Y.

The recent heavy storms in the West Indies destroyed the homes of 5,000 people on the island of Cozumel, off the coast of Yucatan.

Agriculture.

Corn and Cotton Better.

The weekly crop report to Dun's review showed that the damage to corn from frost was not so great as had been stated. Texas cotton picking is in progress, and the crop is showing up well.

Automobile as Plow Horse.

Near Ashtabula, O., a wealthy farmer has used his automobile hitched to a plow, doing in one hour the work horses would take three hours for.

What the Farmers Want.

The farmers' national congress, which was in session at Niagara Falls last week, with 300 delegates representing thirty-eight states, adopted resolutions favoring a graduated income tax, the

direct election of senators, the parcel post and postal telegraph and savings bank, laws to control trusts, more rural delivery, the referendum and an agricultural census every ten years, beginning next year.

England Admits Our Cattle.

The British government has withdrawn the order prohibiting the landing in Great Britain of cattle from New England except that part in relation to swine.

Labor.

Miller Case Before President.

Labor leaders of national prominence, including John Mitchell and Samuel Gompers, have attended a meeting of the executive committee of the Federation of Labor at Washington with the object of reaching some agreement in regard to the case of Bookbinder Miller of the government printing office. They requested a conference with President Roosevelt as soon as he returned to Washington, Monday, to endeavor to convince him that he should alter his ruling which made the great printing office virtually an "open shop" and so unable to give preference to union men. The Central Labor union at Washington and others elsewhere have petitioned the president on this matter. John Mitchell lunched with the president Tuesday.

Flour Supply Cut Off.

Many of the great flour mills of Minneapolis have been closed, the employees striking for an eight hour day. The millers have advertised for laborers and will fight to a finish.

Wyoming Miners Threatened.

More than 14,000 miners have threatened a strike on all the properties of the Union Pacific in Wyoming to enforce their demand for increase of wages and decrease in hours.

Northwestern's Wages Raised.

The Chicago and Northwestern railroad after conferring with a committee of the unions in the repair shops has granted recognition of the union and an increase in wages.

Unionism Drives Out Business.

The head of the great Allis-Chalmers company says that the removal of its entire plant and offices from Chicago to West Allis, Wis., is compelled by labor troubles and strike losses.

Iron Workers Support Parks.

The convention of International Iron Workers at Kansas City, Mo., decided to send the delegates of the New York House Smiths' union, headed by Sam Parks, notwithstanding that this union had been ruled out of the association by President Buchanan. Parks declared it was the proudest moment of his life and that now he would begin to do things.

SCIENTIFIC

Do We Eat Too Much?

Beginning this week, a squad of volunteers from the United States army at Washington is undergoing a test at the Sheffield Scientific school, Yale university, to determine the least amount of protein and albuminous food required for the maintenance of health and strength under ordinary conditions of life. Professor R. H. Chittenden, who has charge of the experiment, says that it will occupy a period of about nine months and that no special theories are involved. He thinks "there is apparently no question that people ordinarily consume much more food than there is necessity for and that this excess of food in the long run is detrimental to health and defeats the very object aimed at."

Behring's Consumption Theory.

Professor von Behring, the famous discoverer of the diphtheria serum, announced at Berlin that he had found a means of making human beings immune from consumption by inoculating them with a harmless tuberculosis serum obtained from cattle.

Science Notes.

The hitherto incurable disease of epilepsy was being treated successfully by use of the X rays at the Postgrad-

uate hospital, New York. . . . At the recent trials of the electric cars on the Marienfeld military road, Germany, a speed of 118 miles an hour was maintained for two miles. . . . Professor Dunbar of Germany says that hay fever is caused by the pollen of grasses, not by mechanical irritation, but by a poison which he has found in the pollen. He has produced a curative serum which cures after four or five applications. . . . Monday's cable from London says two Frenchmen had made the record of crossing the English channel in a balloon.

Recreative Sports

Prince Alert's Mile in 1:57.

The fastest mile ever traveled by a horse in harness, 1:57, was paced by Prince Alert at the Empire City track, Yonkers, N. Y. The previous best record was 1:59, made by Dan Patch at Brighton Beach. Prince Alert's performance also included a new record of 50 1/2 seconds for a half mile, fastest ever paced or trotted, and the fastest last furlong in 13 seconds. Alert is owned by James Hanley of Providence, R. I., and was driven by J. C. Curry. A wind shield was used.

Another Two Minute Trotter.

On the Empire City track Sept. 25 Major Delmar became the champion trotting gelding when he equaled the world's trotting record of a mile in two minutes, held by Lou Dillon, thus taking place beside the turf queen. Although paced by a runner and aided by a wind shield on sulky of leading runner, Major Delmar had unfavorable conditions of wind and track. In one respect his achievement was greater than that of Lou Dillon's because in the fractional parts of the mile new world records were made. On the day before this great trotter was bought by E. E. Smathers from Frederick Parke for \$40,000, the largest sum ever paid for a gelding. Major Delmar was driven by A. P. McDonald.

New Running Record.

At the seventy-first meet of the New York Athletic club Alexander Grant made a new world's running record—two miles in 9m. 27 1/2-5s. The old record was 9m. 32 1/2-5s.

Miscellaneous.

Mrs. Nation's Philanthropy.

Mrs. Carrie Nation, the hatchet saloon smasher of Kansas, has conveyed a house and lot in Kansas City, Kan., to the Associated Charities of that place, to be maintained as the Carrie Nation Home For Drunkards' Wives. She said this was but the first of a series of such houses to be established in different cities.

A Gray and Blue Wedding.

The engagement was announced of Miss Rosemary Sartoria, granddaughter of General Grant, to Lieutenant John A. Wright, son of General Marcus Wright, who fought on the Confederate side during the civil war. As a colonel of a Tennessee regiment General Wright fought Grant at Belmont and Shiloh. With the marriage of Miss Rosemary three of General Grant's grandchildren born under the British flag will have become American citizens.

"Strenuous Life" the Cause.

Professor Goldwin Smith, the distinguished Canadian scholar, asks in the current Independent if President Roosevelt's constant preaching of the strenuous life may not indirectly and unconsciously contribute to the prevailing reign of violence in connection with the race issue.

Deaths.

Fred S. Gibbs, a noted figure in New York Republican politics for twenty-five years and a member of the national Republican committee, died at Asbury Park, N. J., Sept. 21.

Charles B. Farwell, ex-United States senator from Illinois and one of the oldest residents of Chicago, died at that place Sept. 23. He was one of the first multimillionaires.

LEGAL ADVERTISEMENTS.

EXECUTOR'S NOTICE.

Estate of JOHN W. BECKWITH, deceased, late of Taylor township. Letters testamentary upon said estate having been granted by the Register of Wills to the undersigned, all persons knowing themselves to be indebted to said estate are requested to make immediate payment, and those having claims, to present them for settlement. ES

GREAT SALE.

Of houses, lots and fine farm situate in Milton, Sunbury and West Chillisquaque township.

The heirs of Henry Hummel, late of Milton, Northumberland county, Pa., deceased, will offer at public sale on the farm being sold in West Chillisquaque township on

SATURDAY, OCTOBER 10th, 1903, at one o'clock p. m., the following described real estate of said deceased, to wit:

River Bottom farm in West Chillisquaque township between Lewisburg and Milton, on the public road and trolley line, containing 114 acres and 50 rods, being the best of land in a high cultivation, having thereon erected a brick mansion, large bank barn with necessary outbuildings. Never failing wells of water; and finest apples, peaches, pears, grapes and other fruits; and being a most desirable residence.

Also, at the same time and place 2 brick dwellings, in Milton, Pa., on South Front St., on lot 66 feet front and 150 feet deep, on which is double brick house, separated by walls making two complete dwellings, with stables, gardens and yards. To be sold separately or together, to suit purchaser.

Also at the same time and place

A GOOD BUILDING LOT south of above dwellings in Milton, facing Front street 60 feet and with 30 feet depth bounded on the north and east by alleys, and having stone pavement along the front. A most desirable building lot.

Also, at the same time and place

A FINE BUILDING LOT in Sunbury, abutting on above lot 20 feet and extending from the same 115 feet to Ahl street, upon which it has a frontage of 20 feet. These properties are situated in an excellent section where property is very valuable.

Sale to begin at 1 p. m., of said day, and to be held at the house on the farm in West Chillisquaque township, where and when liberal terms and conditions will be announced.

Heirs of HENRY HUMMEL, Dec'd. J. Thompson Baker, City, Lewisburg, Pa., Sept. 1A 1903.

JUST THE GIST OF IT ALL

The end of September finds the American public mind, above the daily routine of work and business briskness, waking up to the possible bearing of certain events on the all absorbing problem of party issues and candidates in the nearing presidential campaign, while in Europe war clouds darken the outlook.

The determination of organized labor to put the Roosevelt administration on record in the case of union opposed Bookbinder Miller, whose reinstatement made the government printing office virtually an "open shop," has been emphasized further by the appeals of many central labor bodies and by the conference of national labor leaders at Washington. The president, however, is thought to be unwilling even to discuss his ruling in favor of an "open shop," though John Mitchell was a guest at the White House Tuesday. The appearance of Lewis Nixon, the rich shipbuilder, as an independent Democratic candidate for mayor of New York may mean a new factor in the harmonizing of Democratic factions in the national canvass.

In the indorsement of extortion convicted Parks by the iron workers' convention organized labor and cap-

ital have not been brought nearer together. Miners in Wyoming and flour mill men in Minnesota are after more pay and shorter hours. Anthracite operators curtailing output. Collapse of the Consolidated Lake Superior company teaching its healthy lesson. Stock market was depressed. Tillman trial begun. Jett sentenced to death. Dexter murder reveals conspiracy of Adirondack woodsmen against private park owners.

With the armies of Turkey and Bulgaria almost face to face on the border, the thunderclap of war was still deferred, while Russia warned each side that it would not be allowed the fruits of victory. The French move against Morocco believed to be started, with British consent. Another anti-Jewish riot in Russia. Hungary on edge of revolt. Panama canal treaty dead. King Edward a real factor in cabinet crisis.

German scientist announced serum cure for hay fever and new immunity from consumption. Test of overeating begins at Yale. Greek theater reproduction at University of California.

Prince Alert made new world's pacing record, 1:57, while Major Delmar tied Lou Dillon's trotting record.
