Shipyard Trust Scandal.

"Well, what next?" the business world is saying, aghast at the latest disclosures of the methods used in the organization of the United States Ship-

building company, now in the hands of the receiver. In his second testimony President Dresser of the Trust Company of the Republic charged that C. M. Schwab, former head of the steel trust, had wrecked the shipbuilding trust by with-

LITTLE WOMEN.

Nature dates womanhood from the period when the womanly function is first established, so that nature's little women are school-girls, shop-girls, etc. And therein lies a danger. This period is one of the most important in a woman's life, the mental effort of study, the physical effort of labor, are doubly exhausting at this season, and coupled with neglect or ignorance are often responsible for irregularity and other womanly ailments.

Dr. Pierce's Favorite Prescription may be relied upon to carry the woman safely through this period, as it does through maternity and the later change of life. This great medicine establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness,

"Two years ago my daughter's health began to fail," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Everything that could be thought of was done to help her, but it was of no use. She kept fail-ing and I gave up, thinking she must die. I must say, Doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established, and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be,"
