

WHAT ALL THE WORLD IS DOING

Trend of Civilization in All Lines From Week to Week

POLITICS and GOVERNMENT

General.

New Congress in Session.

At noon, Nov. 9, the Fifty-eighth congress was convened in extraordinary session by the president's summons for the definite purpose of acting on the Cuban reciprocity treaty. New members were sworn in, and Cannon of Illinois as the candidate of the Republican majority was duly elected speaker of the house over Williams of Mississippi, the Democratic nominee. All the former house officers were re-elected, and the former rules were adopted. Mr. Williams became the leader of the minority on the floor.

Speaker Cannon's Programme.

In the address of acceptance before the Republican caucus which named him unanimously for speaker Mr. Cannon declared that the speaker was the servant, not the master. He referred to his party's record since 1861 as productive of prosperity and said that the era of overcapitalization had destroyed fictitious values. Consequently he was in favor of only the regular legislation for carrying on the government, trusting the people to work out their own salvation.

Speaker Cannon.

Republican Attacks Roosevelt.

Collector of Customs Wimberly, at New Orleans, a McKinley appointee and friend of Senator Hanna, declares in an open letter that President Roosevelt has wrecked the Republican party in the south. He attributes this to the president's social recognition of the negro and to "his personal and selfish policy."

Hanna Repudiates Boom.

With the appearance of the Republican landslide in Ohio there came a chorus of new calls from the Republican press of that state for Hanna as the next national standard bearer. But all this talk the victorious senator has plainly repudiated and frankly disavowed.

Salient Election Results.

The leading features of last week's election having a bearing on national politics may be summed up briefly as follows: Tammany led to Democratic victory in New York, Republicans retaining the legislature and the bigger Erie canal being approved, while Johnson led to Democratic defeat in Ohio, Gorman and Garvin retaining their prestige in Maryland and Rhode Island. Elsewhere the lines remained as before.

Bryan's Bequest Ruled Out.

Notwithstanding that the probate court at New Haven, Conn., had decided that the secret letter giving W. J. Bryan \$50,000 was not to be a part of the Philo Bennett will, Mr. Bryan was appointed one of the executors of the will. He is expected to appeal from the court's decision in regard to the letter.

Lyman Abbott on Negro.

In an address at Yale the Rev. Lyman Abbott said the race issue was kept alive by politicians and advocated a universal property qualification of suffrage for whites as well as blacks.

Other Political Points.

The policy of the administration in the orient has taken concrete shape in the dispatch of the gunboat Helena to Newchwang, at the mouth of the river on which lies Mukden. * * * A stretch of territory 140 miles in length has not been definitely delimited by the Alaskan tribunal, due to the inadequate geographical data. * * * The president has appointed George R. Carter as governor of Hawaii to succeed Sanford B. Dole, who is to become United States district judge for Hawaii.

Executive.

Treasury Running Behind.

The United States treasury statement Nov. 4 showed that the expenditures of the government since the beginning of the present fiscal year exceeded the receipts by \$22,470. There has not only been an increase in the expenditures for many purposes, but there has been a serious falling off in the receipts from customs.

Philippine Army Needed.

General Allen, chief of Philippine constabulary, in his annual report says the military force of 18,000 in seventy posts must not be reduced as a provision against new outbreaks. He suggests that the force thus employed would be available at any part of the orient.

Need of Postal Reform.

The annual report of Henry A. Castle, retiring auditor of the post office department, exposes the existence of astounding conditions, with possibilities for enormous swindles, because of the loose methods prevailing in that department. He scores departmental

regulations and pleads for a reform in the laws. Captain Castle points out numerous cases in which he has to audit and be responsible for immense sums of money without knowing any of the details of its receipt or expenditure. He cites the \$50,000,000 a year paid to railroads and says no details of expenditure are given to him.

Legal and Criminal.

Lee's Story of Bribery.

The impressive feature of the trial of State Senator Farris at Jefferson City, Mo., Wednesday, was the story of shame contained in the testimony of former Lieutenant Governor John A. Lee. Lee told how he paid over \$7,000 of the Royal Baking Powder company's money to be distributed among Farris and six colleagues and retained \$1,500 for himself.

Parks Back to Sing Sing.

Walking Delegate Parks of the New York House of Representatives was sentenced to two years and three months imprisonment on his second conviction for extortion last week. He was taken to Sing Sing without further delay.

Jury Justifies Lynching.

The coroner's jury at Pass Christian, La., in the case of the negro, Sam Adams, lynched for attempting assault on Mrs. Labouisse, found this verdict: "We the jury of inquest, sitting on the body of Sam Adams, colored, find that he came to his death at the hands of male citizens, both white and colored, of Pass Christian, who were organized and determined to punish said Adams for the crime that meets death wherever perpetrated."

Posed as a Millionaire.

The 'New York papers were led to announce the engagement of Robert Goelet, the millionaire, to the daughter of a restaurant keeper there before it was discovered that the girl had been deceived by a man who posed as Mr. Goelet. The police have identified him as a young married man named James Abeel.

Foreign.

Operation on the Kaiser.

The German empire and the world were shocked when it was announced officially at Berlin Sunday that it had been necessary to perform an operation on Emperor William two days before in his palace at Potsdam. It was for the removal of a polypus, or tumor, from the larynx. It was Emperor William. The foundry to consist of a membrane or cells containing brown colored grains. While the operation was successful in its immediate results, the public mind recalls the death of the parents from cancer. The operation was performed by Professor Moritz Schmidt.

Emperor William.

A German-Russian Compact.

Since the meeting of Czar Nicholas and Emperor William at Wiesbaden last week the report has gained general belief in Europe that a secret alliance between Russia and Germany has been in force regarding the Chinese crisis for several months. This is said to explain the Russian foreign minister's visit to Paris, designed to keep France in line.

China Calls For Help.

It was reported Saturday that the Chinese empress had summoned Tsen Chi, the Tartar general of Mukden, to come to Peking for an audience. This action is the outcome of the demoralization of the Chinese government caused by the proceedings of the Russians in Manchuria. Prince Ching has appealed to England, Japan and the United States for help.

Meeting of Two Monarchs.

The czar of Russia, accompanied by the Grand Duke of Hesse and Prince Henry of Prussia, arrived at Baden-Baden Nov. 4, where they were greeted by the emperor of Germany. The monarchs embraced and kissed with great cordiality and drove to the castle.

amid cheering throngs. It was said that one of the objects of the czar's visit was to propose a conference of the powers, including the United States and Japan, regarding the troubles in the orient.

Rothschilde Ruled Out.

The Russian senate decided that the recent purchase of Russian oil fields by the Rothschilde's banking house could not stand because the Rothschilde were Jews.

Armenian Feud Murders.

Two more members of the Armenian revolutionary party at London were killed Wednesday by the same hand that fired the shot at Sagouni. The murderer then committed suicide.

Menelek Abolishes Slavery.

King Menelek of Abyssinia has given notice of extreme punishment of army subjects who hereafter are found in the act of enslaving any of the neighboring tribes of Gallas.

Italy Recognizes Panama.

The first European power to extend a hand to the new republic of Panama is Italy. This action was reported Sunday.

SOCIOLOGICAL

To Segregate Vice.

Mayor Harrison of Chicago has perfected a plan for the colonization and segregation of vice in that city. He has prepared a list of levee property owners, which will be published, and a levee quarter is to be established in each of the three leading parts of the city.

Women Must Fight.

Dr. Edward Everett Hale, Unitarian minister of Boston, in addressing the League For Political Economy said the only way for women to achieve equality at the ballot box was for them to shoulder the musket and join the posse of the sheriff, "even as man does."

London Woman's Daily.

The first daily newspaper especially for women to be published in England appeared Nov. 1. It is called the London Daily Mirror and is run by the editor of the Daily Mail. The paper is devoted mostly to society and household topics, practically ignoring politics.

Married Conductors Only.

The Consolidated Traction company of Chicago will hereafter employ no unmarried men under twenty-five years old.

Dr. Buckley on Crime.

Dr. James M. Buckley makes a profound and startling analysis of "the present epidemic of crime" in the November Century. One evidence of the epidemic he finds in the rapid increase of youthful crimes, many of which are committed by the members of educated families. Another peculiarity of the time is the indifference of accused persons when brought to trial; also the increase of brutality in crimes is noted. Among the contributory causes of the epidemic mentioned by Dr. Buckley are the effect of the civil and Spanish wars, the influence of intemperance and the crowding of city life, the increasing desire for business and professional life and the unpopularity of manual trades and the diminished reverence for law due to the irregularity and uncertainty of the courts. Prison reform has decreased the terrors of prison life, thinks the doctor, and labor riots have hurt the moral sense. Immigration and the race issue complete his list of contributory causes. No remedy, however, is suggested by Dr. Buckley other than the co-operation of right minded people in creating a reverence for and enforcement of law.

Sociological Notes.

A mob of negroes on a plantation near New Orleans lynched a negro last week. * * * The Georgia Daughters of the Confederacy have begun a movement to establish a home for aged and feeble ex-slaves who were faithful during the war. * * * Many woman suffragists met in New York city on election day in memory of Elizabeth Cady Stanton, the veteran suffragist, who died last year. Miss Susan B. Anthony, the aged ex-president of the national organization, was present and made a speech, in which she said she longed to live to cast a vote for president.

Enter the Republic of Panama

The people of the American isthmus have decided to go it alone. Hoping for and inviting the protecting hand of their big Uncle Samuel, to the end that commerce might sail their way from ocean to ocean, these isthmian citizens of our South American neighbor Nov. 3 raised the standard of the independent republic of Panama. At once the Colombian army and navy officers at the city of Panama were imprisoned, and a de facto government composed of three consuls was proclaimed unanimously by the people. The American consul general at Panama, Ehrman, promptly notified Washington and warned the Colombian gunboat Bogota not to repeat its impromptu bombardment of the city. At Colon fifty American bluejackets were landed from the gunboat Nashville, with the announced object of preserving peace on the isthmus and preventing interruption of traffic. The Colombian forces at that point surrendered and withdrew Nov. 5, being transported to Cartagena, whereupon Colon joined formally the movement for independence. American war ships on both coasts were already speeding under orders to guard the Panama railroad terminal and prevent the landing of Colombian forces. The new government then appealed for American recognition and appointed a canal commission.

SHIFTLESS

Is the term generally applied to the man who lets his fences fall into ill repair, while he whistles and whittles his time away. But there's many a well-dressed, prosperous man who is equally shiftless. He feels his health breaking down, but does nothing to repair it. His stomach is "weak." His heart and liver trouble him. He neglects his health until a total breakdown comes.

Men and women who, by self neglect, become at last victims of nervous prostration and general debility will find certain help and an almost certain cure in the use of Dr. Pierce's Golden Medical Discovery. The common cause of debility is lack of nutrition, because the stomach is diseased and the food eaten cannot be properly digested and assimilated. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and restores physical health by enabling the perfect digestion and assimilation of food.

"I am an engineer by trade and the hard work and worry of running a large engine brought on nervous prostration," writes Mr. Chas. F. Dixon, of Arbutle, Colusa Co., Calif. "A friend recommended Dr. Pierce's Golden Medical Discovery to me and I bought one bottle; thought it helped me, so continued the use of it until I had taken six bottles. I feel better than ever in my life. Am not a particle nervous, can work hard all day and sleep sound at night. I not only think so, but I know that the 'Golden Medical Discovery' cured me, and therefore I will recommend it to others."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Queen Quality

Worth \$1.00 a day!

There is only one shoe to be considered when it comes to a question of FIT.

That shoe is the "Queen Quality."

Its perfect fit means an increased factory cost of many hundreds of dollars a week, but it costs the wearer nothing extra.

"Queen Quality" shoes are totally different in construction from other shoes. "Queen Quality" grasps the foot at the instep and holds it right there. The toes are never crowded; the heel is never pinched.

Walking is a joy.

Boots \$3.00; Oxfords \$2.50.

A. C. MINGLE, BELLEFONTE.
