—Mrs. Frank Davis, E. Logan street who has been dangerously ill for the past two weeks, is slowly recovering.

—Farmer Sproul, of Mingo, gave us a pleasant call; potatoes and apples, he tells us, were a good crop down that way.

—For investments in real estate, consult the ads in the Democrat, where choice farms are up for the highest bidder.

—Misses Blanche Smith, Alice Ishler and Verna Smith spent Saturday, Sunday and Monday with friends in Williamsport.

—The Panther Run hunting party came home last Friday and were fortunate in getting a nice deer the last day. It was shot by Linn McGinley, one of the best riflemen in the town.

—The Bellefonte "colony" that started for Beaver Falls last week, landed safely, and all will stick, unless "homesick" sets in. May they pull the "scales" many pounds heavier than ever.

—We are in receipt of a nice little souvenir from Ira D. Garman, jeweler, 101 South 11th street, Philadelphia, being a booklet for carrying stamps, with a calendar for the years 1904 and 1905.

—Bruce Garman lost a black and white spotted beagle hound last week while hunting up Buffalo Run near Waddles. He can't be happy until he gets the dog back and will do the right thing upon its return to their hotel, this place.

—Tom Harter and Judge Love have not yet, in their numerous hunts, tackled a bear. The Judge is too slow on a walk to get away from one and Tom could not get any one to hold brain for him to shoot it, if he met one of the "huggers."

—The Direct Supply Co. have moved across the street from the Bush Arcade and now have their goods in the room formerly occupied by Samuel Williams' paper store. A description of their line of army supplies will be found in another column.

—County Treasurer Phil Foster is up in the vicinity of the Bear Meadows this week hunting deer and has left his office in charge of ex-treasurer William T. Speer, who enjoys getting back at his former job. When Foster gets back Speer may not be inclined to yield.

—A number of leading citizens have urged the organization of a County Historical Society. A call was accordingly issued for a meeting with that object in view, to meet in the arbitration room in the court house, Friday, Nov. 27, at 10:30 a. m. A most laudable move in which all will join possessed of county pride.

—Centre county mountains would afford Teddy Roosevelt far greater chances for bear than his southern trip for bears, where the only opportunity he had to shoot a bear was when some of the mountaineers caught one of the varmints and tied it to a tree for Teddy to shoot—but he refused, fearing he'd miss it.

—A large bunch of former employes of the Standard Scale Works of this place left on Monday for Beaver Falls, where the new plant is being opened. A great many of the men say they will return to Bellefonte as soon as another industry opens here to give them employment. They did not like to leave the town.

—Capt. Taylor has seven boarders just now in his Centre County Hotel.

—Wm. P. Brew, of New York city, is a business visitor in Bellefonte this week.

—Mrs. G. W. Schoch, of Millburg, was visiting friends in our town last week.

—W. W. Beck went to Logansport, Ind. where he expects to be employed at his trade as a moulder.

—John C. Stover, one of the stalwart democrats of Haines, transacted business in town on Wednesday.

—It would seem that for every ten gaus carried into our mountains this season, about one piece of game is carried out.

—The Wabash move is creating as much interest in Centre county as it does outside. It will be a big thing if it ripens.

—Last Friday, while hunting in the vicinity of Beaver Mills, Jos. Rightmour shot a three-pronged buck, that was a nice one.

—Farmer W. W. Rupert, of near Zion, was in on Tuesday; he reports game scarce and little hunting in his section; no quail at all.

—The next attraction at the opera house will be "The Minister's Daughters," on next Tuesday evening. The scenic effects are said to be fine.

—A. G. Lear, the new manager of the Central Pennsylvania Telephone exchange at this place, and wife, have engaged rooms with Mrs. Steve Pinnegan on South Spring street.

—Last Thursday was the day fixed for a hearing before register Archey in the protest against the will made by William Colyer, dec'd. The parties making the protest did not appear.

—Col. Edward Chambers and wife, who were with Gov. Pennypacker and staff through parts of the south dedicating monuments, have returned and the Colonel is chuck full of interesting tales of the trip.

—For some months the demand for advertising space in this paper has been beyond our ability to supply. As only a limited number of columns are at disposal, we will not invade the reading columns.

—From an advertisement in another part of this issue you will note that the Bullock Swing and Chair Manufacturing Co., Milesburg, have all facilities for carriage building and repair work, at which Mr. Bullock, the superintendent, is an expert.

—Saturday afternoon little Ruth Weight, the eleven-year-old daughter of George Weight, in jumping off a wagon, did not see an approaching vehicle until too late to get out of the way. She was knocked down and run over. No bones were broken and she escaped without serious injury.

—The new pumping station at Reynolds mill, for our water system, is not in working order yet. After a tedious job the pipes leading to and from the spring have been laid, but the pump has not arrived from the factory, which has caused a delay of several weeks. Everybody is patiently waiting for results of some kind.

—Carpenter J. A. Wolf, formerly of State College, now working at Centre Oak for the New York Central R. R., is spending a few days among Centre county friends. While here he dropped a crisp \$20 note on our table thinking we could take out a year's subscription and return change. He has a mistaken idea about this business.

—Saturday a nice deer was brought to town from the vicinity of Spruce Run where it was shot by a gentleman of Philadelphia who was with Col. Reynolds and party. Some people venture the assertion that it was not a genuine wild one, but came from one of the parks in that vicinity. If a man does kill a deer these days he is not liable to get credit for his skill.

—At the meeting of the four different zinc companies—Blue Jacket, Prairie, Clinton, Republic—which have their general offices at this place, on Monday, the stockholders unanimously voted to merge their properties in Missouri under one organization that in the future will be known as the "Pennsylvania Mining and Smelting Co." Quite a number of stockholders from adjoining towns were present. Application will be made at once for the incorporation of the new company.

—From an article that appeared in the last issue of the Lewisburg (Pa.) Journal we see that the people in that section, covering several counties, are very much dissatisfied with the service of the "United Telephone & Telegraph Company." They claim that the company is taking advantage of their customers since they have a monopoly of the field, the same as the Bell company did before there was opposition, only the latter company is even worse. As a result steps have been taken for establishing an entirely new local telephone company. When the new telephone system was sprung on this territory it was to get away from the excessive rates of the monopoly, known as the Bell Company. Of late rates of the United have been advanced in various ways and there is more or less dissatisfaction. Toll rates, especially to adjoining towns, have been advanced, and that was one of the things promised to our people that would be free in the new company.

Fireman Clifford McDowell, in a dense fog leaned out from between the tender and the cab of his engine, a short distance west of Altoona, and was struck by an engine moving on another track. AT COUNCIL MEETING.

The regular session was held on Monday evening, in addition to the ordinary routine the following matters of special importance are noted:

Col. W. F. Reeder on behalf of the "Bellefonte Electric Street Railway" presented an ordinance asking council to grant them franchises permitting them to construct a street railway through the principal streets of our town. He had drawn up an ordinance which he submitted to the borough solicitor for his approval. The railway is to be completed in two years, and everybody seemed willing to extend all reasonable encouragement possible. The project was held over for further consideration.

A contract for street lighting with the former company for the next three years was approved. A concrete walk along Water street was directed to be made. Geo. I. Thompson, of Clearfield, secured the contract.

An ordinance regulating the Water department of Bellefonte was then offered by Col. Reynolds and read by the clerk. It is quite lengthy. The water rate is fixed by the ordinance. The council decided to hold it over for careful consideration.

Boro Engineer Wetzel made a statement in regard to having permanent grades fixed for our streets. Council will take permanent action in the matter in the near future.

MUTTERINGS are continually heard of \$5 Hanna as the next republican candidate for president. He denies he is in the race. However, right along little movements bubble up with the M. H. mark on them, proving there is some generator of the Hanna at the bottom. Hanna and his followers are known to have no love for Roosevelt.
