Had fine sleighing a week ago.

Among the notable events in the going out of the old and the coming in of the new year, was the big dinner at L. W. Kippert's country home in Boalsburg on the 31st of Dec. where a number of guests assembled to partake of a 20 pound gobbler and all the side fixtures that usually go with such a dinner. On New Year's day the old Levi Krebs home was a joyous gathering in honor of D. C. Krebs and bride, Ora Krebs and lady of Tyrone. The old home was as cheery as a May day, and Mr. and Mrs. J. C. Cori made everybody feel welcome to the New Year's turkey with all the other dainties that usually go with such a dinner.

High Valley.

The welcome visitor that came on Thursday was the Democrat, but had missed some items.

A rumor came that Prince is housed up and the belle of the valley is taking care of him. I don't think the valley will have a wedding on account of these cold days.

Dr. Barker is busy all the time; that shows his medicine don't need recommendation; it tells for itself; his reputation is not only in our valley, it is over the state; that can be seen by the practice he has.

A rumor that Jess Snyder sold his timber south of owl hollow; the consideration is not known; that was the last tract for sale in that neighborhood.

Pulp wood will be scarce in our valley; there are only a few that have that kind and they want \$6 per load.

Mr. Feece, called to see the scribe on Sunday and also Jess Snyder; those gentlemen are always welcome.

Fox hunting is all the go now.

Hello, No. 1 scribe of Coburn, the No. 2 scribe of High valley played havoc with our; he mentioned more gas and lots of other things too numerous to mention; let him go; the Wingarts are in the valley with their dogs and as likely as not they tree him; William Rote is stationed at peak, so when he makes for the rocks he pulls on him. Pine Creek mill scribe said the High valley scribe is already talking politics; well, see, my friend, it takes longer to learn a joke as it will for a horse, so I will start in time, now when you understand "gee" and "haw" once, "bet-a-wo" will come by itself.

Last Monday was the coldest day that I can remember of; eight years ago as Sam Alter and I were hauling timber out of Kulp hollow that we judged was as cold, but last Monday it was colder yet.

The scribe of Hoy's school district knows how to handle those medicine men; I would advise all the medicine peddlers to keep away from him on account of losing their reputations. I have no idea that the doctors will travel that territory, as they find sale here.

The people of this place are glad to know that the smallpox patients are getting along so well, and are now ready for fumigation. While the credit for the handling of these cases is not to be bestowed entirely on one person as some individuals would have it, but some others in the community, as public sentiment will show. And the person who will try to talk up such a thing in an enlightened community, very seldom receive any credit for such actions. While we have plenty of these good citizens, we

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture is the form of a label is on the wrapper of every bottle of Emulsion you buy.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. 50c. and \$1.00; all druggists.

are not going to put them up for sale, for we need all of them in our business. It is a well known fact, that there must be more than one or two people in a locality who are more or less popular, but the men, every one of them, looking after public interest, should have all the credit due them; and the men who sacrifice a great deal of their time along this line, without a cent's compensation are very often overlooked. Instead of being benighted these men should be commended by everybody for their services. Perhaps this article will enlighten some one who has never given this matter consideration, at least this is the intention of the writer.
