Mothers and Daughters

Every woman who has a grown daughter knows well the worry and anxiety which always comes at that period of life when girlhood merges into womanhood. Upon a girl's condition at this time depends her future health, strength and happiness. Too much care can not be taken to see that she passes through this period safely.

This Herb Tea is likewise of corresponding value and assistance to mothers and mothers at the end of this period. Its use will at this time prevent endless pain and worry. A woman will enter the evening of life with scarcely the knowledge that the change has occurred. Many are the thankful women who know the value of Aunt Dinah's Old Virginia Herb Tea and are grateful for the benefits derived from its use.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the wrapper of every bottle of Emulsion you buy.
