Legislative.

Money For St. Louis Fair.

An appropriation of \$6,400,000 to be loaned to the Louisiana Purchase exposition was inserted as an amendment to the urgent deficiency bill and favored by a majority of the senate, although vigorously opposed by some senators. This is to be repaid in installments from the gate receipts. The appropriation was secured only on condition that the board of women managers should receive \$100,000 which they desired.

No Extra Mileage.

with an appropriation of \$12,000,000, the indictment. the paragraph providing for additional mileage to members and senators on account of the extra session was struck out, not a single member daring to be recorded in favor of it.

Foraker's Commerce Bill.

introduced by Senator Foraker will ever come to a vote, the fact that it Beaumont fields. was introduced by one known to be close to the Roosevelt administration gave it political importance. Notwithstanding that Foraker and his trust bill were promptly repudiated by the president, the Democrats were disposed to make the most of the situation thus presented. Mr. Foraker declared he had introduced the bill without consulting any one. His bill provides that the existing antitrust laws shall not | ************************ apply to foreign commerce nor to interstate commerce which is reasonable. The intention is to leave the question of restraint to the courts.

Antidocking Bill Passed.

The house by a vote of 85 to 8 passed the bill requiring all borses in the District of Columbia to be tagged within ninety days, after which any one caught docking a horse's tail or using 3 a docked horse unregistered should pay a fine of not less than \$100 and not more than \$500.

President's Answer to Senate.

In response to the Culberson resolution, which the senate finally passed I with the customary phrase "if not incompatible with the public interest," the president has sent to the senate a mass of correspondence relating to the Panamz revolution and a recognition Panamz revolution and a recognition

certain confidential naval orders and dispatches on the ground that their publication would not be best for the public interest. Along with this corten historical precedents for the landing of troops on the isthmus.

Medical authorities at Hartford, Conn., report that the recent typhoid epidemic in the county jail was started by flies, which carried the bacilli to the jail kitchen from a nearby house where Mayor McClellan of New York early persons were ill with the disease. * * *

Clash of Slav and Mongol Inevitable

Through another week of terrible suspense the world waited while signs of the inevitable grapple of Russia with Japan multiplied. The actual movement of Russia's land and sea forces seemed to foretell the negative character of the czar's long delayed answer to the mikado's demands. Japan, unwilling to wait much longer, held a council of war and took the final steps of preparation.

As if to test the alertness of his foe or "to give him a dare," the Russian commander sent his big squadron of sea fighters out of Port Arthur Feb. 4, cleared for action. Off Weihalwei they sighted an immense fleet of Japanese warships, virtually patrolling the sea. Next day the Russian admiral put back into port well satisfied that his enemy was not

So on land thousands of Russian soldiers have been taking up strong positions along the Yalu, and a landing near Chemulpo was planned with a view to occupying Seoul. But already Japanese troops were on Korean territory to head off an invasion. Thus while the forms of diplomacy still remained at Toyko and St. Petersburg, though strained to highest tension, the war lords on either side were fencing for an opening. Japanese residents were warned to leave Vladivostok.

RUINED BY A RASH WAGER.

A rash wager has ruined many a man financially, but this wager ruined a man physically. He was proud of his strength and wagered that he could lift a ship's anchor. He won the wager, but the strain was too great for

him and he broke down in health from that day.

There's many a man or woman who undertakes too great a task for the strength they possess. They won't give up, so they break down. The woman drudges in the house, the man toils in the store. They don't break down by one tremendous strain, but by a steady over-draft on their strength.

People who are run-down in health, deficient in vitality, worn-out or worked out, will find new life and strength in the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, and so enables nourishment of the body. It purifies and enriches the blood, and builds up the body with sound muscle and solid flesh.

"When I commenced your medicine my health was completely broken down," writes Mrs. Minnie Lampman, of Porcupine, Wis.
"At times, generally after eating, was taken with terrible distress in stomach. Words fail to express what I suffered. My right arm was almost helpless-liver very much affected, and my nerves were so bad I was almost in hysterics. I was treated by two doc-

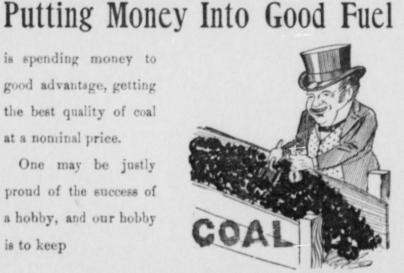

tors, but all to no avail, for I was no better. I felt dreadfully discouraged, but thought I would try once more to find relief. I began to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription.' I gradually began to improve each day, and grew strong all over." Accept no substitute for "Golden Medical Discovery." There

is nothing "just as good" for diseases of the stomach and blood.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.
