Many knowingly and very many more unknowingly are affected by that terrible disease which causes more fatalities than any other ailment—kidney and bladder trouble. Pains in the back and loins, excessive or insufficient urine, scalding or burning urine, headache, depressed feeling, slow muddy looking complexion, frequent heart palpitations, swelling of the feet and ankles, are all positive evidences that the kidneys are not performing their functions properly. One box—one month's treatment—of Krine's Kidney Pills for one dollar, and you are your own judge; if you are not cured or benefited you get your money back.
