WHAT ALL THE WORLD IS DOING Trend of Civilization in All Lines From Week to Week

POLITICS and GOVERNMENT

General.

Dick to Succeed Hanna. Representative Charles H. Dick of Ohio, who, besides serving in congress since 1898, took an important part in the management of the Republican campaigns of 1896 and 1900, was nominated by acclamation at the Republican legislative caucus at Columbus, Feb. 24, to succeed the late Senator Hanna in the United States senate.

Charles H. Dick.

A large majority General Dick's election on March 1 was assured. Mr. Dick's military title arises from his service in the Ohio national guard, of which he is now a major general. He was closely associated with Mr. Hanna in the canvass for McKinley's nomination. Mr. Dick was born at Akron, O., in 1858.

Cockran Elected to Congress. The well known orator and former congressman from New York, Bourke Cockran, was chosen by a large majority in the special election of the Twelfth New York city district last week to the seat in congress made vacant when Representative McClellan retired to become mayor of New York.

Root on Panama Ethics. Former Secretary of War Root, speaking on the "Ethics of the Panama Question" before the Union League club of Chicago on Washington's birthday, proclaimed the doctrine of international eminent domain on the American continent. He held that the Monroe doctrine was "an assertion of a right under the universal rule that all sovereignty is held subject to limitations in its exercise arising from the just interests of other nations."

Mr. Root classed Panama with the Balkan states, Greece, Crete and Egypt, in its subservience to the interests of other nations. Colombia, he said, had placed herself "in the category of incapacity to protect the rights of others" with Korea and China, where "action" by a stronger power "is, according to the universal rules obtaining among civilized nations, not only permissible, but a duty of the highest obligation."

Dover in Heath's Place. Promptly on receiving the resignation of Perry S. Heath, tendered on account of Senator Hanna's death, Postmaster General Payne as acting chairman of the Republican national committee appointed Elmer Dover, for many years private secretary of Senator Hanna, to be acting secretary of the committee until June next.

Notes. Ex-Congressman Shafroth of Colorado denies that the frauds which caused his resignation were committed mainly by women and says it is preposterous to make the incident an argument against woman suffrage.

The Hearst boom has shown strength in Mississippi, Massachusetts and many other states.

The suits brought by J. W. Jiles, the would be negro voter of Alabama to whom registration was denied by the election board of that state, against the members of the board for damages was denied by the supreme court in a decision rendered last week on the ground that the federal question involved had not been considered in the state court; hence the question could not be reviewed, and the case was dismissed for lack of jurisdiction.

Executive.

Canal Commission Named. The membership of the Panama canal commission as announced last week was Admiral John G. Walker, president of the present canal commission; General George W. Davis, retired, of the army; Alfred Noble, engineer of the Pennsylvania railroad; William Barclay Parsons, engineer of the New York subway, and Benjamin M. Harrod of the Mississippi river commission. C. Ewald Grunsky of San Francisco, a consulting engineer, was expected to be seventh.

The Winter Naval Maneuvers. Admiral Dewey, Rear Admiral Taylor and Assistant Secretary of State Loomis sailed from Charleston, S. C., Feb. 23, the naval officers going to review the fleet on its winter maneuvers in West Indian waters and Mr. Loomis to investigate the disturbed political conditions in the republic of Santo Domingo. This is thought to be a preliminary step toward definite American intervention.

Notes of Crime. Wallace H. Ham, Boston agent of the American Surety company, New York, was arrested at Boston, Feb. 25, charged with a shortage of \$190,000. Most of this was charity money belonging to St. Luke's Home For Consumptives, of which Mr. Ham was treasurer. He used the securities of his company to secure loans from other banks.

Art, Music, Letters. The famous German musical composer, Richard Strauss, reached New York Feb. 24 from Hamburg to conduct a series of orchestral entertainments in this country.

Mr. Strauss is particularly famous for his new ideas about pictorial and psychological interpretations of symphonic compositions. The composer is described as a young looking man over six feet in height, with large penetrating eyes and a blond mustache.

Legal and Criminal. Supreme Court Decisions. The suits brought by J. W. Jiles, the would be negro voter of Alabama to whom registration was denied by the election board of that state, against the members of the board for damages was denied by the supreme court in a decision rendered last week on the ground that the federal question involved had not been considered in the state court; hence the question could not be reviewed, and the case was dismissed for lack of jurisdiction.

Legislative.

Canal Treaty Ratified. By a vote of 66 to 14, Feb. 23, the senate ratified the Panama canal treaty. More than half of the minority were recorded in favor of the treaty. The negative votes were cast by Democratic Senators Bailey, Bate, Blackburn, Carmack, Culberson, Daniel, Dubois, Gorman, Morgan, Newlands, Patterson, Pettus, Teller and Tillman.

Senator Kittredge promptly introduced his bill for the temporary government of the Panama canal territory. It creates the Panama board of governors, consisting of three American citizens appointed by the president and confirmed by the senate.

The war department at once ordered the Third regiment of infantry to proceed to the isthmus by transports from New York to relieve the marines stationed there. The regiment will be commanded by Lieutenant Colonel Woodbury.

Minister Bunan-Varilla has remitted his salary to the Panama republic as a contribution toward a statue to Ferdinand de Lesseps, the Frenchman who fathered the Panama project.

House Votes More Ships. A victory for the greater navy was won Feb. 25, when the house authorized the construction of one battleship and two armored cruisers, defeating by a vote of 126 to 63 the Burton amendment striking out the battleship, and by a similar majority rejecting the Kitchen amendment striking out the cruisers.

Foreign. Decision Against Venezuela. The international Hague court of arbitration has decided unanimously in favor of the preferential payment of the claims of Great Britain, Germany and Italy by Venezuela.

Colombian Troops Divided. The news has reached Panama that the Colombians are fighting among themselves at Barranquilla, where the main army for the invasion of Panama was mobilized.

General Karopatin. Russia formally has charged Japan with violating international comity by occupying neutral Korea. The question of the right of the Russian gunboat Mandjur to stay in the neutral Chinese port of Shanghai was thought to be compromised by an agreement to dismantle the vessel during the war.

Third Week of the War In Asia

The whirlwind, Johnny on the spot style of fighting with which little Japan knocked the breath out of her big adversary in the first decisive naval engagements at Chemulpo and Port Arthur is still on tap to keep the land forces of Russia on tenter hooks.

Fronting his main army, mobilized just south of the Yalu river, the Jap forces were aligned in strength near Pingyang, northern Korea, with reserves coming up from Chemulpo.

At the same time the Jap fleet has kept up its daily attacks on Port Arthur, making a bold attempt Feb. 24 to block the channel by sinking four hulks near the harbor mouth, the plan adopted at Santiago in our Spanish war.

Russia formally has charged Japan with violating international comity by occupying neutral Korea. The question of the right of the Russian gunboat Mandjur to stay in the neutral Chinese port of Shanghai was thought to be compromised by an agreement to dismantle the vessel during the war.

Notes. Negotiations are in progress between Norway, Sweden and Denmark with a view to combined action in case the eastern war is extended in area to European waters.

Machen et al. Found Guilty. August Machen, former superintendent of free delivery; the Groff brothers, who made patent letter box fasteners at Washington, and George E. Lorenz of Cleveland, O., were found guilty of conspiracy to defraud the government, Feb. 26, after a trial at Washington lasting several weeks.

Iroquois Fire Indictments. The Chicago special grand jury in the Iroquois fire case has returned indictments of manslaughter against the theater officials, Will J. Davis and Thomas Noonan; also against James E. Cummings, the stage carpenter, and for official neglect of duty against Building Commissioner Williams and Building Inspector Laughlin.

Notes of Crime. Wallace H. Ham, Boston agent of the American Surety company, New York, was arrested at Boston, Feb. 25, charged with a shortage of \$190,000.

Queen Quality Will You Try It?

Are you ever irritable? Many a woman can trace her irritability to ill fitting shoes. It is hard to be cheerful, isn't it, when all the time there is a drag and pinch upon the feet.

But there is one shoe that is different in this matter of fit.

It is not made like a box into which the foot is thrust, but on the plan of a bandage wrapped around the muscles to strengthen and sustain them. It makes walking easier for thousands of women. It will do it for you. Will you let it?

That shoe is the "Queen Quality" Fast color eyelets; do not wear brass.
