EDITORIAL.

THE Hearst boom is being punctured.

THE Parker boom keeps growing and there is now little doubt about his receiving the democratic nomination for President on first ballot—perhaps even by acclamation.

AN estimate in the North American, this week shows conclusively that it cost laboring men 25 per cent more to live than it did five years ago, even though wages advanced. Trust prices did it.

IF valid reasons existed why John P. Elkin should not have been made Governor of Pennsylvania in face of his record as Attorney General, these reasons ought to have all the more potency as a bar to his elevation to the Supreme Court.

THE republicans in congress are fearfully afraid to investigate the astounding postoffice frauds, and on Tuesday twice voted down resolutions offered by the democrats for such an investigation. Reason: About one half the republican members are guilty in those frauds as participants.

THE public press, hated by Penneyacker and the boodle gang, will be hated all the more, because the press exposed the disgraceful scheme to catapult Penneyacker into a seat on the bench of the supreme court, and obliged Quay and his governor to back out of what was looked upon by decent men of all parties as a gross indecency.

ROOSEVELT is most likely to be nominated by his party—by acclamation. It is a dose that goes down hard with the *o. o. p.* from the grimaces that are observable in many quarters, but swallow it they must, no less volens. If Hanna had not died, it is still believed by knowing ones in republican councils, that he would have been the nominee, and Roosevelt met the fate of all former vice-presidents—shelved.

W. T. SCOTT, a negro of East St. Louis, has announced that preparations have been completed for a National convention for the nomination of a negro candidate for president. The convention will be held in St. Louis July 6, the date set for the National Democratic convention. Here is an excellent opportunity for the *g. o. p.* to show its sincerity of professed love for the "man and brother" whom they have only used as voting material, but refuse to recognize them when nominations are made.

One-fourth of all the people in the United States drink alcoholic beverages. The amount of money spent in this way during 1903 was \$1,431,633,379, for an average expenditure for each drinker of \$62.16. These statistics show, also, that every man in the United States who drinks at all drinks twice as much as his forefathers did—or as he himself did if he was drinking twenty-three years ago. All of which goes to prove that prosperity leads to an increased use of stimulants; that as the American people grow bigger and richer they drink harder, or else as they drink harder they grow richer. But this is rejected by the White Ribbon workers.

MR. ELKIN, Quay's nominee for supreme judge, received some credit for independence, to which he was not entitled, for his opposition to the Quay Machine when he was side-tracked in 1902, but so long as he had the Machine's support it never had a more willing and obedient servant. He was in entire sympathy with all the ripper and franchise grab legislation enacted during the Stone administration, of which he was an important part. He has always been a machine politician and nothing else. He has never had any experience on the bench and he has given no evidence of the possession of the qualification or temperament demanded by the place which he has been nominated to fill.

The home of Mrs. Jergen, mother of Henry Myers, who has recovered from the smallpox contracted at Howard, is to be thoroughly fumigated by the board of health authorities.

Measles, mostly of the German variety, are going the rounds in this community, a number of persons in and near Eagleville having the disease and some cases exist on this side of the creek. They prevail in a very mild form.

Clarence Kunes has made the necessary preparations to conduct a meat market in Eagleville.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

DEAD MEN WARN LIVING

Hospital Reports Prove That Dyspepsia is the Forerunner of Consumption.

Post mortem statistics of the big New York hospitals show that many cases of consumption are due to uninterrupted progress of dyspepsia.

Especially is this true in cases where the victim was predisposed to tuberculosis.

Therefore the person who allows dyspeptic conditions to progress unchecked is contributing toward the development of the most fatal disease known to mankind.

Dyspepsia wears out the body and the brain—makes the victim thin, haggard and sallow. The stomach, unable to digest food, cannot supply nourishment. When other diseases come, they enter unresisted.

HAD GIVEN UP ALL HOPE.

"I suffered from dyspepsia and indigestion for several years and it reached such a stage that I could hold nothing on my stomach, and immediately after eating even the lightest foods would be taken with a violent fit of vomiting.

I tried a great many remedies, but nothing helped me until I procured a box of Rexall Dyspepsia Tablets, when I obtained instant relief. I am now able to eat heavy foods and I gladly recommend the Rexall Tablets to anyone suffering as I did.—L. F. TURNER, 209 Howard St., Detroit, Mich."

Don't take any chances. Cure your dyspepsia at once. Rexall Dyspepsia Tablets will do it. We know what they are and we guarantee them to restore health, strength and a good digestion. Price 25 cents. Only at our store or by mail.

STOP IN FOR A LOOK

at the new styles. We wish that we might have the pleasure of showing our new Shoes to every Man and Woman in town.

If we could do this, and have an opportunity to explain all the good points, wherein our Shoes are so different from the ordinary Shoes, we would simply get a corner on the Shoe trade. Couldn't help it.

And still we ask no more for our excellent Shoes than some other stores ask for the other kind.

We are as ready to show our Shoes as we are to sell them.

The new Spring styles would be pleased to receive a call from you.

MINGLE'S SHOE STORE.

Suits at Popular Prices!

\$7.50, \$10, \$12.

There is not every man who cares to put more than this amount into a suit. For such men we have suits to please. Our showing is as strong as in higher priced suits, and it is a well admitted fact that when it comes to putting more than \$12 in a suit, Sim's values are best.

The points upon which we excel are for style, material and the matter of shape-retaining.

The cut of these suits are copied from the way the good tailors are cutting their suits today. The material we thoroughly test for wear and the matter of holding color.

Every suit at \$8.50, \$10, \$12, we guarantee absolutely of all-wool material and fast color. The coats we guarantee to retain their shape—not to curl or roll back, and the guarantees of the Sim store are always ready to be made good, if there's anything goes differently than we say.

At ten dollars we sell more suits than any nearby price, and to get an idea of the completeness of this Spring's showing of popular price goods

at \$10 we have for the average size man

- 12 different styles of materials in mixed colors,
- 8 " " " " " plain black,
- 5 " " " " " blue,
- 3 " " " " " gray,

in all 28 different kinds of material in different styles of suits of regular sizes, and 3 styles to fit men of unusual build—slim or stout men.

Never before have we shown so many, nor so good. Stylish suits to please at popular prices. \$7.50 to \$12 is what we have aimed at. You will see how well we have succeeded.
