BELLEFONTE, PA.,
Wednesday and Thursday,
April 20th and 21st, 1904,
TWO DAYS ONLY!
Representatives of the Cataphoric Medical Institute, of St. Louis, Will Make Their First Visit to Our City.

This Being an Advertising Trip to Introduce This New System, They Will Give Consultation, Examination, Advice and all Medicine Necessary to Complete a Cure—FREE.
It will be expected of all patients taking advantage of this offer to state to their friends the result obtained by this new system of treatment. They treat ALL KINDS OF CHRONIC DISEASES AND DEFORMITIES.
It is very seldom that a community so situated as the one in which we live has the privilege of consulting such renowned specialists, who are in constant attendance to wait upon you, diagnose your case, and give you the benefit of their medical knowledge. There is no experimenting or guessing. You will be told whether you can be cured or not. If your case is curable they will treat you; if incurable, they will give such advice as will prolong your life.
They treat deafness with an entirely new method. Hearing restored to many at once. Catarrh in all its varied forms cured so that it will never return by breaking up cold-catching tendency by CATAPHORICAL ABSORPTION of medicine.
If you have weak lungs or consumption do not fail to be examined.
Their new method of absorbing medicine by cataphoresis in paralysis, loss of manly vigor, rheumatism and all diseases of the nervous system, including EPILEPSY, is a God-send to suffering humanity. Medical men stand amazed at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of being cured now have an opportunity of a lifetime to consult, without charge, doctors of national reputation. Remember, their knowledge of medicine combined with electricity gives them control of diseases that others do not possess. If you have weak eyes, if you are lame and can not walk this new system will cure you quickly.
Don't fail to call on the eminent specialists, as a visit costs you nothing and may save your life.
If you suspect kidney troubles, bring a two-ounce vial of your urine for chemical and microscopical analysis.
Go early, as their offices are always crowded. If you are improving under your family physician, do not come and take up your valuable time. They wish to give each one plenty of time, but can not listen to long stories not pertaining to your case. The rich and poor alike treated.
