Weak Hearts.

The need of such an external remedy is readily apparent to every one who realizes that so many people have weak hearts for which reason they are unable to take internally strong, opiate drugs for the relief and cure of severe pains. Thousands of people have ruined their stomachs and nervous system by taking strong internal medicines, many of them have formed a dreaded and horrible drug habit which is wrecking their lives and the lives of their children.

Hospitals and Physicians.

Paracamp is endorsed by all physicians who have ever tried it and is used in the principal hospitals of our country because of its effectiveness and the purity of its composition. You should always have a bottle in your home, in case of serious accident; if promptly used it will prevent blood poisoning, and should you need a doctor, the wound will be in a condition for a thorough examination without pain to you.

CURES WITHOUT STOMACH DOSING.

Hyomei Cures Catarrh by Simply Breathing. S. Krumrine Will Refund Money if it Fails to Cure.

A long stricé toward solving the mystery of curing catarrh was taken with the discovery of Hyomei. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomei was known, had they a practical method that would obviate stomach dosing.

A complete Hyomei outfit costs but \$1, and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomei.

Breathing Hyomei through the inhaler every particle of air that enters the nose, throat and lungs, is charged with a healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

S. Krumrine has so much faith in the power of Hyomei to cure catarrh, that he is selling it under his personal guarantee to refund the money if it does not give positive relief.

Paracamp is a combination of refined camphor and soothing, healing, antiseptic oils. The process of combining same is the discovery of a prominent Scotch chemist who spent many years in experimenting and close study before perfecting the combination. His object was to combine camphor with certain medicinal oils so as to have a safe, effective treatment for all forms of congestion, soreness, swelling and inflammation by external application.

How can a blind boy run away to sea when he can't see to run away.

so-called germicides are used by hundreds of people to ston or deaden pain—to check and cure ailments which can be easily reached through the pores of the skin. Why should you take any chances of ruining the delicate tissues of your stomach and intestines by swallowing drastic and oftentimes poisonous remedies, which at best can only give you a few minutes' relief from pain. Such medicines don't and can't cure you; so take care. When you begin to use strong, internal remedies, it is best to consult your family physician.

We Offer You

In Paracamp the only remedy known to medical science that will quickly and positively cure the most severe aches and pains by its peculiar action on the pores of the skin. Paracamp, when applied, goes through the pores directly to the seat of the pain, removes the congestion by stimulating the circulation, draws out all soreness, fever and inflammation by inducing sweating. For instance in Rheumatism, it neutralizes the uric acid and by stimulation causes it to pass out of the system in a natural manner. It is the only remedy which heals wounds without leaving ugly scars. It is a sure preventive of blood poisoning. Paracamp can be used internally with perfect safety for the treatment of Croup, Sore Throat, Sore Lungs, Asthma and severe pains in the stomach. It is soothing, antiseptic, healing and perfectly harmless even to the most delicate stomachs. It positively contains no morphine, opium, cocaine or any other dangerous drugs.

Paracamp Cures

the following ailments, whether recent or of long standing. It cures in a scientific manner and does not in any way affect the heart, injure the nervous system or upset the stomach. It works through the pores of the skin.
