Ed. Blanchard, of the firm of McCoy & Linn Iron company, had a close call on the night of the 15 of April; being very dark and not expecting to meet anyone, as he stepped on the lower step to enter the office between the hours of 10 and 11, he was surprised to hear, "get out of of Mr. Swavely, as was stated in last this;" in reply Ed. said what do you week's paper. want here? who are you? that moment a flash and a report from a 32-calibre short, blinded him that he could not see, the ball hitting him, but fortunately, did not make any impression whatever, the ball falling to his feet. Ed. started a double quick step for help, forgetting the ditch at the blacksmith shop, took a header into the ditch, which hurt him more than the shot did; after returning to the office with his aids finding not anything missing, the safe was not locked; when the burglars entered, one began to work the combination and locked the safe, while the other stood guard in the doorway, left without any boodle; Ed. picked up the ball the next morning.

HYOMEI A RECORD BREAKER.

Novel Method of Curing Catarrh. Sold on Approval by S. Krumrine.

The popularity and remarkable sales of Hyomei have broken all records. In nearly every city and town in the country, this guaranteed cure for catarrh

has given most astonishing results. The leading druggists are so enthusiastic over the remarkable percentage of cures following the use of Hyomei, that with hardly an exception, they advertise to their customers that Hyomei will be sold with the understanding that it

costs nothing unless it cares. In Bellefonte, S. Krumrine is endorsing it and guaranteeing to refund the money unless Hyomei cures catarrh. He has sold a great many Hyomei outfits, and to day, no other treatment for the cure of catarrh has as many friends

It is a scientific, yet common sense method of treating and curing this too common disease. It sends by direct inbalation to every cell of the air passages in the head, throat and lungs, a balsa mic air that destroyes all catarrhal germs, purifies the blood with addition al ozone, and makes a complete and last

ing cure of any catarrhal trouble. The complete outfit costs but \$1, and includes an inhaler, medicine dropper and sufficient Hyomei for several weeks

You take no risk in buying Hyomei. S. Krumrine positively guarantees to re-fund your money unless it cures.

YOUR HUSBAND **WORKS TOO HARD**

husband works too hard, and worries because he will not take tinued use for a few weeks works the rest she knows he needs. She sees how tired and exhausted he is at night and how his sleep fails to rest him. She knows that his business is killing him-but she also knows that he will stick to his work just as long as he is

able to stand. If he could only take a vacation, if she could only get him away from business for a few weeks-but that is out of the

question. It is in cases of this kind that Rexall Mucu-Tone proves its rare value.

We could do a great work if we could only convince every woman who reads this newspaper that Rexall Mucu-Tone will do her tired-out husband as much good as a vacation - that it will brace him up physically and mentally, replenish his waning vitality and make him strong and well.

WHAT CATARRH REALLY MEANS. Mucu-Tone is primarily a catarrh

cure, but the term catarrh is very broad. It signifies a congestion of the mucous membranes due to the inability of the body, through close confinement and lack of outdoor exercise, to throw off the poisons that gather in the system. a condition that affects the entire organism of the sufferer, causing him to feel run down, worn out, weak, nervous and despondent.

Mucu-Tone not only corrects these conditions, driving out the poisons and restoring health, but it is a powerful tonic and systembuilder as well. It brings new bottles, 89 cents.
