The funeral of Mrs. Hosterman was very largely attended.

Lyman Smith, who is putting a porch around his house, has it about completed.

David Runkle, of Pittsburg, a drover and former citizen of this place, was found top of Nittany mountain, Thursday afternoon, Ill. He started to drive from here to Bellefonte; reaching top of the mountain, he felt unwell; he got out of his buggy, tied the horse to a tree, and took the cushion and blanket from the buggy and lay down upon them, soon afterwards he was found by D. K. Geiss, of this place. Seeing the buggy tied to a tree, and stopping, he heard groans, and on investigation found Mr. Runkle as above related, who, apparently, had been in great agony, as the ground at his feet was very much disturbed from his writhings. Mr. Geiss proceeded to Centre Hall for aid, leaving Thomas Grove with Mr. Runkle. Help arriving Mr. Runkle was brought to the hotel, where a physician gave it as his opinion that the man could not live until morning. The family of Mr. Runkle, at Pittsburg, was telegraphed to and next morning his son William arrived, but found his father somewhat better. A few days after Mr. Runkle showed considerable improvement and was able to sit up in bed at the hotel.

Last Friday evening about 5 o'clock the fire alarm was sounded over the neighborhood; every farmer saying "woo" to his team and letting go of his plow handles started toward the fire expecting it was Rudy Gingerich's house, but when they arrived it was only the fence and leaves around the house which were set on fire and became unmanageable; of course, everybody wondered how it caught fire and the remark was passed, "why der glay Bill hits au sheekt."

Another sight I saw, as I was passing along on Saturday I saw one man plowing with the overcoat on and three others with mittens on, so you can judge it was cold in Plum Grove.

A certain young man who recently moved in the neighborhood attended Leagues at Egg Hill, and when he started for home he came out the Indian lane instead of turning up the railroad toward his home; he turned down and came out at Spring Mills and walked up the turnpike to his home. Ha, ha, next go in day-time when you will not get lost.

Some parties that had lots of sand broke in the granery on the David Keller farm and stole some of W. H. Swartz's grain; but you know what makes hens lay—that is what spite work does.

Had Serious Doubt.

As is well known, Rev. Robert Collyer, of New York was a blacksmith in Germantown, Pa., before he became a preacher, says Success. Once, when there was little work at hand, he asked a builder in his neighborhood for something to do. The latter replied that all he could give him would be a job carrying a hod.

"I'm your man," replied the blacksmith promptly.

Years afterward, while an imposing edifice was being erected in Chicago for Dr. Collyer, he was standing among the beams watching the progress of the work when an Irishman came along with a hod of bricks. Dr. Collyer spoke to him and he paused.

"This is har'd work, soir," said the Irishman.

"I know that well," answered Dr. Collyer; "in my day I've carried the hod myself."

"The Irishman stared at me an instant," said Dr. Collyer, in relating the incident, "and then went on his way mumbling something that sounded like, 'I wouldn't a' belaved th' parson was such a liar.'"

Woodward.

Winter seems to have set in again to stay, as the temperature had dropped considerably last week.

The trout season was well represented throughout our locality but no big catches were reported as yet, as the weather seems too cold. I think there should be a kick made on the present law on trout as there were many caught last week from 4 to 5 inches which were dead when returned to the water, and I think those would be just as good for the catchers as for the minks, muskrats, etc. which live along the streams and pick them up as they float along; one party reported of putting nine in the water that were entirely dead. So I think someone should report to the State Fisheries.

Paracamp is a combination of refined camphor and soothing, healing, antiseptic oils. The process of combining same is the discovery of a prominent Scotch chemist who spent many years in experimenting and close study before perfecting the combination. His object was to combine camphor with certain medicinal oils so as to have a safe, effective treatment for all forms of congestion, soreness, swelling and inflammation by external application.

Weak Hearts.

The need of such an external remedy is readily apparent to every one when we realize that so many people have weak hearts for which reason they are unable to take internally strong, opiate drugs for the relief and cure of severe pains. Thousands of people have ruined their stomachs and nervous system by taking strong internal medicines, many of them have formed a dreaded and horrible drug habit which is wrecking their lives and the lives of their children.

Hospitals and Physicians.

Paracamp is endorsed by all physicians who have ever tried it and is used in the principal hospitals of our country because of its effectiveness and the purity of its composition. You should always have a bottle in your home, in case of serious accident; if promptly used it will prevent blood poisoning, and should you need a doctor, the wound will be in a condition for a thorough examination without pain to you.

Words of Warning.

Opiates, strong internal medicines and many

so-called germicides are used by hundreds of people to ston or deaden pain—to check and cure ailments which can be easily reached through the pores of the skin. Why should you take any chances of ruining the delicate tissues of your stomach and intestines by swallowing drastic and oftentimes poisonous remedies, which at best can only give you a few minutes' relief from pain. Such medicines don't and can't cure you; so take care. When you begin to use strong, internal remedies, it is best to consult your family physician.

We Offer You

In Paracamp the only remedy known to medical science that will quickly and positively cure the most severe aches and pains by its peculiar action on the pores of the skin. Paracamp, when applied, goes through the pores directly to the seat of the pain, removes the congestion by stimulating the circulation, draws out all soreness, fever and inflammation by inducing sweating. For instance in Rheumatism, it neutralizes the uric acid and by stimulation causes it to pass out of the system in a natural manner. It is the only remedy which heals wounds without leaving ugly scars. It is a sure preventive of blood poisoning. Paracamp can be used internally with perfect safety for the treatment of Croup, Sore Throat, Sore Lungs, Asthma and severe pains in the stomach. It is soothing, antiseptic, healing and perfectly harmless even to the most delicate stomachs. It positively contains no morphine, opium, cocaine or any other dangerous drugs.

Paracamp Cures

the following ailments, whether recent or of long standing. It cures in a scientific manner and does not in any way affect the heart, injure the nervous system or upset the stomach. It works through the pores of the skin.

The second annual commencement of the Liberty District high school was held at this place last week. The Baccalaureate sermon was preached in the Christian church, Sunday April 18, by the Rev. H. I. Crow, of Hubersburg. It is and must be said that Rev. Crow preached one of the finest sermons on this occasion, that has ever been heard in this community. On Tuesday evening, April 19, a very interesting program was carried out by the Juniors and seniors, assisted by a choir trained for the occasion. Part II, of the program by senior class. Music by the choir. What Do You Think of A Jack-of-all Trades?

If you had an important lawsuit, the loss of which would ruin your financial ruin, would you employ the very best lawyer you could find, or would you trust your interests to a "Jack-of-all-Trades" who practices law one day, medicines the next, denounces the third, and sells stocks and bonds the fourth?

Most certainly you would search out the experienced attorney, taking every precaution to assure yourself that he was a specialist in the particular branch of law affecting your case. How much more important is your health than your business affairs? The same good sense that guides you in choosing the expert lawyer will lead you to avoid medicines that claim infallibility in curing everything from yellow fever to broken legs.

"Cure-alls" do not appeal to the man or woman of intelligence. Rexall Mucu-Tone is not a "cure-all." It is a new remedy which is designed and built for the sole purpose of curing catarrh—one of the most dangerous diseases that menace mankind.

Rexall Mucu-Tone is the specific for the cure of catarrh for which science vainly searched for years.

It remained for a group of famous scientists—physicians and pharmaceutical chemists—working in the laboratories of the United Drug Co., at Boston, to discover the great vital principle which is now revolutionizing the treatment of Catarrh throughout the civilized world. This principle is embodied exclusively in the remedy we are providing sufferers under the name of

Rexall Mucu-Tone

Catarrh may affect the head and throat or the bronchial tubes and lungs. It may affect the stomach and cause dyspepsia. It may affect the liver, kidneys, bladder or the intestines. In women it most frequently attacks the delicate organs of the pelvic cavity, where it is known by a variety of names.

But no matter where it is, catarrh is a congestion of the mucous cells, followed by inflammation and a purulent discharge.

Rexall Mucu-Tone attacks the seat of the disease. It is carried through the myriad of arteries and veins, causing the packed and poisoned mucous cells to release and throw forth the matter contained. This relieves the congestion; the inflammation abates, and the nerve centers take up their regular functions; the discharge ceases, and the various organs are restored to perfect health.

This is the new way of treating catarrh—the only way in which it can be actually and positively cured. Rexall Mucu-Tone is the only medicine in the world that will do this.

We guarantee that it will cure you, no matter what the nature of your catarrhal trouble or of how long standing—or we will refund your money.
