PAWNEE BILL'S Wild West will be in Bellefonte, May 10th. One week later the Republican County Convention will be held here. Some gennine scalping will take place on that date.

PROSPECTS are that without a change from present conditions the largest acreage ever put into corn will be planted this year. In Indiana and Ohio, where there has been a large area of winter wheat ploughed up, it will go mostly into corn, and in Iowa the area will be enlarged.

In Indiana the Republican Convention repeated the falsebood uttered by the Massachusetts Convention, that the Democratic Administration refused to execute the anti-Trust law. Of the four great Trust prosecutions, the Cleveland Administration carried two to the Supreme Court and commenced the other two.

As to the power to tax corporations, Judge Weiss handed down an opinion in the case of the city of Harrisburg vs. the Harrisburg Gas Company, in which he directs judgment to be entered in favor of the city. Judge Weiss decides that the city of Harrisburg may tax the real estate of all corporations within the city limits.

In a speech on the tariff on Monday, Senator Bacon proved that our sewing machines, sold for \$15 in England cost \$25 in this country, and that American steel rails could be bought \$5 a ton cheaper in England than in Pennsylvania or Alabama. That's the way the robber high tariff works-favors the foreign consumer and bleeds the home purchaser.

THE Democratic party is for tariff for revenue because revenues are necessary and they can be collected by that process economically and safely. Tariff for revenue affords incidental protection and to that there is no objection. But a tariff which breeds trusts, fosters monopoly, discriminates against home consumers and multiplies the cost of the necessaries of life is an iniquity which no intelligent people will patiently endure and the Democratic party is against such infamy. If that be free trade make the most of it.

this question was raised once before, and it was decided that as the bridge destroyed was the property of the county, through the donation of the state, all of the material resulting from the wreck belonged also to the county. It was also SPEAKER Cannon refuses to run for decided that, although the state built

the property of the county and must be kept in repair by the county, in this interpretation of the law. Mr. Carson points out that the state is not obliged to rebuild a bridge unless it be destroyed, and that means total destruction.

Pawnee Bill's Wild West.

The first tented show of the season will make its appearance here Tuesday, May 10th. Pawnee Bill's Wild West has grown to immense proportions since its last visit here. Over ten hundred people and horses are now employed and the innovations are new and startling. Indians, Cowboys, Cossacks, Riffen, Arabs, Scouts, Mexicans, Japanese, Philippine bollo men and soldiers from European armies all go to make up the

TEDDy knows how to make uncle Sam's cash fly-his administration has cost 388 million dollars more than Cleveland's. With a democratic administration that immense sum would have remained in the pockets of the people with whom it was so much hard-earned cash.
