PAGE 6.

FEED YOUR HANDS.

You Can Make Them Plump, Soft and White With Milk Baths,

For pretty hands injured by the appearance of premature wrinkles use the milk cure and avoid scented soap, says a reliable authority. Sensitive skins become withered by frequent contact with perfumed soap and water. The very best castile soap is preferable to any other when the skin on a pair of fair and pretty hands begins to look dry and filled with tiny crisscrossed lines. The hand bath of fresh unskimmed milk is better still. A prima donna in the troupe that sings in the Metropolitan Opera House, New York. during the winter is not yet in the thirties. Her hands are slim and white, but they became suddenly as aged and withered as those of a woman of sixty. Mme. Sembrich saw them and showed her own pretty, plump, snow white members in comparison.

"Use milk, my child," was her consolation. "Every morning a quart of the best milk is sent to my rooms in the hotel, and four times a day I soak my hands just a moment or two in the sweet white fluid. I dry them gently with a very old piece of soft pure linen, and they shine and glitter like new ivory. Milk is a tonic to dry skins such as yours and mine. It also tightens up the outer cuticle and lends it a downy softness.

"In summer I use a buttermilk bath for my hands once a day, and when I require a bath for them in soap and water I use only the purest castile soap and water, in which a double handful of oatmeal has lain soaking for a quarter of an hour."

A SCENT JAR.

How to Make a Fragrant and Lasting Potpourri.

Girls no longer hang up in their dressing rooms the flowers sent them by their most prized admirers. Neither do they select especial buds or blossoms and press them between the leaves of books for keepsakes.

There is a deal of sentiment in the lines.

> 'Tis but a little faded flower, But, oh, so fondly dear,

while, in fact, there's neither sentiment, perfume nor beauty in a bunch of dried roses of a posy from which the life has been pressed. Present day girls preserve the fragments of their flowers, and the fragrance of a flower | and in a limber way, ever was a proof is its soul, in rose jars. They make of good breeding.

them in potpourri. Pretty Chinese and Japanese jars are

generally used, says Home Notes. The best way to make a potpourri is

to put into the receptacle nothing but the leaves of the flowers and salt. Rose leaves must be used for the foundation, as no other flower will hold the flavor of itself. Alternate layers of rose leaves and salt, pressing the salt down upon the leaves. When the scent becomes evident any other fragrant flower or leaves may be added, such as violets, heliotrope, lemon, verbena or geranium leaves. A jar filled in this way will remain a well of delicious perfume for months, flooding an apartment whenever the lid is removed.

CULINARY CONCEITS.

In adding boiling milk to beaten eggs first put in a spoonful at a time, and the eggs will not curdle.

To stir the yolks of eggs into soup or hot custard so that they will be smooth first beat them and add a teaspoonful of cold water.

A steak to retain its juices should be cooked in the quickest manner possible consistent with safety from burning and not seasoned until placed upon the table.

In serving sardines many people drain and wipe the fish and after placing on the serving platter pour a teaspoonful of pure olive oil over each. This is supposed to render them more delicate in flavor.

To stew figs cover them with cold water, let them simmer. When nearly tender add to one pound of figs onehalf of a medium sized lemon chopped and half a cupful of sugar. If not acid enough add a little more lemon juice.

women never move enough in thei clothes, and the clothes are by no means all to blame, although men are in the habit of thinking that they are How much more men use their whole bodies than women do, partly be cause their dress encourages this and partly because women have formed generations of habits of being rigid. Years ago it was considered "ladylike" to keep the hands folded in the lap as much as possible, to place the feet exactly together when sitting and in general to be "gentle." There are all sorts of ways of interpreting "gentle." It is doubtful if the kind of gentleness that prevented women from breathing heartily, from moving easily

THE PRETTY GIRL.

It Is Attention to Little Things That Makes Her So Attractive,

Ask any one to explain why a certain girl is regarded as pretty and see

if you get a direct answer. Probaby you will hear that "she certainly is pretty, but really I don't know why, for she has not a good feature in her face, and, now I come to think about it, I have seen prettier complexions." She may have a good figure, but that does not alone make a girl worth looking at twice and certainly does not gain her a reputation for prettiness. Your "pretty girl," you will find, is im-

maculately fresh and neat looking. Her hair looks well brushed and is well and becomingly arranged; her dress is well chosen in color, and, however simple in style, it is thoroughly trim at the neck. and there is never a suspicion of rags or untidiness about her skirt braid or her petticoat.

The "little things" of that girl's toilet are not slurred over, and her hands and feet are as dainty as care can make them, for her innate refinement

makes her abhor the dictum of the sloven that "all that matters is the general effect, and little details are not worth bothering about." Those little details just make all the difference between the well and badly dressed girl, but attention to them is not enough to gain a girl of average looks the reputation of being pretty. Look at her well and see if her irregular features do not form part of a bright and animated face that makes you feel glad when

you look at R. The attractive giri who without beauty is considered to possess it is a girl of culture and refinement, and the reason why ugly girls are less often met now than in former times is owing to the superior education which maidens of today in every class of life enjoy.

Leaf Lard.

Try out the leaf lard in the oven, suggests an exchange. Put the lard into a pan, set in the oven, let try out slowly, and while hot add one teaspoonful of salt to each quart of lard and cook a little longer. One advantage of this method is that the disagreeable odor of the hot fat is not diffused through the house,

THEY COST NOTHING.

If They Fail To Cure You, Money Will be Retunded.

This is the proposition that goes with every box of Krine's Kidney Pills, Sidney Krumrine, Druggist, gives his personal guarantee and will cheerfuly pay back your money if you are not satisfied, with the results after using one box of these pills.

Thousands of people are affected with Kidney Trouble and do not even suspect it, for it is one of the most treacherous diseases, and comes stealing into the system gradually and with but little warn.

ing. If you have pain in the back and loins, scanty or excessive urine the disease is making rapid progress. Headache, irritability, nervousness, muddy. looking complexion, are all warping signs that the kidneys are not perform. ing their work properly and are calling for assistance.

One box, one months treatment of Krine's Kidney Pills, cost you nothing if you are not benefitted; you judge for yourself. For sale and guaranteed at Krumrine's Pharmacy. r2-tf

Teas, Teas, Teas.

If you are not altogether pleased with the Tea you are using, try some of our goods and you will get satisfaction. We carry a line of the Lipton Teas, packed by the celebrated yachtsman who didn't lift the cup. Packed in half pound metal boxes; nice packages and fine goods. Try them.
