Decoration Day was one of the biggest in history in this place, yet we have people here who say they were disappointed. Mt. Eagle.

Farmers are very glad that the weather has settled for the present time so they could plant their corn over, as most of the seed was not good and we think the corn will be a short crop.

The grass at present looks as for a good hay crop in this valley, but the wheat is a failure. The fruit, such as apples are very full up to this time, and cherries are very good, but peaches are a failure, trees are frozen.

EASY WAY TO CURE CATARRH.

Breathe Hyomei and Kill All Catarrhal Germs. "Money Back if it Fails," Says S. Krumrine.

There is no dangerous stomach dragging when using Hyomei. The healing and aromatic balsams which compose this wonderful treatment are breathed through a neat pocket inhaler that comes with every \$1 outfit.

In this way, the germ-killing and health-giving Hyomei penetrates to the most remote cells of the lungs. It searches out and kills disease germs in the air passages of the head, throat and nose, soothes and heals the irritated mucous membrane, and absolutely drives catarrh from the system.

Such remarkable results have followed the use of Hyomei by the best people in Bellefonte, that S. Krumrine has the greatest confidence in its power to cure catarrh. S. Krumrine believes in it so thoroughly, that S. Krumrine will give his personal guarantee to refund the money if it does not cure, the purchaser to be sole judge.

This is an unusual offer and the first time that any medicine or treatment for the cure of catarrh has been sold in this way. If it cures, the expense is trifling, while if it fails, the cost is absolutely nothing.

If you are fortunate enough not to be troubled with catarrh, tell your friends of S. Krumrine's offer and get them to take advantage of it.
