-Some parties are making another effort to revive the glass factory, at this place, which was detroyed by fire over a looking M. D., and hearty enough to eat year ago. The purpose would be to start it upon the co-operative plan. It seemed to flourish under such an arrangement before the fire.

-The Logan Fire company had been hoping to hold a street carnival at this place sometime later in summer but have his pay advanced from \$600 to \$684-the given the idea up for the reason that the concern asked too large a guarantee and demanded concessions that would have made the enterprise unprofitable for the company.

-Landlord H. S. Ray is the owner of a fine two-seated Oldsmobile, which he purchased in Schenectady, N. Y., last week. He made the trip overland 250 miles to Bellefonte, but had a mishap near Jersey Shore, by colliding with a lumberwagon, resulting in the front of his auto being slightly disfigured, but still able to navigate. Since home the electrical connections went wrong and the vehicle is out of commission for the present. Like Job, through all his misfortunes, he is a monument of patience smiling at grief, and undergoing all forms of torture from his numerous inquiring friends. He will get there, yet.

-'Esq. M. L. ing the difference in pay. -On Tuesday the insurance adjusters

awarded the Bellefonte Academy \$3,890-35 for the damages by fire last week, and it will be accepted. The trustees will have the third story remodeled and enlarged and other parts of the building improved, and feel confident that it will be ready for occupancy by October 1st.

-Saturday, 30, closes the trout season. Anglers have been moderately successful in their catches. From our own observation we are of the opinion the trout streams are becoming more populous so that next season anglers will notice an improvement. The lumber camps were hard on the trout streams, and these are played out. The undergrowth along the streams is making it more difficult to do fishing and this

causes the outside fichermen to keep away in a measure. Illegal fishing is being watched closely by the wardens, and that has some tendency to bring about better "fisherman's luck." The catching of tront under six inches, we claim, is not the main cause of depletion of the streams. Where one trout is taken under the limit there are fifty left un-One of the hands assisting in unloading caught, from the natural increase and hay observed smoke issuing through the from stocking by the hatcheries. > S. E. Kimport, of State College, met with a peculiar accident recently. He was putting ice in the refrigerator of his meat shop when he felt in his foot what

he thought to be rheumatism. Towards evening the pain increased, whereupon he consulted a physician who told him he had broken a bone in his foot. Mr. Kimport is now "navigating" on crutches.

Price of the United Evangelical church and Rey. J. R. Miltoy of the M. E. church will be present to assist the pastor Rev. D. A. Artman. There will be

two services daily. A gang of railroad bridge carpenters from Sunbury has been engaged the past few weeks making needed repairs on the bridges between Cherry Run and Coburn, to insure the safety of these structures. They have their quarters in the Paddy Mountain station house which has not been in use for station purposes for about a year, having been discontinued for want of traffic at that once busy point.

At the United Evangelical parsonage Howard, Pa., on Wednesday morning, July 20th by Rev. D. A. Artman, Clarence E. Poorman, of Romola, Pa., and est. Anna A., the accomplished daughter of Thomas P. Beightol, of Walker, Pa., were united in marriage. Both these young people are highly esteemed by their many friends who all join in wishing them a happy and safe journey "O'er Life's Sea."

Four Bears Hold up a Train. Four bears stopped an excursion on

the Cammal and Black Forest Railway a few days ago. When the train neared Wilcox Summit a large bear was seen standing on the trestle, while three more bears were under the trestle, digging around some of

the supports, making it unsafe for the train to cross. All efforts of the train crew and 250 picnickers on the train to dislodge the "critters" with stones and clubs were

unavailing, until several long poles were secured. On the ends of these poles oilsoaked waste was fastened and then fired. A charge was then made on the animals, and they retreated into the for-
