Our base ball club will hold a festival on next Friday and Saturday evening which will be the loudest event of the season. A fine Morris chair will be chanced off.

Our base ball team went to Curtins on last Saturday to "do up" the Curtin team, but when the curtain rose they were confronted by a team that simply knocked the enthusiasm out of them.

The result was, when the curtain fell after the 7th inning the game stood 8 to 3 in favor of the Curtin team. Poor boys! and our base ball boys want us to say to the Julian team that they did not invite chin music or back talk. They have challenged you to a friendly game; so name time, place and stakes or "take water." A conference with our boys should be had.

On Monday evening, 25th, at the home of Mr. and Mrs. Wm. B. Parsons, on the lawn in the shade of a spreading red astrican apple tree, a table was spread and loaded with good things for the inner man—ice cream, cake, custard, etc.

The supper was prepared in honor of the seventh anniversary of their youngest daughter's birthday. Only a few neighbors were invited but Jennie was just as happy as she could be and we wish that her whole life may be as joyous and free of care as it was on her seventh birthday.

We would suggest that our borough dads buy spectacles of large magnifying power for each member of the street committee so they could see the horrible condition of our alleys—weeds of every variety going to seed.

One day last week the Rev. Prof. James P. Hughes, of Academy fame, in driving from Bellefonte to this place, stopped at the watering trough in front of Will Alexander's residence, got off the buggy, unreined the horse so he could drink a k. and held on to the hitching strap. Just then Mrs. Alexander came down to have a friendly chat, knowing the Professor's fondness for wagging his chin. Several scaps of bees were inside the yard fence and the Prof. and Mrs. A. had talked but a few moments when, by order of the queen, no doubt, a large detachment of sharpshooters made an onslaught on man and beast, stung the horse on the head and neck without mercy. The horse at once began to rear and plunge in his effort to get away from the bees and the Prof. but, do you know Charley, that 75 year old kid hung on to that bridle rein as if it had been the antlers of a four-pronged buck or the tail of a red fox until he was dragged 15 or 20 rods from the place of the onslaught. The horse jammed him up against the post and rail fence, a rail caught his watch chain and his watch was thrown over the fence into the field.

But finally he got the horse subdued and coaxed and patted him into submission. He then tied him to the fence, went back and after an hour's search, found his valuable watch in the grass, ticking away as if nothing had happened. The Prof. came out of the fray with one bayonet jab in the neck. He never stopped to look after the dead and wounded, but went on his way rejoicing that he got off so easy—if his confab with Mrs. A. was cut short.

KILLS GERMS OF CATARRH.

Home: Goes to the Root of the Disease and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live on the air passages and increase and multiply.

Hyomei is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrhal poison.

Probably the strongest evidence that can be offered as to the powers of Hyomei to cure catarrh is the fact that S. Krumrine will agree to refund the money if you say Hyomei has not cured you.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents.
