Large Gathering of Farmers Institute Instructors.

The Farmers Normal Institute, in session at Bellefonte and State College, this week, is a large gathering and more important in character than many imagined. All persons engaged as instructors and lecturers along agricultural lines in the state are supposed to meet annually for discussion of topics relative to agriculture and farm life. At the opening session over a hundred were present and others are coming daily. The enterprising young blacksmith, John Fink and his father, who is a wagon maker, have purchased the lower ax factory from W. H. Dornblazer. They are already at work on the building fitting it up to carry on the carriage and wagon making business. They are first class workmen and are worthy of encouragement in this new venture.

The Lewistown Daily Sentinel closed its first year on Monday as an entire success, and beyond the experimental point in that brief period. The latest improved printing machinery, a linotype, and all else for a good inland daily is the Sentinel's show of its prosperity. It is well and ably conducted and a credit to Lewistown and Mifflin county.

Large quantities of laurel have been hauled from Milroy to Reedsville where it has been planted temporarily, after which it will be shipped to various parts of the country.

We live in an age of progress. Hale Hartman, the Millroy builder and contractor, raised a barn with only four men, when not very long ago it would have taken from 50 to 75 men to have done the same work.

The name of the station at Blair Furnace was changed to East Altoona on Saturday by an order issued by General Manager W. W. Atterbury. There are various points around East Altoona under various names and it is likely that

all will be merged into the new station name.

John C. Merrill, of Lock Haven, who is attending the trotting meeting at Lexington, Ky., was relieved of his purse containing \$800 while attempting to enter the dining room at the Phoenix hotel. Merrill had just left the bar of the hotel, where he had displayed his roll in paying for a round of drinks with other horsemen, and as he was passing through the crowded lobby on his way to the dining room he was jostled by several people, and had his pocket picked.

**The Royal Month and the Royal Disease.**

Sudden changes of weather are especially trying and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its eruptions, cutaneous eruptions and wasting of the body substance—without thinking of the good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative—consumption.

**PERILS OF LAND AND SEA.**

**Captain Willnef's Remarkable Escape Shows What to do in Time of Trouble.**

For many years, Captain Willnef, says the Times of Gloucester, Mass., was one of the best known seamen in the Gloucester Fleet. The sea and its dangers had no terror for him, but the catarrhal troubles with which he suffered for fifteen years made him dread the nights at sea, for he had to walk the cabin floor, being unable to lie down and sleep on account of the constant catarrhal dropping.

Captain Willnef went to two different hospitals for treatment, but could get no lasting benefit. He constantly raised yellow and green phlegm and his trouble became so undurable and nauseating that he was ashamed to go out in company. When despairing of ever getting relief, his wife purchased a Hyomei outfit for him, and trying it before going to bed, he enjoyed the first whole night's sleep for ten years. Captain Willnef says 'I have used less than two bottles of Hyomei and have been cured by the remedy. My friends ask me what is responsible for my improvement, and I tell them Hyomei, which has given me full and complete recovery.'

Captain Willnef's experience shows our readers what to do in time of catarrhal trouble.—use Hyomei. This remarkable treatment kills the germs of catarrh and makes lasting and permanent cures. S. Krumrine sells Hyomei under his personal guarantee to refund the money if it does not give quick relief.

**BRUSHVALLEY.**

Quite a number of this vicinity attended the corner stone laying at Penn Hall. Corn husking and hulling clover is all the go.

The Hoy's school will organize a singing class on the 25th of this month. The singing class will not be opened till sometime in November with Prof. Geo. Wise as instructor. Everybody is invited to attend—old as well as young.

Parker is the best man for president; Roosevelt is the best man for the Rocky mountains. Ellis Orvis best for judge, and Love best for the back seat.

A republican called me a curly-haired democrat. In reply I should have said that I got curly hair on account of honest campaigning, and stiff interminable hair were caused by dishonest campaigning.
