I never tire talking about Vin-te-na.

The great work it is doing simply astonishes every one. I do not believe that indigestion or dyspepsia can exist when Vin-te-na is taken for a short time. So strongly do I believe that it will relieve all forms of stomach trouble that I am willing to run all of the risk in the matter and will return the money if you take Vin-te-na and are not satisfied. Come in and get a bottle to-day.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

IS YOUR BACK ALLRIGHT?

If It Isn't the Chances Are That Your Kidneys Are Calling For Aid.

The kidneys are the most important of all the organs; they have more work to perform than any other, hence the necessity of heeding the first symptoms of their derangement. They filter or strain the blood, thus removing the impurities and poisons from this vital fluid. By keeping these greatest of Blood Purifying organs in good health, many diseases are prevented.

Pains in the back and loins are evidence that the kidneys are affected, and they in return will affect the Nerves, causing nervousness, sleeplessness, restlessness, irritability, etc. Infrequent or too frequent urination excessive, painful or scanty urinary passage are all conclusive proof that the kidneys need assistance.

For any of these troubles Krines Kidney Pills are a positive cure and for them to fail to do what they were designed to do would be like reversing the law of cause and effect. These pills are sold and guaranteed at Krumrine's Drug Store. If you are not benefited you get your money back by asking for it.

Dannels Peters, division foreman on the C. R. P. at Hecla Park, returned from an extended visit to his brother Lawrence in West Liberty, Iowa. It is interesting to hear him tell of the wonderful farms in that country. Fred Wolf and Jacob Peters, former residents of this county, also reside there. They have crops of the value of \$150 and among their horse stock they have one valued at \$1,500. His brother Lawrence is building a \$15,000 residence in the aforesaid town. Dannel became so enthusiastic in expostulating on the western country that one would think it would be a common event to have to cross a river flowing with milk or honey or both. Mrs. Lawrence Peter, formerly Miss Edna Hoover, a school teacher in this county, says they could not exist in the west, if they did not get the Centre Democrat.

Probably more persons were sorely disappointed on the opening of the hunting season on Saturday, than ever before. Every man and boy that could get a shooting iron, in this town and vicinity repaired to the hunting fields long before daylight on Saturday morning, many of them being confident they would have roast turkey for Sunday dinner. But alas.

"The best laid schemes o' mice and men, gang aft a-gley."

Class in First Reader stand up. Now Boyd Irwin read first verse—read slowly: "I see a man. He has a new gun. It cost \$7. Did he shoot a Wild Turkey? No. The man's name is Joe Gill." Very well read Boyd.

Clark Emerick read next verse: "There is a man coming across the bridge. He has a gun. What has he got in his hand? It is a 'Piney.' Did he shoot the Piney? Yes. Did he shoot anything else? No. What is the man's name? 'It is Paul Shipley.' Good boy."

Irvin Holt, read third verse: "I see two men in the woods. Did he find any thing? Yes, he found a chip monk; but he did not hit it. What did he get? He got an empty gun."

Ruth Summers, read: "Oh! see that man with a big gun. His game bag is full. What has he got in his game bag? He has one squirrel in his game bag. Where did he get it? He bought it from a boy for five cents. Who is that big man? It is Howard Holtzworth."

Very well read. Now go to your seats and study your other lessons.

BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list.

Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have.

Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it. In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood.

Send for free sample. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. S.C. and \$1.00; all druggists.

The Greatest Curse.

"A party and an electroneering judge is the greatest curse that ever fell upon a free people. Public satisfaction cannot be given, nor public confidence inspired. I pity such an unfortunate judge.—Justice Jonathan Walker.
