### Chosen By the People to Conduct Affairs of State.

### A REPUBLICAN LANDSLIDE

### New York Gives a Plurality of 185,000

### For Roosevelt and Fairbanks—Connecticut, Delaware, New Jersey, Indiana and West Virginia Also Endorse the President's Administration. Parker Ran Behind Bryan's Vote of Four Years Ago.

New York, Nov. 9.—If Maryland has gone Republican, as unofficial returns indicate, the Republican vote in the electoral college will be the unprecedented one of 325 for Roosevelt and Fairbanks, to 151 for Parker and Davis. Not only is this far in excess of Mr. McKinley's votes, 292 in 1900, but Judge Parker's vote is four less than

PRESIDENT ROOSEVELT. (From a new photograph.)

that given Mr. Bryan four years ago. It is practically certain that the Republican national ticket has carried every state in the Union outside of the so-called solid south. It may take the official count to decide Maryland. The Republican majority in the next house of representatives will be not less than 50.

While complete returns are lacking, it seems probable that the Democrats also have elected governors of Nebraska and possibly in West Virginia. In the latter state the vote is very close, but the indications are that Cornwell, the Democratic candidate, has outrun the national ticket and will pull through.

Montana also reverses her electoral vote on state issues, and elects a Democratic governor.

Democratic successes are confined to the solid south, in which Kentucky is included, and Mr. Parker has not carried a single state which did not give its vote to Mr. Bryan four years ago. Unofficial returns indicate that he has lost some of those which the Nebraska candidate, held for his party. Official figures from some of the northwestern states may slightly change the totals, but based on the returns available, the electoral vote stands as follows:

For Roosevelt.	
Colorado	5
California	10
Connecticut	7
Delaware	3
Idaho	3
Illinois	27
Indiana	15
Iowa	13
Kansas	10
Maine	6
Maryland	8
Massachusetts	16
Michigan	14
Minnesota	11
Montana	3
Nevada	3
Nebraska	3
Totals	225

For Parker.	
Alabama	11
Arkansas	9
Florida	5
Georgia	13
Kentucky	13
Louisiana	9
Mississippi	10
Missouri	18
Totals	151

Necessary to election, 279. As a dramatic climax to the sensational majorities given him, came President Roosevelt's formal and only exciting aspect to an election night otherwise so one-sided that it was impossible for even the victors to pronounce that he would not be a candidate for re-election, lending the attain that degree of enthusiasm that usually marks the occasion. Late in the night came an announcement from Melvin G. Fallister, manager of the campaign for Thomas E. Watson, the candidate of the People's Party, that as a result of the overwhelming Democratic defeat steps would be taken to form a new party. To this end, according to the announcement given out, Mr. Bryan, Mr. Watson and William Randolph Hearst would hold a conference in New York in about a week's time.

So convincing was the story of the bulletins that at 7.30 August Belmont at Democratic headquarters conceded Roosevelt's election by an overwhelming majority, and half an hour later the Democratic managers who had managed the campaign freely admitted that the Republicans had carried every doubtful state. There was no disposition to hope against hope. As state after state sent in its Republican majority and the wires told the tale of the ballots, bringing even from those commonwealths upon which they had based their figures of Democratic success, reports of unprecedented Republican majorities, they frankly conceded their defeat and offered no explanation. Soon after Mr. Belmont's admission Judge Parker acknowledged the situation by telegraphing President Roosevelt his congratulations.

It is not only a year of phenomenal votes, but of phenomenal majorities as well.

Beginning with the state of New York, which gives a Republican plurality of approximately 185,000, the tale runs practically throughout the country, Kentucky alone showing Democratic gains. Indiana is credited with at least 40,000 Republican plurality, Iowa 125,000, and Pennsylvania heads the list as the banner Republican state, with the magnificent plurality of 383,195. Even in the southern states the vote has been light, Georgia's Democratic majority being only between 30,000 and 40,000. Texas will probably not exceed 100,000. Nevada, which was carried by Mr. Bryan four years ago, is Republican by 40,000, the indications are that Montana, Idaho and Colorado, also Democratic in 1900, have gone back into the Republican column. Delaware is estimated at about 5000 Republican; Massachusetts about 90,000, and Connecticut, in which the more sanguine of the Democratic leaders claimed to have had hopes, is about 25,000 for Roosevelt.

Theodore Roosevelt's plurality in this, his native state, is second only to McKinley's in 1896. It exceeds McKinley's in 1900 by about 41,500. The returns show that there were cast for him in New York state about 185,000 votes more than for Parker. Not only was his vote heavy in the country districts, where the Republican strongholds are, but in Greater New York, traditionally Democratic, he ran much closer to Judge Parker than had been expected, even by his own campaign managers. It had been estimated that he would come down to the Bronx with better than 140,000 plurality, but the figures showed that this forecast would be exceeded by approximately 85,000. In the city Parker's supporters had expressed hopes that their candidate would have from 140,000 to 150,000 more than Roosevelt, but in this they were disappointed by more than 100,000 votes. So overwhelming was the Republican vote that the result was known positively early in the evening. The earliest counties to report made it clear that the Parker vote everywhere fell below Bryan's in practically all the up-state districts. In Greater New York Parker's plurality was from 12,000 to 14,000 larger than Bryan's, but in the state, according to the late returns, his total vote fell 16,000 short of Bryan's.

The small plurality for Parker in New York city caused great astonishment, the lowest preliminary ante-election estimates having figured that he would go to the Bronx with 100,000

or more. When the reports came in showing that he would lead Roosevelt by only 40,000 they were received with amazement. The Parker plurality in the city was 35,000 less than was given Merrick (Dem.) for governor. In Brooklyn the Republican managers thought Parker might lead Roosevelt, but reports from all but 27 districts give Roosevelt 424 plurality. His total vote fell 16,000 short of Bryan's.

There was a great surprise in the proportions of the vote for Higgins (Rep.) for governor, he running far ahead of the Odell vote in the counties and winning by about 85,000. His plurality above the Bronx was probably 160,000, while Herrick's in Greater New York aggregated about 75,000. Herrick did not carry Albany, his home county, nor did Parker carry Ulster, in which he lives.

#### MARYLAND REPUBLICAN

Baltimore Sun Concedes the State to Roosevelt by 100.

Baltimore, Nov. 9.—The Sun, which supported the Democratic presidential nominee, concedes that Roosevelt carried the state by about 1000. In Baltimore city, with one precinct missing, Parker has 474 plurality.

In the six congressional districts of the state three Republicans and two Democrats have been elected, with the remaining district in doubt. This district is now represented by W. H. Jackson, a Republican, and the probabilities point to his re-election.

#### MINNESOTA REPUBLICAN

Gives Roosevelt 73,000 Plurality, But Elects Democratic Governor.

St. Paul, Minn., Nov. 9.—President Roosevelt received a record-breaking plurality in Minnesota of 73,000. Parker's vote was much smaller than that received by Bryan four years ago, and Roosevelt was especially strong in counties which of old were Populist strongholds.

Despite the tremendous plurality for Roosevelt, the Democrats apparently have elected their candidate for governor, John A. Johnson. At Democratic headquarters Johnson's election was claimed by a plurality of from 20,000 to 22,000. Chairman James A. Martin, of the executive committee of the Republican state central committee, claimed the election of Robert C. Dunn, the Republican candidate, but admitted that the result would be close. The Republicans elected the balance of their state ticket. The Republicans will have a majority on joint ballot in the legislature, ensuring the election of a Republican successor to United States Senator Moses E. Clapp.

#### RESULT IN MASSACHUSETTS

Gives Roosevelt 82,000 Plurality and Elects Democratic Governor.

Boston, Mass., Nov. 9.—Although the Republicans carried Massachusetts for President Roosevelt by 82,000 plurality, they lost the governorship for the first time since 1892, William L. Douglass, of Rockton, defeating Governor John L. Bates, of this city, by about 25,000 plurality.

The balance of the Republican state ticket is claimed by the Republican state committee, though the figures were not available.

The Democrats lost the Third district, and the delegation to the next congress will stand 11 Republicans to three Democrats.

The Republicans made slight gains in both branches of the legislature, which will select two United States senators.

Governor Bates lost heavily throughout the state, and especially in the manufacturing communities and this city.

#### RESULT IN DELAWARE

Republicans Win On National and State Tickets.

Wilmington, Del., Nov. 9.—Returns at hand indicate that Roosevelt has carried Delaware by about 2500 majority, and that the Republicans have elected their entire state ticket by majorities but little smaller.

Two-thirds of the districts in New Castle county, where the largest Democratic gains were expected, show a Republican majority of 500. Kent county's Republican majority will be about 500, while the Republican majority in Sussex county promises to be at least \$1500.

In New Castle county the Democrats probably elected seven assemblymen and the Republicans seven, with one district in doubt. Including the hold-over senators, five out of seven are Republicans. This insures a Republican legislature on joint ballot.

#### Indiana's Big Plurality.

Indianapolis, Nov. 9.—Indiana has been carried by the Republicans by from 45,000 to 55,000. The legislature will be Republican by about 50. All the nine Republican congressmen are re-elected by increased majorities, and the Republicans claim also the second and 12th districts, now represented by Representatives Miers and Robinson, both Democrats. They are in doubt. The legislature, which will meet in January, will elect two United States senators, one to succeed Vice President-Elect Charles W. Fairbanks. Senator Beveridge will be elected. The Republicans have almost if not quite doubled the McKinley plurality in the state of 26,467 four years ago.

#### West Virginia Reports Meagre.

Wheeling, W. Va., Nov. 9.—Returns from West Virginia are unusually meagre, and it is impossible to accurately outline the result except in the most general terms. The belief is that Roosevelt and Fairbanks have carried the state by a majority exceeding 10,000 and probably more. Meagre reports from a number of counties show that nearly everywhere the Republicans have sustained only slight losses as compared with their previous majorities.

#### Democratic Gains in Kentucky.

Louisville, Ky., Nov. 9.—With one-third of Kentucky's 1896 precincts reported, the vote indicates a majority in the state for Parker of from 12,000 to 14,000. The figures of the Democratic and Republican managers show but little variance from this result. Kentucky in 1900 gave Bryan 8990 plurality. The returns from 683 precincts show a plurality of 16,026 for Parker.

#### Republican Landslide in Michigan.

Detroit, Nov. 9.—Michigan was the scene of a veritable Republican landslide. Roosevelt and Fairbanks have carried the state by a plurality of 142,000. Fred M. Warner and the Republican state ticket are elected; at least 11 of the 12 congressmen from Michigan are Republican, and the legislature is overwhelmingly Republican, insuring the re-election of United States Senator J. C. Burrows.

#### The Vote in Mississippi.

Jackson, Miss., Nov. 9.—Returns coming in show that between 60,000 and 75,000 votes were cast, and the opposition to the Democratic party will poll between 10,000 and 11,000. The Democratic majority for Parker and Davis will be in the neighborhood of 50,000. Mississippi returns eight Democratic congressmen, the Republicans making no opposition.

#### A Puzzled Bride.

Twelve men, each with hat in one hand and a handkerchief in the other, stood smiling on the platform of the Audenried station at Freeport, Pa., last Friday evening as a pretty and puzzled young woman alighted. Another man, in the same attitude, but with an angry frown on his face, was in line with them.

The girl, frightened and on the verge of tears, glanced over the men, and then, with a glad cry, ran into the arms of Joseph Custman, the angry one. She had come from Renova, Pa., to marry him.

They had not seen each other for several years, and he had agreed to stand with his hat in one hand and a handkerchief in the other so she would recognize him. He told some friends and they planned the joke which they performed.

#### 700 Fruit Trees.

It is the aim of C. P. Long, the Spring Mills general merchant and lumberman, to have an orchard of seven thousand trees. He has now growing three thousand trees, all in good thrifty condition, and it is his purpose to plant one thousand trees each year until the seven thousand mark noted above is reached. The orchard is located midway between Spring Mills and Millheim, on farm known as Robert Smith place. An orchard to accommodate such a large number of trees will cover a plot of about twenty five acres. The varieties of fruit now growing are apples, plums, pears, cherries and peaches.

#### C. M. PARRISH SAYS.

Yesterday was a record breaker for Vin-te-na, and five of the bottles sold were to people who had been told of its merit by those who have been greatly benefited or, entirely cured by its use. Not one asks for a return of money, although I always allow them to be the judge. If you are run down and out of sorts generally, if your appetite is failing you, if your nerves have given way under heavy strain, come in and get a bottle of Vin-te-na at my risk.

At 9 o'clock Tuesday night at the Curwensville electric light plant, while assisting in the work of installing a new dynamo Wm. Lewis slipped and fell against the machine, touching the conveyor of an electric current with one arm as he was falling and caught a conductor which effected a circuit and immediately he was a dead man. The young man was a brother of John Lewis, who was killed on Norris' saw mill at Curwensville about a month ago. And singularly, it is not yet a year since the father of these young men was buried. He was aged about 25 years.

Harry Shoop, of Lewistown, special fish warden for that section, has been arrested on the charge of embezzlement, based upon the withholding of fines which should have gone to the department of fisheries.

The cut-rate undertaker is naturally looking for people who are dead cheap. The people who are in swell society naturally feel puffed up.
