

ANALYSIS OF CURRENT EVENTS Classified, Explained, No Sensationalism or Partisanship

COMMERCE and INDUSTRY

Industrial.

Irish Exodus to America. The British press is deploring the continued rush of Irish and Cornish emigrants to America. Over 22,000 have left Ireland alone during the present year.

Grasshoppers Threaten Kansas.

The big, voracious alfalfa grasshopper which did considerable damage to the vegetation of Kansas during the past summer is threatening that great grain state with a worse scourge next year. This fear is based on the discovery of many eggs laid by the hoppers this fall.

Erie to Electrify a Section.

The managers of the Erie railroad have about decided upon a plan for the electrification of the suburban service throughout New Jersey at an expense of \$30,000,000.

A Coal Trust in Spain.

F. W. Mahlin, the American consul at Nottingham, England, has information to the effect that a coal trust is in formation in Spain with the object of cutting out the English producers. The plan is to combine all the coal mines of Spain under one management, with a capital of \$40,000,000, hoping to increase the total output.

Responsibility for Train Wrecks.

In its editorial dealing with last year's terrible record of railway accidents in the United States the Railway Age says it is possible to avoid all train accidents, but adds that the requirements for such a system would not be tolerated by the American public. It finds two things primarily responsible for our railway fatalities—namely, "the demoralization in discipline incident to the labor union movement, and the lack of proper signaling equipment."

Labor.

Auto Drivers to Organize.

The organizers of the International Brotherhood of Teamsters have begun to form unions composed of automobile drivers who operate business vehicles. The movement, which started at New York, is being carried on in all the larger cities of the country.

Fall River Mills to Resume.

The owners of the Fall River (Mass.) cotton mills refused last week to entertain the proposition made by the Textile Council for an investigation of the ability of the mills to pay the old rate of wages. At the same time the manufacturers voted to reopen their mills on Monday morning, Nov. 14.

Labor Conditions in Germany.

That wages of adult laborers range from 24 cents a day to 83 cents a day in different parts of Germany for a ten or twelve hour day is the statement made in a book just issued by the secretary of the Teamsters' union at

Dresden. Notwithstanding this, the cost of the necessities of life and rents are as high as in the United States.

Falling Wages in England.

Consul General Evans, at London, England, notes the issuance of the eleventh annual report of a British board of trade showing changes in the wages and hours of labor in the United Kingdom. The report shows that over a million workers had experienced a decrease in wages during the last fiscal year. In 78 per cent of the cases wage changes were effected by arbitration.

Commercial.

Election Boomed Trade.

The Republican cyclone made a high water trade of stock transactions Nov. 9. Shares were dealt in to the number of 2,329,746, and \$3,977,500 in bonds changed hands. Prices ruled higher all along the line.

Rockefellers in Atchison.

It was stated at Los Angeles Nov. 10 that John D. Rockefeller and James Stillman had bought \$25,000,000 worth of Atchison, Topeka and Santa Fe.

Crusade of the Oleo Trust.

Secretary Treasurer George W. Russell of the recently organized National Oleomargarine association admits that an aggressive national campaign has been begun for the repeal of the Groulx bill, which imposed a 10 cents a pound tax on colored "oleo." He says that the great packing houses of the west as well as the local dealers are enlisted and are sending in contributions.

EDUCATIONAL

Nurse Training at Harvard.

Under the instruction of President Eliot, Dr. Alfred Worcester has been investigating methods of training for nurses in Europe before taking charge of a college for nurses which Harvard is about to establish. This will be the first college of its kind in connection with a university. A four year course is to be provided. The students, besides hearing lectures and studying text books, will gain experience by practice in private homes with private patients as well as in hospital wards.

Fire Drill Saves School Children.

The value of fire drills in general and especially the efficiency of the drill in the New York city schools was demonstrated when fire attacked school No. 17, in Forty-seventh street, Nov. 9, during school hours. In perfect order 2,500 pupils were marched out of the burning building. They ranged in ages from five to fourteen. In about two minutes the building was clear.

"Tech" to Join Harvard.

It is announced at Boston that the proposed educational alliance between Harvard university and the Massachusetts Institute of Technology has been definitely agreed upon. Neither of the institutions is expected to sacrifice its independence, as the separate faculties and administrations would continue. The main thing about the alliance is that all of the industrial sciences would be taught by "Tech," while the courses in liberal arts and pure sciences would be taught by the Harvard faculty.

SOCIOLOGICAL

Miss Gould Reforms the Pike.

On request of Helen Gould, the lady managers and the national commission of the Louisiana Purchase exposition have expelled from the Pike objectionable features and solicitors. A number of acts in the theaters have been stopped or toned down.

Women Against Trade Schools.

The action of the New York Federation of Women's Clubs in electing Mrs. Philip Carpenter as president in place of Mrs. Dore Lyon last week was due in part to the opposition to

The Presidential Election of 1904

The American ship of state has been commissioned for another four year voyage with Theodore Roosevelt as captain and the Republican party as his well disciplined officers and crew. The people willed it thus with a popular plurality of over 2,000,000 ballots Nov. 8 in an election full of political surprises.

Brooms, landslides, cyclones, floods and tidal waves have been worked overtime since that fateful day by the able phrase mongers of the press in an effort to express adequately the size of this victory for the Republican party. Although confident of winning, the Republicans themselves say they did not expect such enormous gains. In the hour of his supreme triumph the president and president elect delivered a master stroke of true strategy by explicitly saying he would neither seek nor accept another presidential nomination. This makes for cheerful acquiescence of the minority elements. The overwhelming defeat of the "safe, sane and conservative" candidate in the name of the Democracy, together with the surprisingly large vote cast for the Socialist and Populist candidates, makes certain one of two results—the Democracy will be reorganized with Bryan and his radical allies in full control or the radical elements of that party will be fused into some entirely new and radical organization. Already rumor is busy connecting the names of Hearst, Bryan, Watson and others with such an alignment. Our American sense of humor will hardly grudge Mr. Bryan his sarcastic remark that "surely silver cannot be blamed for this defeat."

Mrs. Lyon's project for the establishment of a trades school for girls.

The Women's Poison Habit.

The Twentieth Century club of Boston at the suggestion of Edward Atkinson has begun a movement for legislation to enforce publicity regarding the contents of the so called patent medicines. Commenting on this action, the Woman's Journal says that women are the chief patrons of these poisonous patent medicines in the shape of tonics for themselves and soothing syrups for their infants. It testifies that even earnest workers in women's societies destroy their nerves with drugs more deadly than the drams they deprecate. Under specious names in thousands of drug stores "women who shrink with horror from a saloon imbibe 'medicines' far more deadly than 'drinks' at ten times more exorbitant prices and wreck their health and homes without knowing what they are doing." The proposed law is similar to one now rigidly enforced in both France and Germany.

Edward Atkinson.

Another Church Saloon. Under the patronage of the Rev. G. A. Morrill, pastor of the People's church of Minneapolis, that city is to rival the Subway tavern at New York by having a church, theater and saloon all in one building.

Antirheumatism Serum. A curative serum for articular rheumatism is said to have been discovered by a Dr. Menzer of Halle. He has become convinced that the disease is caused by a streptococcus which enters the organism through the lungs.

Against X Rays for Cancer. The proposed Oncologic hospital at Philadelphia for the treatment and study of cancer and other tumors is not to use the X ray treatment. The specialists in charge say it is generally admitted now that the X ray treatment is futile and dangerous to patient and operator alike. The latest case of X ray poisoning is that of Dr. Louis A. Weigel of Rochester, N. Y., who had to have his right hand and a part of his left amputated on account of the growth of a cancer caused by frequent use of the X rays. While Dr. Weigel is said to be improving, there is no certainty about the outcome. Only a few weeks ago occurred the death of Mr. Edison's assistant, Clarence Dailley, from similar causes.

Size of Known Universe. Inquiring into the extent of the universe, Professor Simon Newcomb, our foremost astronomer, writes in Harper's Magazine that nearly all the stars which we can see with our telescopes are "contained within a sphere not likely to be much more than 200,000,000 times the distance of the sun." As to there being stars without limit beyond our radius of vision, Professor Newcomb does not pretend to know, but the fact that the stars of each order of magnitude are not found to increase in uniform ratio favors the conclusion that stars are not scattered through all space equally.

Lou Dillon Regains Laurels. The world famous trotting mare Lou Dillon, whose record was lowered recently by Major Delmar, was driven by her trainer, Millard Sanders, at Memphis, Nov. 8, a mile in 2:01 1/2 without aid of pacemaker ahead or wind shield. This is the record made by Major Delmar, who was formally crowned king of trotters on the New York speedway.

Oldfield Auto Champion. Since the recent victory of Barney Oldfield in the ten mile automobile race at Yonkers, N. Y., against Bernin, Sartori and Terry, the road racing champions of Europe, the American driver has been regarded as the world's auto champion. Oldfield covered the ten miles from standing start in the record time of 9 minutes 12 3/5 seconds.

Auto Boat Mile Record. The fastest time ever made in the world by an auto boat over a nautical mile was credited to the Ontario, owned by H. B. Moore of the Atlantic Yacht club of New York, which went the mile on the Hudson in 2 minutes and 28 seconds. This is at the rate of 28.36 statute miles an hour.

Public Sale Register. Notice of sales inserted under this heading for \$1 when not exceeding 5 lines. Persons having bills printed at this office receive no fee free. As this paper has over 400 circulation, its value as an advertising medium can be appreciated.

Thursday, Nov. 17.—1 1/4 miles west of Julian at 1:30 p. m. Dark Bay horse, large lot head of cattle farm implements, etc. S. K. Emerick, auct. C. M. METER.

Saturday, Nov. 19.—1 p. m. J. M. Lambert's sale near Mt. Pleasant, on Buffalo Run E. R. horse, cow, pigs, plow, and other implements and household goods. S. K. Emerick, auct.

Wednesday, November 23.—One mile west of Pleasant Gap on L. O. Reaick's farm, 4 work horses, 14 cows, 4 young cattle, 10 hogs and farm implements. H. D. Reaick, auct. Wm. A. Ishler, auct.

Saturday, November 26.—1 mile west of Riverview, on the farm of Mrs. J. M. Lambert, 12 head of cattle, 12 hogs, 12 chickens, 12 ducks, 12 geese, 12 turkeys, 12 pigs, 12 sheep, 12 goats, 12 cats, 12 dogs, 12 birds, 12 insects, 12 reptiles, 12 amphibians, 12 mollusks, 12 arachnids, 12 nematodes, 12 fungi, 12 bacteria, 12 viruses, 12 protozoa, 12 plants, 12 animals, 12 minerals, 12 rocks, 12 fossils, 12 meteorites, 12 comets, 12 asteroids, 12 planets, 12 stars, 12 galaxies, 12 universes.

Thursday, Dec. 1st.—At 1:30 p. m. on premises in Benner Twp. 220 acre farm with lime stone ledge—estate of Chas. Wimer, decd. See advertisement another column.

Monday Dec 5.—Andrew Hugg will sell 3 horses, 12 head cattle, hogs and farm implements 4 miles north west of Milesburg in Union township. Sale at 10:30 a. m. Wm. Goebel, auct.

Wednesday, DECEMBER 1, 1904. THE LIME STONE VEIN AND VALUABLE FARM AND LIME STONE PROPERTY BEING OFFERED TO THE DECEDENT, situated on the Buffalo Run in the Township of Benner, 1 1/2 miles west of Bellefonte known as the "HARLES WIMER HOME-STEAD FARM, containing in all 219 OR 220 ACRES.

On the premises are orchards, gardens, a fine flowing stream and two never failing wells. The soil is fertile and in high state of cultivation. The farm proper consisting of 12 acres and 17 perches, is one of the most valuable farms in Centre County.

The lime stone property consisting of 75 acres, has running through for 100 rods the celebrated Bellefonte vein of lime stone, which chemical analysis proves to be of the highest grade on this particular farm. This lime stone is near the railroad and is unrivaled in position for development by any manufacturer. The same vein of lime stone is worked both to the East and West of this property by the American Lime and Stone Company.

TERMS OF SALE:—will be one-third down in cash, one third in one year, and one third in two years, the deferred payments to bear interest from date of deed, and to be secured by bonds and mortgage on the premises.

The undersigned will a so offer for sale a buggy, sleigh and harness.

Football Lyrics.

THE CENTER RUSH. The center is a powerful man, Whose anger it is fun to fan; At least opponents think so. As of the ball he bends low They say things quite unlike a prayer And pull out handfuls of his hair; They know he cannot well resent it, Though he replies as if he meant it.

THE GUARD. This object has the guard, it seems, To send unto the land of dreams The fellow who opposes him. He acts with eagerness and vim And lands full many a vicious punch. Where rests his rival's frugal lunch.

THE END RUSH. He stands alone upon the wing And crouches like a cat to spring Upon the man who tries to go Around his end. He tackles low And rubs the runner in the dirt, Depriving him of half his shirt. Look out! Don't fumble when you fall, Or he will drop upon the ball.

THE QUARTERBACK. Although diminutive in size, In him the combination lies That guides his team in its attack And drives the other side way back. He stands behind the husky line And shouts a cabalistic sign. His team is pretty sure to score When he yells, "Six-eleven-four!"

THE COACH. The freshman thinks he is a god, And even seniors oft are led. When he throws out his giant chest And tells the players what is best. 'Tis he invents the box of tricks That put opponents in a fix. And when the whistle calls to play He raises like a wolf at bay. Well players know that nothing worse is Than being targets for his arrows.
