The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HIGHVALLEY.

Sunday was a lively day at the scribe's place. James Eisenhuth in company with his wife, who live at East End, Barney and his best and her sister; shortly after dinner I was surprised to see our landlord, Wm. Egor, in company with a gentleman from York county and Andrew Fryer call on the scribe. No politics was mentioned, as the gentleman from York is a democrat and so Mr. Egor did not open the ball as he thought too many dogs after one rabbit would be sure death, so we laid politics in the waste basket and started in business to pay our cigar bills; no one will pay it; so we must but remember, boys, the gentleman from York county said he read the Highvalley news, he wanted to see the scribe, so when he read that he knew who is doing it—he came to bury apples.

News came that J. B. Rishel broke three ribs; the bulletin says Mr. Rishel went to the barn to gather some straw, climbed up on the overhead, could not find any, he slipped and fell down and broke three ribs.

On Thursday night Henry Eisenhuth, who lives at East End, lost a valuable horse; on Saturday he bought a dandy sorrel mare from Foster Albright, blacksmith in Millheim.

It seems that some of my close neighbors hang their lips; I can't help what takes place among the young people; I'm sorry as it is, I have been in the same box but I managed so the poor people had no tax to pay for my misbehavior; I can't help it that J. B. Rishel fell and broke ribs.

HOUSERVILLE.

On Monday we emerged from the great political landslide of Nov. 8, to find terra-firma covered with several inches of the beautiful, which interfered somewhat with A. J. Aidman's butchering that was in progress at the time; but John Meckley, the second assistant, thinks it don't matter since Ellis Orvis is elected to the bench and Teddy retains the presidential chair, and John auto-no, for he fought in the Rebellion and says he has the largest hog to slaughter in this section this fall. The Houserville grist mill, is tied up at times on account of the scarcity of water which is scarcer yet when Geo. Herkheimer brings his dog and other farm stock over the hill to quench their thirst and have a chat with the neighbors on this side.

IS YOUR BACK ALLRIGHT?

If It Isn't the Chances Are That Your Kidneys Are Calling For Aid.

The kidney's are the most important of all the organs; they have more work to perform than any other, hence the necessity of heeding the first symptoms of their derangement. They filter or strain the blood, thus removing the impurities and poisons from this vital fluid. By keeping these greatest of Blood Purifying organs in good health, many diseases are prevented.

Pains in the back and loins are evidence that the kidneys are affected, and they in return will affect the Nerves, causing nervousness, sleeplessness, restlessness, irritability, etc. Infrequent or too frequent urination excessive, painful or scanty urinary passage are all conclusive proof that the kidneys need assistance.

For any of these troubles Krines Kidney Pills are a positive cure and for them to fail to do what they were designed to do would be like reversing the law of cause and effect. These pills are sold and guaranteed at Krumrine's Drug store. If you are not benefited you get your money back by asking for it.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the label is on the wrapper of every bottle of Emulsion you buy.

END OF THE FAIR.

In the course of forty-two years the United States has aided eleven industrial exhibitions at home and ten in foreign lands. Its appropriations for exposition purposes in the period indicated have been more than \$21,000,000, and nearly a third of this sum went to the Louisiana Purchase Centenary enterprise which finished its course at St. Louis Dec. 1st.

In its scope, beauty and cost the St. Louis Exposition made a new world's record. Its buildings and grounds took up 1,240 acres, as against the Chicago Fair's 633 acres in 1893 and the 336 acres devoted to the Paris Exposition in 1900. In attendance comparisons are less favorable. The Paris show of 1889 brought 25,121,975 visitors and that of 1900 drew more than 50,000,000. At Chicago 27,539,041 persons passed the gates, while the unofficial figures at St. Louis make a count of about 18,750,000.

At Chicago the Exposition disbursements were \$31,117,353; receipts, \$35,290,065. The St. Louis expenditures in seven months have been more than \$50,000,000, and a margin of a million in receipts is claimed unofficially. It has been said that the Exposition just closed was too big and fine really to pay. Yet it has surely won notable returns in the form of world tributes to the imagination, daring and persistence of the city and people that conceived and carried through so gigantic and splendid a venture.
