BLANCHARD.

Some of our young ladies feel hurt about result of past week. The brick works are advertising for men. There is an organization in town known as the "Jolly 13." President, Ed. Fox; vice president, F. Moore; directors, Big Jer, Little Bert, Good natured Pud, Orris Soughpaw and Laughing Porter. It is to be beneficial on certain occasions, there being so many (coons) Kunes in the society they have formed a glee club under the instructions of Laughing Port. It would do you good to hear them render "Only teasing," "The Last Drop in the Bucket" and "Campbell is coming." The last is quite appropriate as John is always behind like a cow's tail. Mad? Well, I guess so; but the company did the square thing. An illegal hunter, who does not use either buckshot or a high-pressure rifle. A few days ago a large wild turkey flew off the ridge near Frank Confer's, dropping to the ground near Mr. Confer's house; he noticed the turkey struggling violently and went to learn the cause; when within a few feet of the turkey a large weasel scampered off through the field; the turkey took to flight but left a pool of blood and undoubtedly would have been killed had not Mr. Confer appeared and frightened the weasel away. Summer school (normal) will be opened Monday, April 24, by Prof. Pletcher.

IS YOUR BACK ALLRIGHT?

If it isn't the Chances Are That Your Kidneys Are Calling For Aid.

The kidneys are the most important of all the organs; they have more work to perform than any other, hence the necessity of heading the first symptoms of their derangement. They filter or strain the blood, thus removing the impurities and poisons from this vital fluid. By keeping these greatest of Blood Purifying organs in good health, many diseases are prevented. Pains in the back and loins are evidence that the kidneys are affected, and they in return will affect the Nerves, causing nervousness, sleeplessness, restlessness, irritability, etc. Infrequent or too frequent urination, excessive, painful or scanty urinary passage are all conclusive proof that the kidneys need assistance. For any of these troubles Krines Kidney Pills are a positive cure and for them to fail to do what they were designed to do would be like reversing the law of cause and effect. NOT A PATENT MEDICINE.

Hyomei, The Guaranteed Catarrh Cure, Prescribed by Physicians. No one should confound Hyomei with the patent medicines that are advertised to cure catarrh. It is as far superior to them all as the diamond is more valuable than cheap glass. Their composition is secret, but Hyomei gives it to all reputable physicians. Its base is the valuable eucalyptus oil, famous for its antiseptic qualities. This is combined with aromatic and healing gums and balsams, making a pure liquid, which when used in the Hyomei pocket inhaler, fills the air you breathe with germ-killing, disease-destroying and healing powers that kills all catarrhal germs there may be in the throat, nose and lungs. How foolish it is to try and cure catarrh by swallowing tablets or liquids. The only natural way to cure this disease and all other diseases of the respiratory organs is to breathe Hyomei. This treatment has been so successful, curing 99 per cent. of all who have used it, that Hyomei is now sold by S. Krumrine, under an absolute guarantee to refund the money if it does not cure you. You run no risk whatever in buying Hyomei. If it did not possess unusual powers to cure, it could not be sold upon this plan. The complete Hyomei outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a lifetime; and additional bottles of Hyomei can be obtained for 50 cents.

Overeating.

Lots of people think a big appetite is a sure sign of health and a guarantee of long life, when, as a matter of fact I don't know of anything more dangerous to a person's general health. Appetite is just the natural desire for food. Both loss of appetite and over eating are causes for alarm. An insatiable appetite is a sure sign of diabetes. It is not what you eat but what you digest that does you good. Some of the strongest and healthiest persons I know are moderate eaters. Overeating is a very common habit that ought to be attended to, before it develops into a chronic complaint. Rexall Dyspepsia Tablets are a specific for that particular ailment, and I recommend them to my customers every day and have yet to hear of the first person who has not been benefited by them. Of course the reason is easy to understand—Rexall Dyspepsia Tablets are prepared for dyspepsia only. They are from the prescription of a physician whose whole practice was devoted to stomach troubles, and to make the offer doubly safe on your part I guarantee Rexall Dyspepsia Tablets to give prompt and permanent relief or I refund your money. I have a large trial size, containing seventy-five doses for twenty-five cents. I want you to try a box on my personal recommendation.
