Bakers Talk of General Strike.

The decision of the United States supreme court overruling the New York ten hour bakery law has been followed by strike talk, and Secretary Harzbecker of the International Union of Bakers and Confectioners said there might be a strike involving 85,000 bakers throughout the United States on May 1 if the ten hour demand was refused.

Prophet or Opportunist?

The panicky condition of the stock market at the close of the last business week, together with the disclosures made by the factional fight in the great Equitable insurance society, gave color to the allegations and prophecies which have been made by Thomas W. Lawson.

In a flood of private telegrams and newspaper advertisements Lawson only announced the imminence of a crash, alleging that the market had been forced to a fictitious value by a coterie of speculators in Wall street.

Following this announcement wild scenes were witnessed in the New York Stock Exchange, while stocks began to fall in price heavily.

Equitable Row Shakes Confidence

H. C. Frick

Business confidence has been shaken by the disclosures of the week in the Alexander-Hyde feud over control of the Equitable Assurance society. If such things could exist behind the scenes in such an organization, why not elsewhere?

Whether Mr. Hyde stays in or gets out is of interest to the business public only in so far as it measures the progress of a duel between the financial giants behind the scenes.

opinions differ. Most of the financial writers for the daily papers say it is merely a coincidence and that Lawson is an opportunist. No one pretends to deny, however, that the condition of affairs in the Equitable bears out all and more than Mr. Lawson alleged in his recent magazine articles.

The situation renews interest in the May installment of "Frenzied Finance" in Everybody's Magazine. In this is told how H. H. Rogers substituted the Daily-Haggin-Tevis properties for the Boston group of "coppers."

Industrial.

New Panama Railroad Policy.

The executive committee of the isthmian canal commission has decided to conduct the Panama railroad on an entirely new basis, first with the object of transporting material for the canal work and second to increase its earnings by freight revenues so as to pay the interest on the \$7,000,000 which the government has invested in the project.

Gasoline Cars for the Alton.

The Chicago and Alton Railroad company has contracted for six gasoline motor cars to be used in its interurban service. This service is designed to meet the competition of the electric lines now parallel.

Long Island Motor Cars.

The Long Island railroad has received the first installment of its new steel motor cars for the electrical equipment of the road. Externally they look very much like the steel cars in the New York subway.

RELIGIOUS

Christianity Versus Socialism.

In a new book entitled "The Captive City of God," by Richard Heath, an English writer, says the Literary Digest, the view is taken that the growth of Socialism is a direct challenge to Christianity. He says that Socialism is the "modern version of Christ's Christianity separated from theology, clericalism and public worship and from every idea of the church."

Gladden's Church Idea.

The Rev. Dr. Washington Gladden, recently prominent in his opposition to the acceptance of Mr. Rockefeller's

gift to foreign missions, writes in the International Quarterly that "the main interest in Christianity must be in the social order," and that if the church unites itself for social work "by taking bribes of tainted money she ought to perish with her money, and she will."

SOCIOLOGICAL

Young Men the World Needs.

Governor Cummins of Iowa, speaking at the annual dinner of the Des Moines Y. M. C. A., referred to Andrew Carnegie and John D. Rockefeller as types of American manhood to be emulated.

He asked if it were not queer that Mr. Carnegie, "who had willingly stimulated and participated in the benefits of the wickedest organization ever designed by man, should take his share of the ill gotten gains of this combination and pour it into the divinest channels ever hewn out by man."

Sanitation of Packing Houses.

The symposium of writers in the current Collier's throws some light on the lack of sanitation in the meat producing industry of Chicago. Major L. L. Seaman, the sanitary expert, testifies that dressing of the slaughtered animals is done in rooms improperly lighted and ventilated.

President Butler of Columbia university announces plans for a great school of fine arts to be established at Columbia in connection with the Metropolitan Museum and International Academy of Design.

Hilprecht Accused Recalled.

The trustees of the University of Pennsylvania have requested the Rev. Dr. John P. Peters and Dr. Prince of New York to again testify concerning the charges against Professor Hilprecht. This was construed as a virtual apology for the legal bullying which caused the eminent New Yorker to leave the former hearing.
