

Bellefonte and Vicinity

The Local Happenings in Short Paragraphs

The attendance at court this week is very light. Mrs. Wm. Dawson is visiting friends in Philadelphia. The electrical connections are being put in the Y. M. C. A. this week. John Van Pelt returned to Spangler after spending a few weeks in Bellefonte recuperating his health. Wm. Wolf was playing ball on Saturday and was struck in the face sustaining a broken nose. Automobiles were numerous in town on Sunday. These machines are becoming plentier in town. J. Fred Kurtz, of the Lewisburg Journal, and wife, spent over Sunday with his parents in this place. James I. McClure departed this afternoon for Greensburg, where he will transact business for several weeks. Mrs. Charles E. Aull and daughter, Miss Margaret, of Ardmore, Pa., are visiting at the Richards on East Linn street. Dr. W. P. Ard, of Woodward, was a pleasant caller in our office the past week. He is a retired practitioner and able to enjoy life. The Bellefonte Academy grounds are being put in fine condition, and will be in good shape by the time the Centennial celebration takes place at that point. Lewis K. Dennis, who lately moved from Penns valley to South Dakota, writes us "We do like it here—a fine country." He has moved from Scotland to Menno, S. D. Trout fishing has not improved any since the beginning of the season, but that does not interfere with fisherman Tibbens of this place in bringing in whoppers of suckers. Every once in a while some good friend drops in to inform us that he lost part of his wad in the Storey Cotton scheme. There are lots of them, only the most suffer in silence. Fred Weaver, son of Mr. and Mrs. J. C. Weaver, who is a student in the Peabody institute, Baltimore, on Easter Sunday played the organ in the Babcock Memorial Presbyterian church in that city. Rufus Strohm, formerly of Bellefonte and a son of James B. Strohm, of Centre Hill, has been advanced to the position of text book writer in the International Correspondence School at Scranton. The improvement of the sewer crossing Allegheny street at Bishop is a great relief to property owners in that community, who generally suffer with flooded cellars when there are heavy rains. During the past week vegetation has taken a fine start. Most of the trees have put on their summer garb, the fields are green, the women folks are wearing their new Easter bonnets and everything is lovely. The state convention of the Knights of the Golden Eagle will convene in York, Tuesday, May 9. The Bellefonte branch of the order will send a delegate, and several of the members contemplate attending the session. Miss Minnie Kline, of Centre Mills, called at our office on Saturday. After years of illness she rejoices in being able to be about and enjoying good health, which is attributed more to Providence than any other reason. E. R. Wolf, one of the able young instructors in Haines township the past winter, was in town on Saturday, and paid us a short call. He won the first award in the book contest for that district and is known as a hustler. The organ recital in the Catholic church last Thursday evening was attended by a large audience. It was a rare opportunity to hear the famous Minor C. Baldwin, and the program rendered more than pleased the audience. Rev. Dr. Wolf, of Spring Mills, gave us an half hour's call a few days ago, upon his return from a few weeks' trip to the western counties of the state. We were pleased to see the marks of improvement upon his health from his pleasant outing. He is a gentleman, one is always glad to meet. H. C. Quigley, Esq., has added a private consultation room to his law office in Temple Court and has it fitted up to the queen's taste. In this den he will occasionally retire to discuss legal points or lay deep political plots to keep some other fellows from gaining control of the local republican organization. It is the general impression that District Attorney W. G. Runkle sized up to his job in good shape last week. The act fixing the salary of his office at \$1000 per annum will not apply to Centre county until the end of his three-year term, on the principle that no official's salary can be increased during his term. Miss Ella Alters, of this place, who has been sorely afflicted with a bealed jaw bone, is undergoing treatment at the University hospital for blood poison. The young lady is assured of being cured and in three or four weeks she will be able to have a silver splint put in her jaw which will straighten her face.

Mrs. S. H. Williams and daughter, Rilla, are visiting friends in Philadelphia. Mr. and Mrs. Charles E. Dorworth, of Philadelphia, spent Sunday in Bellefonte. Forty Hours' Devotion will open in St. John's Catholic church next Sunday, May 7. Hon. Wm. C. Heinle was elected on Tuesday, as a director of the Lock Haven State Normal. James H. Potter bought the Bellefonte Glass Works property, at receivers sale on Saturday for \$3450. No visitors will be allowed at the jail until after Tuesday, excepting those who have occasion to go there. Insurance agent Frederick Foster wounded his left hand with a rusty knife and now has quite a sore thing of it. Samuel H. Diehl left Monday afternoon for Indiana county, where he will sell swings for the Yeager Swing company. Wm. Rees, Jr., who holds a good position in the postoffice at Patton, Pa., is visiting his parents, Mr. and Mrs. G. W. Rees. Misses Mary and Christine Blanchard, of Chicago, Ill., arrived here Wednesday afternoon and are visiting Bellefonte relatives and friends. Mrs. James A. Beaver departed for Pittsburg Saturday where she will be with her husband who is attending a session of the Superior Court. Mrs. Claude Cook and her daughter Grace are in Philadelphia and Atlantic City. Miss Grace has been ill for some time this trip is being made that she might recuperate. Mr. and Mrs. David Hendershot gave a birthday party in honor of their daughter Miss Elsie on Monday evening, May 1st. A large number of her friends were present and all had a jolly good time. The first game of base ball for the season was played on Friday between the High school teams of State College and Bellefonte in which the score was against our boys by 11 to 6. Of course there are reasons for all this. The Lock Haven Business Men's base ball club crossed bats with the Bellefonte Academy team on Saturday afternoon and the game resulted in a victory for Lock Haven by a score of 13 to 12. A return game will be played in Lock Haven on May 20. The new bridge over the race at the Pennsylvania depot will be put up in short order. Contractor John Noll is putting in the stone abutments and the iron superstructure will be furnished by the York Bridge Company. The Council pays for the foundation while the County Commissioners erect the iron bridge. The application of Phil. Garbrick, for wholesale beer license, in Bellefonte, was withdrawn the past week. The experiment of our community getting along without such a license will be closely watched. Many think it will check the frequent carousals on the outskirts of town by intemperate persons who can not secure liquors at the bars. Edward Uffington Valentine visited his mother, Mrs. Abram Valentine for the past few days but left Monday evening for his home in Baltimore, Md. Mr. Valentine is the author of "Hedra Sandwith." The plot is around the old charcoal furnaces of this section in the years gone by, and it has received favorable comment. It is a bit of good news to hear that John C. Miller, recently of Patton, has become editor of the Barnesboro, Pa., Star. A few years ago he was editor of the Daily News and Republican; from here he went to Patton, Pa., to open the insurance business, which he abandoned for the profession he loves. Mr. Miller was a forceful and original writer and under him there was a certain vein of humor in our Daily that was admired. That he may live long and prosper is the wish of his Bellefonte friends. Hon. John A. Woodward is imitating Teddy Roosevelt, by carrying a "big stick" with warts all over it. He wont hurt anyone with it, as he uses it to "locomote." Some weeks ago he had a severe fall straining the ligaments in his ankle, and this was his first trip out for a long time. After discussing politics, literature, religion, political science in general and not much in particular as well as giving the editor the usual advice as how to run a first class newspaper, he gracefully took his departure, promising to call again. Persons who favored our sanctum with calls in the past week were: Alfred Hosterman and John Messinger, witnesses, both of Potter; Uriah Shaffer of Miles; G. W. Rumberger, of Unionville; Prof. A. Pletcher, W. B. Henderson, Burdine Butler, and Sunday Wolf, all of Howard; W. S. Miller, of Julian; Jacob Harpster, of Pa. Furnace; Misses Anct. Miller and Lizzie Philips, of Madisonburg; J. A. Pifer, of Walker; W. H. Adams, of Milesburg; Mary A. and Julia Davidson, of Unionville; Mrs. Cook Jones, of Philipsburg; W. K. Corl and wife, of State College; Z. W. Hoy, of Walker.

GATHERED OVER THE COUNTY.

Mrs. Joseph Garner, of Howard was discharged from the hospital cured. John Rossman, formerly of Linden Hall, is now located at Lemont, as assistant station agent under Irvin Drees. A car load of beans and a car of canned punkins were shipped from the Howard canning factory last week to the eastern market. A marriage license was granted in Lock Haven, on Monday, to Evert H. Daugherty and Miss Rhoda E. Bowes, both of Pine Glenn. Rev. R. W. Illingworth has accepted a call to become the pastor of the First Presbyterian church of Somerset, Penna. He enters on his new field of labor the 1st of May. Richard Gregory and John Bumgardner, of Huntingdon county, will canvass this section of the county shortly for the purchase of wool, and pay the highest price in cash. Thomas D. Decker and Anna M. Rager, both of State College were united in holy bonds of wedlock at the Methodist parsonage last Thursday morning by Rev. J. A. Wood, Jr. Tuesday morning Mrs. Annie E. Irvin, wife of Henry Irvin, died at her home in Altoona. She was born in Centre county on August 25, 1840, and lived at Altoona for thirty-four years. The reports from all parts of the county are that the buds on fruit trees were not injured by the long and severe winter. There is slight danger though from late frosts nipping the late blossoms during the month of May. Clyde C. Holmes, of Lamar, and Miss Clara Minnick, of Nittany, after securing a marriage license at the court house in Lock Haven, went to the United Evangelical parsonage, where they were united in marriage by Rev. M. F. Fosselman, on Saturday. Miss Mary E. Penney, of Snow Shoe, who had been attending the Lock Haven Normal school, was taken ill a few days ago with appendicitis and was operated on Tuesday at the Lock Haven hospital. She is reported as getting along nicely with good hopes of recovery. A large quantity of huckleberry stalks were shipped by John H. Puff from Centre Hall to Jared Ossman, at Butler, Missouri, who will try to cultivate the crop in that state. Huckleberries are not found in that section and it will be interesting to note what success Mr. Ossman will have with the plant. On Saturday, Mrs. Mary A. Rodgers, wife of James Rodgers, of Point Lookout, in Rush twp., died from injuries sustained by a fall from a chair while hanging paper at her home. Mrs. Rodgers leaves a husband and five children to mourn the loss of a good wife and mother; she was aged about 41 years. A number of persons from Rush and Sugar valleys, have formed an organization called "The Valley Horse Association." They bought from Hartman & Co., of Columbus, O., the imported stallion that has been on exhibition at Rebersburg for a number of weeks. The officers of the company are T. R. Harter, of Loganston, president; J. L. Kemmerer, of Loganston, secretary, and D. D. Royer, of Rebersburg, treasurer.

ADJOINING COUNTIES.

Joseph H. Long, of Flemington, has added another farm by purchasing at administrator's sale the W. W. Furst farm, in Lamar township. Lewis Draucker of Curwensville, aged 25 years, was instantly killed Monday morning at Lewistown by being struck by a fast east bound passenger train on the Pennsylvania railroad. The unfortunate man was about to mail a letter at the station and while crossing the tracks evidently did not hear or see the fast approaching train which struck him. His body was badly mangled. While tearing down the steeple of the Grant street church, at Wilkesbarre, workmen discovered a mass of birds' nests weighing more than two tons. So great was the mass of twigs, straws, hay and strings that the trap door into the steeple could not be opened and the carpenters had to cut in from the outside. They found enough nest-making material to fill a hay wagon. It has been accumulating there for thirty-five years. Another Man Gone Wrong. Another man has gone wrong. Frank G. Bigelow, president of the First National bank of Milwaukee, has confessed to embezzling \$1,450,000 of the funds of the bank, and has been arrested for the crime. In his confession Mr. Bigelow stated that he had lost the money speculating in stocks and wheat. It is the same old story. Such defalcations do not have a tendency to strengthen confidence in our financial institutions. Human nature is about the same, and about one man in fifty entrusted with large sums of money forgets that he is handling other people's money. Offered His Service. In answer to an advertisement for somebody to take charge of a church choir and play the organ, the following reply was received: "Sir: I noticed your advertisement for an organist and music teacher, either lady or gentleman. Having been both for several years, I offer you my services."

THE BABY'S EARS.

They Really Require Attention From the Moment of Birth. The ears are quite as important little members to be cared for as the eyes, and when they stand out from the head they are anything but ornamental. From earliest infancy be careful to see that the ears are always kept back in place. When the child is lying flat against the head, not folded over toward the face. Be careful that the child lies on one side as much as on the other. If he lies always on one side the ear on the opposite side is apt to stand out a little more than the one on which he lies. Nurses when putting children's caps on are often careless in not seeing that the ears are pressed flat against the head. Time and again when a baby's cap has been removed have I seen the little ears red and creased by being bound forward by the snug cap, and if baby has thick hair or curls which are gathered in a little mass behind the ear, they, too, will prevent the ears from lying back close to the head, especially where there is the slightest tendency of the ears to stand out. The mother or nurse should be very careful of these little things, for if neglected until the child is a few months old it is not easy then to commence to remedy this defect. It must be looked after while the child is very young—Mariana Wheeler in Harper's Bazar.

CULINARY CONCEITS.

Granulated sugar makes a better mixture than powdered sugar. Save rice water when you have boiled rice for curry, as it makes a very good foundation for stock or sauce. In cooking tough fowls or meat one tablespoonful of vinegar in the water will save nearly two hours' boiling. One cook always puts a crust of bread into the water in which greens are boiled. She says that the bread absorbs an objectionable rankness of flavor. Nearly everything made with baking powder may be raised equally well with sour milk, buttermilk or soda, allowing one even teaspoonful of soda to each pint of milk. Beefsteak is often improved by rubbing two teaspoonfuls of salad oil over it, then leaving it so for several hours between two plates. This is said to soften the meat fiber.

Girls Will Be Girls.

"I believe Jack is going to propose to you, Alice." "Why do you think so?" "Well, he said he'd do something desperate if I refused him."—Chicago American.

1,300 Tons of Fishing Poles.

The sailing ship Achme, owned by the Standard Oil company, has arrived at Baltimore, Md., from Hongkong, making the trip of 20,000 miles in 11 days. Included in the cargo are 1,300 tons of fishing poles, ranging in length from 12 to 30 feet. The remainder of the cargo consists of Chinese lanterns and parasols, and palm leaf fans.

A MATTER OF HEALTH

Borough Council. Brief notes of Monday evening's session. The water mains were ordered to several properties on 5th avenue. A request was made for a sewer on North Thomas street. The Pruner orphanage came up for discussion. Harry Keller, attorney for the heirs and at the same time a councilman opposed the orphanage. It does seem to me that to represent his ward and be an attorney engaged to defeat, this institution is not just exactly proper, under the circumstances. The question was discussed and carried over to next meeting. The possibility of council getting \$10,000 in this way may be surmised, as a steam street roller man was on hand—do you see the connection? Treasurer Meek made his final report. \$100 was given to the academy for the improvements of their grounds. Mt. Union Again On the Map. Mt. Union, Huntingdon county, is once more on the railroad map. The smallpox epidemic there being now in its last stages, orders were issued by the Pennsylvania Railroad company the regular trains will again stop there as usual. There are some thirty-five cases still under quarantine in the town, but no new cases for some days. The present patients are convalescing and it is believed that the epidemic is at an end. Where is Togo. The great naval battle in the far East has not come off, up to this time. Everybody is guessing where Admiral Togo is hiding and what he is likely to do to the visitors. The battle has been predicted so long and fought out on paper so often that it is becoming a joke. During the past week there has been no war news at all, and that is all there is of it. Everybody is waiting for Togo to play his card. Didn't Go to Chapel. The students of Franklin and Marshall college on Monday executed their threats to ostracize Oscar Gingerich, of Lebanon, who recently shot a fellow student while being hazed, by leaving the college room upon his entrance. A majority of the students remained away from services at the chapel in the morning because of the presence of Gingerich. The faculty has not yet taken any action. Weather Report. Weekly report—Bellefonte Station.
