#### REXALL "93" HAIR TONIC.

Pull a hair from your head - if it is plump and rosy it is healthy, but if it is white and shrunken it is certainly diseased - and diseased hair is the short road to a bald head. Few people can afford a bald head, for a bald head is a serious handicap. In these days when youth is a moving factor, when a man has to make his mark at thirtyfive or be dubbed a " has been " - when business houses pension the men we used to call "middle aged," rather than allow their lagging influence to intrude upon the modern rush - you will certainly believe me in saying a bald head is a serious handicap. Few people can afford a bald head. Even those who can. Those who are "fixed" socially, financially and matrimonially have no desire for bald heads. But whether we can afford it or not thousands of us are bald, either partially or wholly. What caused the baldness, whether an inherited tendency, undue mental effort, sickness, dandruff or other scalp disease, makes no difference. What we want is to grow new hair.

Millions of dollars have been spent in vain efforts to grow hair on bald heads. Other millions have been spent in an effort to restore faded hair to its natural shade, and still others to banish dandruff. Still hair refused to grow; lost clean — is put up in large capped jars, tints of brown, blond and auburn failed twenty-five cents each. Guaranteed too.
