OVER THE COUNTY.

After next Monday winds up trout fishing in the state.

Haymaking and harvesting are over in this county and the oats is on.

H. H. Dong, of Lemont, graduated recently from a dental college in Philadelphia.

Frank E. Bible will soon issue the Quaker State, a fifty-page monthly magazine, at State College.

Farmer John A. Woodward hauled in fifty loads of hay this season of which forty-five loads were clear of any rain.

The thirteenth annual picnic of the citizens of Pennsylvania Furnace will be held at Baileyville, Saturday, August 5.

Mrs. Temp G. Cruse and young son Andrew, of Wilkingsburg, are visiting her parents Mr. and Mrs. W. S. Musser, at Millheim.

Mrs. Henry Eisenhuth, of Highvalley, has about recovered from the bite of a copperhead mentioned in the Democrat two weeks ago.

Lightning struck the spire of the Lutheran church at Madisonburg, during a recent thunderstorm. Hit a good place to do bad work.

The postoffice at Chester Hill was entered Monday night and thoroughly ransacked. The robbers are not known to have secured anything.

The Reunion Association of the Odd Fellows of Centre county have decided to hold the reunion this year on Thursday, August 17th, at Grange park.

Work will soon begin at State College on the completion of the new agricultural building. John Noll has been given the contract for the foundation.

Joseph Smith, of Freeport, Ill., formerly of Penn Hall, is here from Illinois, visiting friends in Pennsvalley. Mr. Smith will remain in the east for several weeks.

The Newton Hamilton camping meeting will open August 3 and will close on August 16. Persons desiring to attend this camping meeting will find ample accommodation at the hotel on the ground.

A festival will be held at Lemont, on the lawn in front of the M. E. church, on Saturday evening, August 5, 1905. Everybody is cordially invited to attend. Proceeds for the benefit of the church.

The rains Saturday and Sunday nights caught some of the wheat on shock in the fields, though three fourths was housed in the barns under fair weather. Some farmers have their grain thrashed already.

Calvin G. Spicher, of Centre Hall, took the civil service examination and applied for a position in the Government Indian School, Navajo Agency, New Mexico, and a short time ago received the appointment.

John Rossman, Sr., who resides with his son Josiah Rossman, near Penn's Cave, has been seriously ill for several weeks and is gradually becoming weaker. He is past eighty years of age and recovery is little hoped for.

While harvesting a team of horses belonging to I. J. Hubler, of Spring Mills, while hitched to a binder ran away, cutting a swath diagonally across the wheat field. The binder was wrecked and he had to buy a new one to finish cutting his crop.

Wm. H. Noll bought from S. H. Hoy the remainder of his farm and the dwelling house recently erected by him for the use of the Bellefonte fish hatchery. This will give the hatchery additional ground, and more water and a better water right than ever before. Mr. Hoy is to vacate the premises April 1, 1906, and immediately thereafter the grounds will be fitted up with fish ponds, etc.

W. E. Meehan, the fish commissioner of the state, recently inspected the ground and stream of water known as Laurel Run, above Barree, with a view of procuring a site for the location of a fish hatchery. At the last session of the state legislature appropriations were made for the erection of three more hatcheries in the state. To the Democrat it seems that the fish hatcheries, thus far, have effected little or nothing in making fish more plentiful. On the other hand there is general complaint that fish, trout in particular, are getting scarcer.

A few days ago as some of the family of Wm. Koonsman, one of the section hands at Paddy Mountain, who lives in the railroad company's house, went to the front yard, a large black snake was discovered stretched out loafing on the pale fence which leads to within about a yard from the front door. It lay on the top fence-rail with the head section on the gate rail, as composed and calm as you please. The children who first saw his black majesty, called the mother and Mrs. Koonsman came with a club and heroically dispatched the reptile which measured some over five feet in length. No doubt if the parlor door had been opened the snake would have taken its snooze on the sofa.

True Courtesy in Battle.

One of the shells discharged by the Kniaz Potemkine, the revolting Russian ship on the Black sea, struck a brewery, a late dispatch says, and the battle was immediately stopped until the damage could be repaired. It is most gratifying to see men observe the humanities of life, even in battle. The hospital and the brewery must be respected and protected.

No man forgives unless he also forgets.

INTERESTING RELIC.

In 1832 the democrats of Bellefonte erected a long Jackson pole on one of the corners of the diamond in front of the present Bellefonte Trust Co. building. Its length required it to be spliced. The pole having served its purpose, was chopped down, and sections of it were buried in a fill at that point. Some years thereafter while ditching for borough purposes, the parts of the pole buried there were exposed and the section was that which had been spliced and the iron rings left on. When the digging was made, Jim Cornelly was one of the hands at work and he removed the iron rings and has them in his possession yet. The other day while excavating for the big new sewer, Mr. Cornelly was again on hand and, worthy of note, again struck upon the parts of the pole that had been buried, and chopped away a section that lay in the way of the sewer. Amid the situation of affairs political now-a-days, it would be well for some to read up the history of Jacksonian Democracy, which still lives and has seen a half dozen parties die and buried.

CURE FOR HAY FEVER.

Sidney Krumrine Says Hyomei Will Give Relief—Sold Under Guarantee.

Sidney Krumrine wishes us to announce that when Hyomei is used as a preventive, or a cure, there will be no hay fever. He advises daily treatment with Hyomei for two or three weeks before the usual time for the annual appearance of hay fever. If this is done the attack will be prevented. However, if the preventive treatment is not started soon enough, and the disease makes its appearance, use Hyomei six or seven times daily, and relief will be given at once.

There is no stomach dosing when Hyomei is taken. Breathed through the neat pocket inhaler that comes with every outfit, its medicated air reaches the minutest air cells, killing all germs and soothing and healing the irritated mucous membrane.

The complete Hyomei outfit costs but \$1. extra bottles 50 cents. It is the only treatment for hay fever sold by Sidney Krumrine under a guarantee to refund the money if it does not give satisfaction.

Drink Water.

Not one woman in a hundred drinks enough water to keep her system in a healthy condition. A sluggish circulation and torpidity of the liver will bring the disgusting blotches. Dark, shadowy, puffy places under the eye makes one look haggard, tired and weary of life. Massage and electric treatment are good, but the main part of the work of beautifying must be accomplished by oneself.

Any slight kidney disorder brings the puffy look, and for this disorder drinking plenty of water is one of the finest remedies known. Sip the water slowly and do not have it too cold. Three pints a day is not a drop too much. A good way is to sip a big tumblerful half an hour before each meal, to take another big tumblerful about two hours after each meal, another just before retiring, and another immediately after rising.

Exercise daily, nutritious food, deep breathing, a quick hand bath with tepid salt water every day or a cold bath every day, sleep enough to thoroughly rest you, a thoroughly ventilated bed-chamber—all these are necessary to the health that means beauty.—Philadelphia Inquirer.
