TOILET TIPS. Bathe the face every night with equal quantities of warm milk and water. It keeps the skin fair and smooth. Powder is bad for enlarged pores: Twelve drops of tincture of benzoin in a basin of water used after washing the face will tend to contract them.

The Maid's Reference. No matter how excellent is the written reference shown by the servant it should be verified by the prospective employer. In many cases the mistress of a departing maid will write for her an uncanonized reference for the sake of saving her own unpleasant scene or from a mistaken kindness. She does not wish to endanger the maid's chances of securing further employment, and she prefers to stretch the truth to being honest in the recommendation she bestows.

Fringe and Starch. When starching toilet covers or anything that has fringe trimming double the cover into four and gather the fringe tightly into the hand, holding it firmly while you dip the middle of the cover into the starch. When dry, shake the fringe well, comb carefully with a large toilet comb and it will fall as softly and prettily as when new.

The Baby's Crib. Fasten pieces of rubber tape near the corners of the crib, with large safety pins attached to the free ends. These can be pinned to the covers after the child is tucked in securely, and they remain in place in spite of restless movements, while in no way interfering with the little one's comfort.
