COLYER.

Last week one day some one started a report at Colyer that Andrew Jordan's dog had hydrophobia and had bitten his cow, which got the rabies, and was foaming, and had broken the chain, and was beyond control; another said that Andrew Jordan had been bitten by the dog and was in a dangerous condition, and worst of all the dog was at large; when all these things became known there was a stir among the farmers and neighbors, for the safety and protection of their live stock, and locked up their own dogs to protect them from an attack of the mad dog; one man when he went to bring in his cattle, carried his Winchester fully prepared to destroy the dangerous animal; everybody in the neighborhood was watching for the dog as closely as the Japs did the Rus' on the high sea. All of a sudden the great storm of excitement came to a close, when John Jordan, a son of Andrew Jordan, heard this report, he went to the neighbors and told them what was what. The truth of all is, the dog had cramp in his legs, the cow was uninjured and out in pasture, and Andrew Jordan was enjoying himself in the shade. Who started this infamous soap material, no one wants to know, and the guilty one is ashamed to own up to it. Again we say, what next?

Dr. and Mrs. Wm. Keller, of Munson, Clearfield county, are mourning the death of their eldest son, Earnest, which occurred Friday of last week. He is a lad of twelve years, and the day previous to his death was injured by being struck by a trolley car.

This from the Johnstown Tribune: "For the sake of his family, who are eminently respectable people, the name of the fisherman will be suppressed, who came home a few days ago and told this story; 'I was fishing,' he said 'when a little minnow swallowed the hook, then a bass swallowed the minnow, and a muscailonge got the bass part way down, when I pulled out the three, with a turtle hanging on the tail of the muscailonge and a crab fastened to the edge of the turtle's shell.' Next!"

A WEEK IN THE HOSPITAL.

Having occasion to enter the Lock Haven hospital I went there and presented my credentials and was taken in charge by a young man who proceeded to take me to the bath room where, although I told him that I had taken a bath the previous night, he would have it that I must take another.

He then took away my waistcoat, My coat, also my pants, And I began to prance. And then I almost thought one time, That I was going to swear. When I found I had to parade that ward Without my underwear.

They put me in a nice clean robe with buttons on about as low as your vest and I didn't have a god darned safety pin: well when I first went to my bed I felt like 29 cents on bargain day. (For I always was bashful.) Say! Its one of the lost arts I think to know how to get into bed genteely or lady-like with three or four visitors watching you when you have nothing else on but one of them robes. Then there is a lady comes around and sticks a piece of glass in your mouth and then squeezes your wrist (but I never reciprocate) I tell you she's a nice looking, I wont tell her name for fear the others wouldn't like it. You would be surprised to see how cleanly everything is. The lady superintendent Miss Haverset, of Philadelphia, sees to that she also comes around twice a day to inquire of the patients how they are and what she can do for them and I do not wonder that so many men marry their nurses. Dr. Morrison the resident physician is liked very much and is very attentive to his patients. Dr. F. P. Ball is there every day from 10 to 12, and there is no better surgeon in Pa. Now I never was in a hospital as a patient before and I must say if a legislative or any other committee was to appear without a minute's warning they would find everything as if they had had a week's warning. There were 24 patients in the Lock Haven hospital at the time. Since this institution has been established it has done a wonderful amount of good, there is no telling the number of lives that have been saved, and many prevented from being cripples. I hope the next state appropriation will be a large one, for they deserve it.

Bush, for Congress; P. Gray Meek, for Assembly; H. Y. Stitzer, for district attorney; John Bing, of Unionville, for county commissioner; and William P. Mitchell, for county surveyor. L. A. Cassie's Assets.

Cassie Chadwick's assets have at last been definitely ascertained. There is about \$14,000 with which to meet an indebtedness of \$2,000,000.

In other words, the creditors will get about 7 mills on the dollar.

Mr. Remington, the referee in bankruptcy, succeeded in collecting about \$25,000 worth of Chadwick property, but there are attorneys' fees and court costs amounting to \$10,300, which must be paid before the creditors can share the remainder.

Mrs. Chadwick, "the queen of high finance," is now serving a sentence of ten years in Cleveland for frauds that were of national extent and of boldness unparalleled.

By fraud she lived like a very rich woman, although she really had little or no money of her own, and she was shrewd enough to make one fraud cover up another.
