Cure for Snake Bite.

Owing to the fact that the rattlesnake crop is unusually prolific in this county this season, it may prove of value to state that the Mexicans have found a certain cure for the bites of the poisonous reptile. There is in every rattlesnake a small sack, about the size of a Mexican bean attached to the intestines. This is filled with a brownish or black fluid and that fluid is the cure for the bite. If it is applied immediately the patient will not suffer any swelling and will entirely avoid pain. Many Mexicans carry the fluid with them at all times when they are in the mountains or on the desert. These Mexicans kill all the rattlers they can find, and most of them store the fluid in a bottle made of a rifle cartridge shell which is kept tightly corked.—Ex.

A Clever Location.

The Hotel Hallman, Cheerytree's one tavern and which also enjoys the distinction of standing in Indiana, Cambria and Clearfield counties, was destroyed by fire last week. Seven guests that were in the building at the time had narrow escapes, five being rescued by ladders and two being compelled to jump from third-story windows in their night clothes. One of these latter had to leave behind him a pair of trousers that had \$140 in a pocket. The hotel sometimes had license from one of the counties in which it stands and sometimes from one of the other two. It was widely known because of this peculiarity in its location. The loss caused by fire will reach \$6,000.

GRANGE PIC-NIC.
