Arbor Day was observed in an appropriate and pleasant manner by the Grammar and High schools of Hublersburg. At a quarter before two o'clock, the pupils and assembled guests gathered on the school ground for the planting of the tree. After a few words by the Principal, W. S. Gerhard, on the meaning of Arbor Day, the tree, a beautiful maple from the mountains, was named the J. P. McCaskey tree, in honor of Dr. J. P. McCaskey, Principal of the Boy's High school, Lancaster, Pa., and editor of the Penna. School Journal. Each pupil then participated in the planting by throwing in a shovel full of dirt. After the planting the exercises were held in the High school room where the following program was rendered:

## INGLEBY.

Ingleby is the metropolis of Highvalley, which is the farming section of these diggings and has some prominent men.

The fish baskets on Penns creek so far have not been paying as well as a little gold mine. There is a great deal of annoying humbug about our fish laws.

Pheasants are scarce, as the bang, bang, bang, of the sportsman is relentless in downing the bird. It is rare to see the bird or hear one drumming in these mountain parts. Rabbits are likely to be plenty.

Dr. Barker boasts of corn ears 15 inches in length, 95 bushels to the acre, and has started his sign on the hillside with letters twenty-nine feet in length so the man in the moon can read it without specks or telescope. Ira Snyder can verify all about these things as he assisted to husk corn there. Looking ahead to having the Ingleby mansion a summer resort in the near future the Doc. is laying out walks, on round top, one clear around near the crest, completed, and other branches leading out from it. He now has about three miles of these walks completed.

Mr. Rowe, the expert trout and wing shot, is also contemplating some improvements on the little farm purchased from Henry Eisenhuth, with a view to making it his permanent summering place.

Emanuel Eisenhuth, the wit of High valley, all will be pleased to learn, is gradually experiencing an improvement in his injured eye.

There is not a more contented and happy people than those in the Highvalley section, and their hospitality is on a par with it.

## TO CATARRH SUFFERERS.

**Hyomei Guaranteed to Cure by S. Krumrine or Money Refunded.**  
The popularity and increase in the sales of Hyomei are unique in the annals of medicine. Such astonishing cures have been made by this remedy that the proprietors have authorized S. Krumrine to sell every package of Hyomei under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by S. Krumrine.

Hyomei is no ordinary remedy. It is the only method of treatment that sends by direct inhalation to the most remote part of the air passage, a balsamic air that destroys all catarrhal germs in the breathing organs and purifies the blood with additional ozone, and makes a permanent and complete cure of catarrh.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows Nature in her methods of treating diseases of the respiratory organs.

Breath through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all. If not cured, S. Krumrine will refund your money.

**To Cure a Cold In One Day.**

They filter or strain the blood, thus removing the impurities and poisons from this vital fluid. By keeping these greatest of Blood Purifying organs in good health, many diseases are prevented.

Pains in the back and loins are evidence that the kidneys are affected, and they in return will affect the Nerves, causing nervousness, sleeplessness, restlessness, irritability, etc. Infrequent or too frequent urination excessive, painful or scanty urinary passage are all conclusive proof that the kidneys need assistance.
