

# Bellefonte and Vicinity

The Local Happenings in Short Paragraphs

—We had a nice winter—but not an ice winter.  
 —Ex-Sheriff Hugh Taylor and wife spent the Sabbath in Phillipsburg.  
 —Veterinarian John Ritter, of Centre Hall, will make Bellefonte his home henceforth.  
 —Rev. and Mrs. R. Crittenden will move April 1st, from Curtis street to the Powers cottage on Spring street.  
 —Since the Black-hand is in the community it is commented on that Francis does not stay out so late at nights.  
 —No man should be elected to the Bellefonte borough council who opposes the Pruner Orphanage. Watch that point.  
 —Mrs. Wm. H. Smith, of Johnstown, a daughter of late Hamilton Otto, is seriously ill at the Bellefonte Sanitarium.  
 —The chap who says, "I told you so" in regard to making streets with limestone dust is around, but everybody must help to pay the bills.  
 —All persons who remitted on subscription during the month of January will find their dates properly credited by a change of label next week, February 8th.  
 —Mrs. Amos Mullen has returned to Bellefonte to close the sale of her property and dispose of her furniture, preparatory to going to her old home in Lancaster county.

—The street committee now are building roads out of ashes. A sample can be seen out by the oil station. Somebody is getting ashes hauled away at the borough's expense.  
 —We don't know what Robt. F. Hunter ever did to "Domino," that induced the scribe to tear up the aforesaid gentleman in the Unionville items this week. Nevertheless he has done it.  
 —Our aged and well-known townsman, John H. Sands, has been quite ill and confined to his bed for several weeks. He has reached his 81st year, and is one of Bellefonte's old inhabitants.  
 —They say that our present reservoir leaks and if repaired there would scarcely be any use in buying coal—that probably is the reason why it is not fixed. Stop that leak and it might stop other leaks.  
 —This coming spring when the weather breaks and the frost comes out of the ground Sam Ryan ought to drive a lot of piles along high street so as to prevent his improved road from sliding away.

—One of mail-carrier E. E. Ardery's little girls pulled a pretty daisy from a plant outdoors the other day which was brought to our office, and the posy is just like one blooming in spring or summer.  
 —Mrs. Wm. Emery, of Williamsport, at one time a resident of Bellefonte, when her husband managed the Nail Works, died on Sunday at Saranac Lake, New York, after a few days illness with appendicitis.  
 —One of the bronze plates for the soldiers monument came in a warped condition and had to be sent back to the foundry to be adjusted. In the meantime work continues on other parts of the monument.  
 —Alva S. Grow, of Philadelphia, suffered an apoplectic stroke at his home in that city late Saturday night. Mr. Grow was a former resident, years ago, of Bellefonte, and well known to many of the Democrat's readers.  
 —Will Mayes, the hustling marble man, of Howard, was in town this week soliciting business. In the past year he has shipped finished work to all parts of the country. As he is extending his business by advertising in leading magazines.  
 —Houses are reported scarce for renters in this town, which is a good sign, showing that the population is increasing. Persons having idle capital should invest in the erection of houses so as to keep up the supply with the demand.

—The canvass for members of the Y. M. C. A. is going along at a lively pace between the Orange and Red crews, and indicates that the association will open under the most favorable conditions. The new secretary seems to be arousing interest among our young people.  
 —The bazaar for the benefit of the new Catholic convent will be held this week. There are fourteen valuable articles to be chanced off during the week, as well as many fancy articles for sale, and this fact alone should assure a good attendance, so don't fail to go.  
 —We are informed that a prominent individual is anxious to know who "is back" of the articles in last issue of this paper criticising the street and water department. The articles were written by the publisher of this paper and we believe a large majority of our taxpayers are "back of it."  
 —Bellefonte needs a change of councilmen. It is up to the people to have what they want. Municipal reform is popular—sweeping over the country like wild fire—can't Bellefonte have a little of it? Yes, if our people only think the situation over, then act. Let us have a little housecleaning!

—There will be no services in the Lutheran church of this place next Sunday morning, as the pastor, Rev. Renwick, will be absent at the installation of the new pastor of West Milton charge which was lately served by him. There will be services in the evening however, by Rev. Stonecypher of Boalsburg, at the usual hour.  
 —A delegation representing the Rebekah Lodge of Centre Hall, visited on Tuesday for the purpose of organizing a sister lodge in this place. The meeting for this purpose was held in the Odd Fellows' hall a few doors above the Democrat office, in the Crider building. The Centre Hall Rebekah Lodge numbers some sixty-five members and has been in successful operation for several years, with its membership hailing from different parts of Penns. valley.  
 —Thomas Cowher is agent for the Williamsport Daily Sun in Bellefonte, and he delivers these afternoon papers every day upon the arrival of the 4:43 pm. train, which is a great convenience since the Sun publishes the news of the world at noon of the same day, while the morning city dailies go to press at 11 o'clock the night before. The Sun is one of the best inland dailies published and gives more news pertaining to Central Pennsylvania than any other. Try the Sun, you will like it.

## OVER THE COUNTY.

H. F. Yearick, of Pittsburg, is again spending his lay-off with his mother at Hublersburg.  
 Measles are still prevalent in many sections in and out of this county, mostly among the young folks.  
 Under the favorable condition of our streams the past three weeks, the lovers of sucker fishing have had encouraging luck.  
 Andrew Shivery, whose horse scared at an automobile in Bellefonte Monday morning, broke a shaft but nobody was hurt.

The Commercial exchanges at Centre Hall, Millheim, State College, Snow Shoe and Bellefonte have an all-day Sunday service.  
 John H. Weber, of Centre Hall, was taken to the University of Penn., Philadelphia to undergo a second operation for ulcers of the intestines, which followed an attack of typhoid fever.  
 The home of Rev. James N. Runkle, of Williamsport, was robbed Wednesday evening of last week by a stranger who entered the house during prayer meeting and stole a diamond ring and other valuables. Rev. Runkle is a native of Tusseyville, this county.  
 The smoke house of Henry Moyer, beyond Penn Hall, was destroyed by fire on Friday evening, no doubt caused by the fire used in making smoke for the meat. It contained the winter's butchering hams and other meat for curing, which was mostly damaged.  
 The grain fields have been harmed to some extent by being exposed all winter without snow protection. The harm as yet, is not alarming, as there has not been severe freezing with thaws which always do harm. As the prospect now is, it is not discouraging for the farmer.  
 The annual festival of the I. O. O. F. of Pine Grove Mills will be held Wednesday, Thursday, Friday and Saturday, February 8th to 12th inclusive. In the spacious Odd Fellows hall, which will afford ample room for all who will attend. This means a large gathering of young and old to join in the festivities.

The second quarterly meeting for the Bellefonte circuit of the Free Methodist church will be held at the Forge church, Bellefonte, commencing on Friday, eve February the 2nd, and will continue on the Sabbath. J. J. Lanisher, D. E., will preside. The protracted meeting, at that place, began on last Sabbath evening by the pastor J. K. Mumau.  
 At the Keystone mines, near Meyersdale, Somerset county, on Tuesday, Wm. Kline, a miner was caught by a slide of rock. His left leg was broken twice and the knee cap crushed. The right leg also was broken, and he received internal injuries. He was sent to a hospital. The young man is a son of G. H. Kline, of Oak Hall, who left here last evening for Meyersdale as soon as he heard of the accident.  
 Fred Simler, son of Captain H. Simler, of Phillipsburg, who for three years has been in the employ of the Westinghouse Machine Co., at Braddock, will go in a few days to Lique, Chile, S. A., to install four large Westinghouse gas engines to be used in connection with a new electric light plant being constructed in that city. He has also agreed to remain three years as operating engineer after the plant is in working order.

James Falls, a well known resident of Beech Creek township, gave his friends a surprise when he was married Wednesday evening to Mrs. Walker, widow of Miles Walker. The ceremony was quietly performed by Justice of the Peace

W. I. Harter of Blanchard. The bride is a daughter of David McClosky of Cato. Mr. Falls is a veteran of the Civil war and is close to 70 years of age while his bride is 29. They will reside at the home of Mr. Falls in Beech Creek township, Clinton county.  
 Irvin J. Dreese, of Lemont, has tendered his resignation to the Penna. R. R. company, at Lemont, to take effect at once as he has accepted a permanent position with a wholesale poultry commission house at Baltimore, Md., and is there now. The latter part of March he will make a sale and about April 1st the family will move to Baltimore. Mr. Dreese had charge of the Lemont station for a long term of years and was an obliging official. He was an active democrat and a useful citizen, who will be missed.

The deceased was a Methodist minister, and well known years ago in this county. He was a brother of Andrew Dill, Esq., of Lewisburg, dec'd.

Steele, Axemann; John, James and Edgar, of Niagara Falls; Frank, of Sault Ste Marie, Mich.

**Minimum Road Tax \$1.00.**  
 The new road law, now in force, makes the minimum road tax for each taxable \$1.00. This feature will materially increase the receipts for road purposes. The townships that vote to pay road tax in cash will be able to considerably lessen the tax rate millage, and at the same time have an equally large fund to apply to road making. The dollar minimum feature and bonus of fifteen percent, paid by the state will be no small item, and is calculated to induce districts to substitute the tax system for the work-out plan.  
 —Conroy and Mack, the popular comedians, coming next Thursday.

**ADJOINING COUNTIES.**  
 Clinton county lays claims to the plumpest school m'ain in the state if not in the country. Her name is Mary Chetwood and she teaches at Haneyville. She is 18 years old and weighs 319.

 Mrs. J. G. Dell, of Huntingdon, has a flock of chickens which averaged 175 eggs per hen for the entire flock during the year 1905. She kept a daily record of the number of eggs laid and is prepared to show the same to any one who may doubt her statement.  
 A telegram from Dayton, O., states that Rev. L. B. Kephart, D. D., one of the ablest and best known bishops of the United Brethren church, died suddenly Wednesday night while on a visit to Indiana Central college at Indianapolis, Ind., aged 72 years. The deceased was born in Decatur township, Clearfield county.

Newberry is to have a new industry in the shape of a plant for the manufacture of high carbon steel fence posts. Work at building the plant has been in progress for some time, and it is expected to have it in readiness to start work in about ten days. The plant will employ about ten men and the output will be 2,500 posts per day.  
 Roland N., William B., and Sidney R. Wyckoff, of Williamsport, and Mrs. John Hirst, of Phillipsburg, have been notified of the fact that they have become heirs to the estate of an aunt, Mrs. John R.  John S. Chamberlain has acquired the proprietorship of the Garman House, at Tyrone, and will conduct the hotel. The bar has been closed pending the transfer of license from Charles D. Cox to Mr. Chamberlain. Mr. Cox retires on account of impaired health. He will return to his former home at Lewisburg, Pa., and in a few weeks will go to New Mexico hoping that the change of climate will improve his physical condition.  
 The Pennsylvania Railroad company will construct 100 cars in the Altoona shops for the express purpose of carrying automobiles. Work on them will be started as soon as the material arrives. They will be so built that the machines can be loaded and unloaded with little inconvenience or difficulty. There is a constant demand for such cars and as soon as they are completed they will be sent to points where the demand is greatest.  
 Captain John Manning, who holds the distinction of being the navigator aboard the last boat out of Hollidaysburg before the closing of the state canal, recalls the fact that for midsummer the year 1906 has its counterpart in 1869. No snow nor ice accumulated that winter, and it was unnecessary to suspend operations on that great waterway. The Shawnee lines of boats made daily trips between Hollidaysburg and Williamsburg that winter, covering the distance in ten hours, transporting iron to the first named port and coal to the latter port.

Bellwood Times: Last week Eli Byler had a sick cow, and the case soon developed into a case of milk fever. She soon got down and was unable to raise her head and was thought would die in a few minutes. Mr. Byler said he would not invest five cents in the cow. As a last resort a bicycle pump was procured and her udder pumped full of air about every twenty minutes, and in a few hours she raised her head and in a short time was on her feet and eating as though nothing serious had happened. The next morning she had more milk than the calf was able to take and was as well as ever. We give the above for the benefit of the readers in general.

**Boycotting the Railroad.**  
 Thinking the fare between Lock Haven and Baltimore exorbitant George Brown, an aged farmer and son, of near Lock Haven, decided to boycott the railroad and drive to their destination. "The horse is quite old, and we think it will take about eight days to make the trip."  
**Tribune-Farmer.**  
 Many of our patrons have been getting the Tribune-Farmer in connection with this paper for 25 cents extra, and found it a most valuable paper. After April 1st that rate will be discontinued, as the two papers then will cost \$1.50.

**PAINS IN THE BACK.**  
 Are the signs of the deranged Kidneys. And as the Kidneys are the most important organs in the human body except the heart, and have more work to perform than any other of the organs, these first symptoms of approaching disease should be heeded.

**NINE-MILE TUNNEL.**  
**The Penna. R. R. To Do Away With Horseshoe Curve.**  
 The famous Horseshoe Curve, on the Pennsylvania Railroad, is to be eliminated. This has been definitely decided upon by officials of the railroad. Two methods are proposed and four sets of plans have been prepared. Two of the plans are for tunnels through the Allegheny Mountains, one nine miles, and the other eleven miles long. The other plans are of new routes across the mountain, one 90 and the other 105 miles long. It is the consensus of opinion among the officials that the nine-mile tunnel will be adopted. President Cassatt expects at least to start this work before his retirement. The tunnel would enter the mountain at or near Kittanning Point and emerge between Cresson and Lilly. This would be the second tunnel in length in the world, the only one longer being the Simplon Tunnel, through the Alps, which is twelve miles long and was formally opened recently. The nine-mile tunnel plan provides for four tracks and for ventilation by air shafts reaching the crests of the mountains. All operations through it would be by electric power. The cost of the tunnel and making connections with the main line is estimated at over \$15,000,000.

**Ice Must be Pure.**  
 It would not be wholesome for any person to use ice taken from basins and mill ponds for domestic purposes—to be melted in drinking water, milk or any other liquid, although no harm would follow its use as a means of cooling things with which it does not come into actual contact. Ice taken from stagnant water such as is often found has been condemned by the board of health as unfit for domestic uses. Ice from ponds where water is stored for freezing is adjudged not pure, a fact important to bear in mind.
