The dedication of the soldiers' monument in this place early in the spring, and in August the firm's district convention perhaps combined with the celebration of Bellefonte's Centennial of its first incorporation as a borough in March 1860, followed by the county fair, will give the people of the town and county all the "good time" desired. Some are under the impression the Centennial celebration we had in 1900 was Bellefonte's centennial, which is a mistake, it was the Centennial of the organization of Centre county in 1800.

No fish warden has come along yet to investigate the cause of many suckers and trout lying in Bald Eagle creek and Spring creek. We suppose if some innocent boy or adult were to catch a fingerling trout in those waters, a fish warden would get the smell of it at once and be on hand for a fine. It is known the past few years that poisonous stuff is thrown into the streams named which kills the fish, but the wardens give the matter no attention. Investigate, investigate. All this is almost within rifle shot of the state fish hatchery.

Friday morning, about breakfast time, Barnes' milk wagon came up from Bishop street, up Allegheny, then down High, until it got out of our sight on passing the Bush House. The centre of the race course as named, had a path of spilled milk about 16 inches in width through the street. We imagine that the horse was experimenting on a new method of turning cream into butter, by this kind of shaking up, as it is the second attempt within three weeks. It looked to us as though the entire creamery wheels was bound to be wrecked. And it was.

Harry Fenlon, who generally was back of coal bills, new arc lights and freer sewer service, scored a hit last week by selecting the new president of council and the appointment of the committees. The credit for this is due the North Ward for having a West Warder for councilman. We used to think Fenlon was a "knocker" when he tried to destroy the Pruner Orphanage. Now we have the practical demonstration that he is not. While out of council, he has more influence than men who are in it—only the people did not know that when they voted.

Game warden John Ebert, of Gregg twp., got the Democrat's sanction a call and informs us that there are 222 dozen of North Carolina quail being shipped to this state for breeding purposes, and that Centre county's apportionment will be assigned to him for distribution. These quail will be distributed to such of the counties that are suited for the propagation of these birds. What the apportionment for our county will be Mr. Ebert did not know. The number sent will not permit a large apportionment to any one county, even if a few of the counties of the state be excluded on account of the country not being adapted for breeding these birds successfully. Mr. Ebert thinks the North Carolina birds are about same as our own native quail.

A delegation of about one hundred members of the freshmen class of State College went to Williamsport on Friday to participate in a class banquet at the Park hotel. In the afternoon a bunch of sophomores arrived in Williamsport, bent on capturing the freshmen speakers. They looked like a lot of hoboes, as they were dressed for a scrap. Someone telephoned the freshmen, to be on the lookout and they chalked the walks as a warning to any stragglers and scampered to the hotel. The sophs went to the hotel to stir up a muss but ran afoul of the police and a half dozen of them got into the cooler and were fined. The freshmen held their banquet without a single speaker being caught and thus won the fight.

Letter to Rev. Schmidt. Rev. Sir: Three churches in Baldwinsville, N.Y. have had their first lesson in Devoe.

Messrs. Osterhout & Lockwood painted the Presbyterian parsonage; estimated 30 gallons; took 22.

Messrs. Slingerland & Shutter painted the Episcopal church; estimated 40 gallons; took 25.

Same painters painted the Catholic church; estimated 50 gallons; took 39. Of course, they estimated from what they had been using. The saving in paint and work is \$4 or \$5 a gallon. Total saving on three jobs \$125 to \$150—the painting costs two or three times as much as the paint, you know.

Yours truly, F. W. DEVOE & Co.
