A Hungarian employed at one of the Lehigh Coal Mines at Snow Shoe was killed Monday night by the Beech Creek passenger train. The Hungarian was sitting on the track and did not notice the locomotive, while the engineer did not see him till it was too late for the air brakes to come to the rescue.

The roads within the past ten days have not been in the best of condition from the effects of melting snows and rains. As it struck the days when fittings are all the "go," it rendered these frolics an unpleasant duty. Fence corner drifts along the highways, will cause the roads in many points to be muddy as the snow heaps keep on melting. The movings this spring are quite numerous over the county.

Harry F. McManaway, the former merchant at Wolf's Store, sold his stock to Samuel L. Gephart, of Rebersburg, who now has charge of the store and will continue it. Mr. McManaway has accepted a position as traveling salesman for the Capewell Horse-Shoe Nail Company, covering Central Pennsylvania, formerly worked by George Spayd. His family moved to Millheim.

The new artificial ice plant erected by Lucas Brothers, in Castanea, is in active operation and turning out the finest quality of ice manufactured from pure double distilled mountain spring water. Messrs. Lucas Brothers are now filling an order for ten car loads of ice which is being shipped to State College. The fourth car load of the order is being shipped and it will require several weeks to complete the contract.

Ivy W. Barges, of Potter twp., predicts that the peach and plum crop in this section is frozen. Apples, quinces and pears are in good condition. We would like to have reports from others. The following is from Union county: "Cherries and peaches likely to be a very small crop in the judgment of some of the fruit growers. The mild January weather started the buds and the extreme cold of February and that of last week is supposed to have nipped them."

ADJOINING COUNTIES.

Lock Haven business men have subscribed \$400 to a fund to start a Board of Trade.

Within the last three months two girls under fourteen years of age have been married in Armstrong county.

Fishing with three hooks on a single hand-line has been legalized by Superior Court decree, notwithstanding a new law's implied prohibiting.

Judge Martin Bell, of Blair county, intends to make a "no bottle rule" in several parts of Altoona, having so declared in his License Court, Wednesday. This rule is being adopted generally.

The Clinton county auditors Saturday placed their report in the hands of Judge Hart. Among the items they refused to allow were those for bounties on wild animals other than wolves and wildcats, thus saving the county about \$600 under the law repealing the bounty act.

Margaret Emma, daughter of Grant and Annie B. Taylor, of Tyrone, met with a distressing accident Sunday afternoon, which resulted in her death. The little girl was playing with matches at her playhouse in the yard, when her clothing caught fire and before the blaze could be smothered, she was frightfully burned. The unfortunate child was aged 8 years, 2 months and 20 days.

TO FIGHT FIRES.

It is reported that plans are now under way by the Pennsylvania railroad company to install water plugs at regular intervals all along their system and when completed it is said that every caboose attached to a freight train will be fully equipped with sections of good hose and the railroad men will then be able to fight all fires when they occur at places where no fire departments are established.

Just in what manner the water supply is to be secured has not been stated but different plans are now under discussion and the one that is the most practical will be the one decided upon. What has led the company to put this new movement in force is not known although officials say that this work has been contemplated for some length of time.

Often times fires occur along the company's property which if better facilities were handy would not cause nearly the damage as has long been experienced by the company in the past. The fire equipment for each crew will be complete in every detail and fire fighting will be a new duty to be added to the thrilling life of the railroad man.

High License.

It is estimated that about two thousand saloons will go out of business in Ohio as a result of the \$1000 License law. As the whole number of saloons in January, 1906, was 13,009, there will still be generous provision for the thirsty. The law is expected to add about \$9,000,000 to the State revenues. If the restriction upon unlicensed selling is thoroughly enforced there will be a distinct gain in sobriety as well as revenue.

His death was due to pneumonia. He leaves to mourn his loss his parents and the following brothers and sisters: Alva E., George S., Maude M., Phoebe C., Jennie A. and Carrie V. Interment Thursday at 10 a. m., at the Summit Hill cemetery.

EZRA SMITH:—died at the family residence at Freeport, Ill., Saturday evening 24 ult., from a complication of diseases. He was a native of Penn Hall, where he was born February 3, 1854. The Twenty-Third Job.

The politician is my shepherd. I shall not want for anything during his campaign. He leadeth me into the saloon for my vote. He filleteth my pocket with good cigars and my beer mug runneth over. He inquireth concerning my family even unto the fourth generation. Yea, though I walk through the rain and mud to vote for him and shout myself hoarse at the election, he straightway forgetteth me, although I meet him at his own house, he knoweth me not. Surely the wool hath been pulled over my eyes all the days of my life. And I will dwell in the house of the landlord forever.

Untimely Death.

Wednesday afternoon Nicholas Conner, a farmer, residing two miles west of Howard, put an end to his existence by hanging. He went to the barn and, not returning for some time, his wife went out and found him suspended by a hay rope about his neck, in the hay hole. She secured assistance immediately and when taken down the body was still warm, but unconscious, death had ensued from strangulation.

No cause can be assigned for the act. He was past fifty years, and always was considered an upright industrious citizen.

Expensive Commissioners.

On account of the alleged exorbitant expenditures of the last board of Snyder county Commissioners, the present board on Tuesday raised the tax rate to 4 1/2 mills, a half mill higher than last year. The former officers have been surcharged for various items of expense, which proves that they have not been unjustly charged with improper use of the county money.

Rich, But Honest.

In spite of all our greatest writers have to say against such a thing, it is possible for a man to work on small salary all his life and still acquire honestly a million dollars. It has been done. The example is supplied by a shoe clerk in Chicago. He never received more than \$22 a week, yet at his death a short time ago it was found that he had left property valued at a million. He had not been particularly bright, nor sharp, nor shrewd. He was known to be absolutely honest. Unlike the examples we have held up before us from time to time, he drank beer when he felt like it and he went to baseball games and church with equal regularity. He was just a common, everyday sort of a fellow, yet he rose from clerk to millionaire, and there was never a taint on a dollar he owned. How did he do it? Well, you see, his uncle left him the money.

New Baggage Scheme.

A new scheme to relieve passengers of hand baggage, permitting them to check it directly with the baggage master of any train they are using and get it from him when they reach their destination, was inaugurated on the Pennsylvania railroad. It was started as an experiment and if satisfactory will be maintained and probably extended to the lines west of Pittsburgh. The new arrangement does away with the necessity of checking baggage through the baggage room and by eliminating the "middle man" in this transaction will relieve station baggage offices and save patrons of the road some of the time consumed in looking after their baggage. It will make it possible for a passenger to relieve himself of all baggage not needed en route.

Letter to Rev. Father McArdle.

Dear Sir: This story cuts two ways and teaches two sets of people. Father Galvin, Western, I, had his church and residence painted. Good job, and this is how he went at it. Measured all carefully—seems to have known Devote. Then got bids from the painters, paint to be supplied by them and by him. Saved \$70 by using Devote. One of those painters ought to have got that money. Yours truly F W Devok & Co
