On Saturday evening the Sunday schools met and decided to hold a union Sunday school picnic on Aug. 23 at the Sand Spring.

One of the most inviting spots in our part of the county is the grove, one fourth mile north-west of Spring Mills. Every summer many merry gatherings known as picnics spend a day there and get the refreshing breezes. It contains cool and inviting retreats and grateful shade and is covered with a verdant carpet dotted with clover tops and daisies, but the principal attraction and treasure there is the "Sand Spring," one of the sources of the famous Penn's Creek; what a beautiful spot is this spring! It is one large transparent pebble-bottomed bowl of living water with a green slope to the water's edge. Everybody should make it a point to pay frequent visits to this beauty spot, and get a drink of the clearest, purest, sparkling, cold water bubbling up from the clean crystal sand as directed by our Creator.

AS GOOD AS A BOND.

Your Druggist Means Just What He Says.

He knows that if you are nervous, if you are easily exhausted, if you have lost your appetite, if you are weak, either constitutionally or as a result of recent sickness, Vin-te-na will put you on your feet. So well does he know Vin-te-na will help you and bring you back to your former good health, that he asks you to test it at his risk, and will promptly repay you if you are not satisfied with the results. Begin to-day to take Vin-te-na, and you'll feel well and happy in less than a week.

No man can make a mistake without learning something.
