On the Austin Dale farm, near Oak Hall, on the banks of Cedar run, there is a willow tree measuring 10 feet in circumference and having a diameter of 6 feet and inches. A willow grew from a switch stuck in the ground by his father, the late Christian Dale, when he was a boy. The tree is still alive and thrifty, but much lowered by having its top amputated. TELEPHONES KNOCKED OUT.

The telephone exchanges and the electric light companies have had an unusual amount of trouble since Monday. It started with the Bell exchange. The switch board became highly affected and wires began to heat and burn off, while the safety fuses were not melted. The large cable back of the postoffice became heated and partly burned off with flashes of fire leaping over it. This cable contained fifty pairs of wires, and as a result many phones went out of service.

Next the Commercial exchange experienced similar symptoms. The apparatus became charged and heated, and the large cable leading out across the street was put out of commission. Both companies had at least over a hundred disabled phones on Tuesday, and they were unable to trace the cause of the trouble, which was supposed to be due to a connection with the electric light wires.

The Jersey Shore Herald learns of a big industry that will locate on the Sanderson farm, near Larrys creek. It is a cement plant that will cost \$445,000. The mill, one of the finest and largest ever erected in this country, will employ over 300 hands, and will have a daily output of 2,000 barrels of cement, which is on a par with other industries of this kind throughout the United States.

Wherever the carnival companies have been forth in the state this year trouble seems to have followed in their train. Some have given performance of a character not calculated to elevate the moral tone of the spectators. Others had packs of gamblers in their train who were busy robbing all who could be persuaded to invest in their seductive games of chances. The time seems to have arrived when every self-respecting community must bar the carnival.

While S. S. Blair, of Tyrone, with two ladies on of them was leaving his team down a slight hill, one of the horses fell and broke the yoke-strap. The yoke came off and the tongue dropped to the ground, the animals, taking fright, ran away, the tongue soon being smashed. Mr. Blair was thrown from the carriage and his back was rather severely sprained. One of the ladies, Mrs. R. M. Bailey, was also thrown out and slightly hurt. This accident was similar to the Joseph's smash-up near Pleasant Gap a few weeks ago.

A remarkable old man is William Fouse, of Drab, Blair county. He is 81 years old and never wore stockings until three years ago. He has never in his life worn underclothing, gloves or mittens, never used tobacco in any form, and was never sick an hour until his 80th year, when he had a slight attack of grippe from which he soon recovered. Last fall he ploughed forty acres, hauled it three times and drilled it in wheat, husked 1,000 and hauled in 2,000 bushels of corn without any assistance whatever. Along with the above work he did the other fall work such as raising potatoes, hauling out manure and cutting off corn. He rarely stops for rain and says that a good ducking does him more good than anything else. Summer and winter regardless of snow, rain or shine he bathes his feet in eighteen inches of water in a spring a short distance from his home, three times a week. His home is one of the best farms in Morrison's Cove.

The Beaver Springs Centennial.

One of the last and great events of this season will be the celebration of the 100th anniversary of the founding of the town of Beaver Springs, Snyder Co., Pa., which will take place in the beautiful Park at that place on Sept. 6, 7 and 8, 1906. About Excuses.

Mark Twain tells of an Oriental who did not want to loan his axe to a neighbor. He gave various reasons for not loaning it, the last of which was that he wanted to use it "to eat soup." When told that "eating soup" was an unusual use to make of an axe, he replied that when you do not want to do a thing, that anything would do for an excuse. Franklin said to a servant who was always late, but always ready with an excuse: "I have generally found that the man who is good at an excuse is good for nothing else."

The average automobile is almost as stubborn as a mule.

A Serious Loss.

Brigadier General Evan Miles, of the United States army, whose home was destroyed by the earthquake in San Francisco, last April, in a recent letter from Colville, Washington, to his relatives in Bellefonte, states that he had suffered an irreparable loss at the time of the earthquake in the destruction by fire of his manuscripts and notes intended for publication in the near future, which embraced his personal observations of the wild Indians in early days, their habits, customs, legends, derivation of Indian names and the causes of Indian wars. The work was the result of many years of painstaking labor and is a great loss to the public as well as to the author. Gen. Miles was born in Bellefonte and has a number of relatives and many friends here. He served during the Civil war, in several campaigns against the Indians and commanded a brigade at the battle of El Caney, in Cuba during the Spanish-American war, just prior to the fall of Santiago.

A Joke on the Jokers.

The following from the State College Times must have been a little rough on some of the Bellefonte lads who live up there:

"Last Saturday evening some friends of W. H. Housel planned to make a raid on his chicken coop, but one of the trio turned traitor and informed Mr. Housel of the intended raid. When the time came Mr. Housel was lying in wait with a revolver loaded with blank cartridges. The gang slipped in quietly and succeeded in getting a box filled with young chickens to the door, when Mr. Housel opened fire on them. Every started to cut across back lots and over fences and has not been seen since, but Crosthwaite and Knisely, unfortunately were too badly scared to run and fell into the hands of the constable. After Mr. Housel intervened in their behalf, the constable allowed them to depart, which they did very speedily. They are slowly recovering from their fright and expect to be out in a few days.

Bank Looted of \$1,000,000.

With a deficit in its accounts of close to a million dollars and with the whereabouts of two of its chief officers unknown to the authorities, the Milwaukee avenue State bank, one of the largest outlying banks in Chicago, was closed Monday by State Bank Examiner C. C. Jones.

The failure was responsible for the death of one of the depositors and led to the suicide of another man who a month ago placed the earnings of a lifetime in the institution. In the excitement following the announcement of the failure, J. G. Visser, an officer of the Royal League, who had on deposit in the bank funds of that organization, fell dead. Henry Koepke, a grocer, on hearing that the bank had suspended payment, went to the rear of his store and shot himself. He died a few minutes later.

Senatorial Conference.

The second session of the Republican senatorial conference was held at Philipsburg on Wednesday and resulted in another draw. H. C. Quigley, of Centre, proposed to Alexander, of Clearfield, that they meet again on Aug. 31st and that all conferees be released from their instructions and left to act in the best interests of the party. It was so agreed.

A conductor on the Williamsport and North Branch railroad had a new experience the other day. He was taking up fares when he came to a young woman with a very small baby. She had no ticket, and passed up a twenty dollar bill for the conductor to change. He looked at the bill, and then at the woman, in some perplexity, and asked: "Is that the smallest you have made?" "Of course it is; I've only been married a year." She was rather sharp reply. She was thinking of the baby and the conductor was thinking of the twenty dollar bill. Explanations followed.

The grand jury on Tuesday found true bills of indictment against fourteen members of the Philadelphia ice Exchange, who are charged with conspiracy to increase the price of ice.

Merchants in League.

The Altoona Merchants association has prepared a surprise for persons who neglect to pay their debts, and if a plan that has been adopted meets with the success that is anticipated, this class will find itself in the position of being unable to make purchases without ready cash. Every person in Altoona and vicinity has been given commercial rating, based upon records obtained from account books for the last ten years. They have been divided into three classes, good, bad and indifferent, and this classification will serve as a guide for merchants in the future when credit is requested.

From careful records compiled by C. H. Brown, business agent of the Merchants association, it is found that the losses in bad accounts for last year reached the great total of more than \$200,000. Previous years, it is said, have exceeded this amount. The annual loss in all lines of trade has averaged 2 percent, or more for several years. Merchants freely admit that these conditions have resulted in increased prices for all commodities, and say that the eradicating of bad accounts will inure to the advantage of consumers.

A few days ago a rather bashful young woman went into the store carrying three chickens. She inquired the price of chickens and at the same time put them on the counter. The clerk didn't know the chicken's feet were tied and asked if they would lay there. She bit her handkerchief and said: "No, sir, they are roosters."—Mt. Union Republican.

A kitchen has its eyes opened in nine days but a fool generally has to wait longer.
