Rev. Rearick, of the Centre Hill Lutheran church, is on a fair way to recovery from the trouble that manifested itself in the ankle of one of his limbs, but he must use crutches as an aid in moving about, and there is every prospect that those can be dispensed with soon. The republicans of the Centre-Clearfield senatorial district have not been able to agree upon a senatorial candidate, each county standing by its own nominee. Centre insists that by any fair process of rotation she is entitled to the candidate, while Clearfield declares that Centre has so many state dignitaries present and past, that she ought to yield the senatorship. The next conference will be held on the last day of August, and as both conferences have released their conferees and urged them to select a candidate who will worthily represent the district an agreement ought to be possible.—Altoona Tribune.

Where the line of the proposed New York and Chicago Electric road follows Penns Creek in the mountains, below Coburn and near Ingely, on the south side of the stream, at the White Rifle bend, it runs over the mountain land owned by Dr. Barker, who has offered to give the right-of-way free over the entire distance of his lands, perhaps for a stretch of two miles, high enough up the mountain side to be in full view of Dr. Barker's picturesque home, from which there is one of the loveliest views of beautiful, romantic mountain scenery in the state—and Centre county is well supplied with such feasts for the eye.

An intimation "by those who ought to know" that \$2,000,000 will be spent in the establishment of new industries for Clearfield in the next two years, causes The Spirit to murmur: "Pray on, sing on, we're gaining ground," which is, of course, plain to every one.

At McCormick, Ga., whites prevented negroes from lynching one of their race added proof that there are times when negroes themselves approve of lynching. But would the whites have so zealously defended the law and order had the girl been white? Let us hope so.

The tobacco crop in Clinton county is being harvested this week and is pronounced the largest and best grown in many years. The center and warm weather were ideal conditions for its growth. Only a small portion was damaged by the hail.

In cleaning out an abandoned ice-house at Hyner, Clifford Rhoades, a youth of 15 years, came across a seven-foot black-snake and 32 little black snakes, hidden in the sawdust, and he killed the entire lot in less than three minutes. Then he found another nest with 10 little ones in it, and killed them.

Sunday evening Mrs. Maud Robinson, and her infant son, Chalmers, aged 18 months, were drowned in the Juniata river at Blair Four, a short distance south of Williamsburg, by the breaking of a suspension bridge. A Williamsport taxidermist is remounting a pair of locked bucks' heads for the Pittsburg Lodge of Elks, which came from the forest of Michigan, where a gunner came upon the deer while one was still alive, his antagonist having died in the conflict. Two young girls who made themselves offensively conspicuous by their boldness and street walking in Milton, were run in by the officers on Sunday night of last week and locked up until the next morning, when they were taken before the Burgess, who fined them \$5; in this manner Milton has set an example which might be followed by some other towns.

The drunken individual who shot at some boys on Thursday at Tyrone and narrowly missed hitting two employes in the Tyrone Milling company's mill, was quickly apprehended by the police. The fellow gave several names, Clarence Weber, William Williams and Ben Weaver being three of them, and said he was from Tennessee. He was hustled off to jail.

Eighteen wood carvers, selected because of the ability, carved the oak paneling for the suite of rooms in the new capitol building to be occupied by the Executive Department. They were the only men in the market capable of doing the work required and they received \$1 an hour for their beautiful carvings. It took four months to finish the work.

A Big Success.

The Business Men's picnic, fat Hecla park last Thursday was an entire success in all respects. The day was an ideal one as not a single incident marred the occasion. From 10,000 to 15,000 people attended. The merry-go-rounds, wheels of fortune, stands for sale of fancy articles, peanuts and candies, etc., were on the ground to accommodate all tastes, and the order was unusually good. Fireworks topped off the affair at night and dancing in the large pavilion was indulged in during the day and at night. There were about two women to one man on the ground and pop-corn had the right of way.

The clay pigeon shoot took place at 10:30 a. m. and was between Centre and Clinton counties. The score was as follows:

The base ball game between the Autos of Lock Haven, and the Milton team resulted in a victory for Milton by the score of 5 to 0. The Lock Haven people made such a fight for this game and did so much blowing in regard to their team that we expected them to wipe up the ground with Milton. But it was "skiddoo" for them.

The picnic was a success in every particular. Although the company was limited to a supply of cars yet they surmounted everybody by the accommodations furnished.

## LINE FENCE LAW.

The 1905 session of the Legislature passed a "fence law" does not seem to be generally known. The following are the main points of the law: Where a party interested in a line fence has his own fence in good repair and his neighbor refuses to build or repair his share of the fence, he goes to the auditors and makes complaint to them. The auditors are required to examine the fence and the need of it. If they find the complaint well founded, they report the same to a justice of the peace, who is required to give the failing parties notice to repair or build the fence within forty days. If he does not do it the other party may build the fence and collect cost of it. If the auditors find that the fence is in good repair, or that no fence is required, the auditors are to receive \$2, to be paid by the one making the complaint. The whole procedure is new and farmers will do well to remember this.

## AN EDITOR'S WISH.

(From the Concordia Kansan.)

The editor of this dinky paper wishes sometimes he were rich. No, we only wish we were rich for about a week—just long enough to teach some rich people we know how to act toward less fortunate people—less fortunate in the matter of worldly possessions we mean. As a matter of fact, inordinately rich people—the majority of them—have no sense at all. This is especially true of some man who has "struck it rich", or the woman who has married to a bunch of money. It gives us infinite pain to witness the nauseating airs of these toddlers with the dollar mark sticking all over them. Gee whiz! it makes us riled to have some purse-proud monkey without brains enough to carry breakfast to a sick bear put on highfalutin airs around us!

Monday morning a barn near Carroll, on the Milton Barner farm, was struck by lightning and burned to the ground with all its contents. The loss is between \$2,000 and \$3,000, with no insurance.

In polite society regrets are often accepted with thanks.

Even the wind bag likes to air its views.
