Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food. The best kind of a testimonial -

Bold for over sixty years.' Made by J. C. Ayer Co., Lowell, Mas Also manufacturers of 2 SARSAPARILLA. S CHERRY PECTORAL Monkeys and Colors. In order to prove its power of discriminating between colors the scien-

tist Dahl made some interesting tests upon a monkey. He colored some sweets with a certain colored dye and some bitter substances with that of another color. After a few attempts the monkey learned to leave without even tasting those articles of food colored with the dye which indicated bitter tasting substances and seized at once upon those which indicated sweets. Varying the experiments sufficiently be found that the monkey distinguished all the different colors readily, save only dark blue. Many savage tribes cannot distinguish dark blue from black and even children distinguish this color later than all others.

Mr. and Mrs. George Bair, of Wil-liamsport, are visiting his father.

Mrs. Calvin Morris. of Rebersburg. spent Saturday at A. N. Greninger's.

Shem Hackenberg and family, of Bellefonte, spent Sunday at Robert Hackenberg's.

#### Coming--Big Show.

The Walter L. Main circus and Colo-nel Cumins Greater Wild West and Indian Congress, which comes to Bellefonte, Friday, Sept. 21st, is one of the most noted of all educational, historical and ethnological exhibitions in the world. The success of three great World's Fairs, it has been augmented this year with a stupendously impressive Fire and Flame spectacle, reproducing with full sized buildings of steel construction throughout the devastating Baltimore fire of a couple of years ago. Also there will be exhibited one of the largest menageries of trained animals in existence and which have been trained to appear in one cage, something unprecedented in the history of educated wild beasts. In this collection there will be seen the terrible Cola Camba, the offspring of the chim-panzee and gorilla, and which is more erocious than any of its begetters.

-For a cough or cold take Krumrine's Compound Syrup of Tar-cures in one day. If Trof. Bartges, teacher of the grammar school at this place, lost a day last week on account of sickness. We have had some nice cool days dur-ing the past week.

men come down to Madisonburg almost nightly and they behave like respectable oung men. But the Shafferville sports that. Take warning before it is too late ;

perhaps vaccinated ourselves against this disease."

consumption? I must have done it in

my sleep, then." "Not at all. Let me explain.

"Cheuveau, Baumgarten, Grisez, Behring, Calmette, Guerin and other eminent investigators have taught us that the germs of consumption-the bacilli, the little living creatures that eat up the lungs-do not enter our lungs through the respiratory tract, but through the intestines-that is to say. we don't breathe in consumption

germs; we eat them. "In the region of the intestines, therefore, these men for some years conducted their vaccinations for consump-

tion. They took calves, and they vaccinated these calves with milk containing dead bacilli. Afterward they gave the calves milk containing live bacilli, and, whereas this latter milk caused deadly consumption in ordinary calves, among those that had been vaccinated no evil effect whatever en-

sned. "Among animals and perhaps among men milk containing dead consumption germs makes a virus which, applied to the intestines, is a sure cure for consumption

"Therefore, when you and I drink our milk boiled (as we should always do despite the systery taste), we are, if the milk happens to contain bacilli, actually introducing into our intestines the virus that, among animals at least, is consumption's sure preventive.
