## SECHLER'S, THE GROCER.

In these days of adulteration of foods, which not only do not satisfy the appetite but are a positive menace to the health of the people, it is a satisfaction to know that your grocer is reliable to the extent that he deals only in standard, high-grade goods which bear the guarantee label.

It is another satisfaction to know that you get full measure, good weight and at honest prices.

When once you deal at Sechler's you will never want to change. So get in the habit.
