Deer Quadruple.

An interesting discovery of the rapidity with which deer multiply was made by the members of the Otzinchachon Rod and Gun Club, during the fifteen-day deer hunting season, just closed. In their jaunts over the 4000 acres of wild land preserve on Rattlesnake Run inclosed with a wire fence, the men found that the deer had multiplied so fast that if another year shows the same ratio of increase, it will be necessary to thin out the drove by turning some of them into the open territory. There were 400 deer in the preserve about eight years ago, and following a strict rule of the club, none but bucks were killed. It is conservatively estimated that there are now 1200 deer in the preserve. The most prominent members of the Otzinchachon Club are George S. Good, ex-Senator S. R. Peale, and Wilson Kistler, of Lock Haven; James Kerr, of Clearfield; William F. Mosser, of Westover, and Senator F. A. Godcharles, of Milton.

To send a card asking for our catalog, setting forth the advantages enjoyed by the students who attend The State Normal in Indiana, and it may be the turning point in the life of your son or daughter. An education obtained in a good normal school fits for life and business, as do other schools, but its diploma has a peculiar legal value that should not be overlooked; it makes its possessor a legally qualified teacher in the State for life.

None of us can look very far into the future. Your daughter may not need to teach now, and may lay her normal diploma away, never intending to use it. But some disaster later in life may make it necessary for her to earn her living, and that diploma would prove her most valuable possession. Is it not best to be educated in a school whose diploma has such value?

F. Potts Green, Dear Sir:—Your "Cure" works wonders for me. It has never failed in a single instance. I am an old chronic sufferer, 63 years old, and have had these terrible sick headaches ever since I was born. Tried everything for years and have found the remedy in your Wafers. Have only two or three serious headaches in the year and if I have your Wafers with me I always get immediate relief. Very sincerely,
D. W. HOWARD.
