RECENT DEATHS. PHILIP B. CRIDER—a very prominent, and well known citizen, died at the home of his son, W. F. Crider, on West Linn street, at eleven o'clock on Thursday morning, of last week. His illness dates back some two years or more when he suffered a stroke of paralysis which left him in a partially helpless condition so that he has been an invalid ever since. He was a son of William and Mary Crider and was born in Clinton county January 9th, 1822, so that he was just eighty-five years and one day old. At that early day the country was but meagerly developed and his parents being poor he had few advantages of schooling and early in life became self-supporting. He learned the business of manufacturing wooden goods under John Rich and John Hillard, at Pine Creek, Clinton county, with whom he remained thirteen years. He then purchased the old homestead and farmed for several years when he launched into the lumbering business. His first venture was an operation between the Moshannon creeks in this county, where he was engaged with Samuel Crist, of Lock Haven, then one of the biggest lumber operators in this part of the State. He remained with Mr. Crist three or four years, then began manufacturing lumber for the Snow Shoe railroad company. Later he and Mr. Crist purchased the plant and stock of Homes & Wigton, also big lumber operators. He next associated himself with General Beaver, the late E. C. Humes and others in operating on a large tract of land in Clearfield county. Later he associated with his son, F. W., and they began operations in the Snow Shoe region gradually reaching out until they had lumber operations in various parts of the country. Some twenty years ago they established their plant in Bellefonte and have since made the planing mill business one of the important branches of their operations. Notwithstanding the fact that he was so extensively engaged in lumbering he never lost his love for farm life and years ago bought a large farm in Liberty township, this county, which he made his home for several years and where he proved that farming does pay. He was a man of a rather retiring disposition so that he never pretended to figure much public. In 1844, he was united in marriage to Miss Catharine Miller, of Clinton county, by whom he had three children, only one of whom still survives, Fountain W., of this place. Mrs. Crider died in 1885.
