### THE CENTRE DEMOCRAT, BELLEFONTE, PA., JANUARY 17, 1907

FROM SOUTH DAKOTA.

Dear Editor: On 25th, 1906, left Dewart

Northumberiand county, for South Da-

kota, having a short time before made a

business trip to Centre county, and

while there I promised to let the people

of Centre county know of our where-abouts through the Centre Democrat.

We arrived at Scottland, Bon Homme

county, South Dakota, Sept 27. Scott-

land is a lively and up-to date business

place. There are five large grain eleva-

tors and it is no uncommon thing, in the

fall, for them all to be filled to their ut-

day at Ben Breon's.

Timed by a Yell.

Wild beasts as well as human beings are bewildered by the unexpected. A man who was hunting in Africa went out with a party of natives one day to kill a leopard that had been preying on the goats of the village. They found a place where the beast had been lying in the grass, and while the natives spread out and formed a ring around it the hunter got his gun ready. After awhile the leopard came out of the long grass, and the hunter fired at it, but only wounded it severely enough to make it wild with rage With a great bound, it sprung on the man and bore him to the ground, holding him there with its paws on his breast and its snarling mouth close to broke into a loud yell of horror. The leopard, evidently bewildered by this wholly unexpected outburst, leaped back from the man and ran off at full speed.

The blacksmith thinks there is more luck in making new horseshoes than in keeping old ones.

### CLEANING CARPETS.

#### A Method Which It is Claimed Has Been Well Tested.

PAGE 1

4 4 4

The following method of cleaning carpets, according to the Housekeeper, has been thoroughly tested and was secured from a professional source: First have the carpet cleaned in the usual manner and tacked down on the floor where it is to remain permanently, and it is ready for the cleansing process. Take one and a half pounds fourths pound of borax, one-fourth pound of fuller's earth, one-half pint of wood alcohol, one-half pint of ammonia, one-half ounce of chloroform and four gallons of water. Tie up the bark in a piece of thin material and boil in two gallons of water for four hours. Keep boiling water at hand to replace that lost by evaporation. Now remove the bag, add the soap, shaved fine, the borax and the fuller's earth and let simmer until all are dissolved. Then add the other two gallons of water, which should be boiling hot, and when partly cool add the alcohol, ammonia and chloroform. This quantity will clean thirty yards of carpet.

To clean, dip out a cupful of the preparation, put it on the carpet, spread it and scrub with an ordinary bristle scrubbing brush. The spot scrubbed will be covered with lather, but the carpet will not be wet through. When all the dirt has been removed, scrape the lather up into a heap and take it up with a scraper, which can be had of any house furnishing store. or a shingle with a smooth edge will answer very well. When the lather high in price; I took notice at Farmers has been removed, go over the carpet with a sponge wrung out of clean water and dry with a cloth. 37.6
