There seems to be a whole lot of guessing going on as to where J. M. Kahl is moving this spring; really, some have gone so far as to set him high and unbeknown to any one, in Centre county, indicating that the board of school directors had better elect some one else to act as secretary; of course, the parties were so full of the golden rule that they were almost busted; now we would say right here, that we don't think he did anything while he was in office that makes it necessary for him to sneak out of the district; so just wait until the proper time comes and you will know where he will move and what he has done while in office and in the meantime try to obey the law of the land and instead of holding down store boxes, send your children to school, stand up to the teacher and directors and make our school a success.

WILKINSBURG.

To my dear friends of Centre Co.: I will write a letter this evening, and tell you a few things about Wilksburg, a suburb seven miles east of Pittsburg. Wilksburg is more of a residence section than Pittsburg as it does not have so many manufactories. Population is about 18,000, and has no liquor licensed hotel; "think of that," where is there a place as large or half as large, that can beat Wilksburg? I like it here real well, but I never could get accustomed to Pittsburg. Of course this place cannot beat Bellefonte for I have too many good friends in there. Nearly everybody out here uses gas for fuel and light. Wilksburg has some very large buildings, but not nearly so high as those in Pittsburg, where I saw one twenty-four stories high. My cousin and I expect to go to Highland Park on Saturday, there they have all kinds of animals, and Shenley Park has a conservatory a half mile long; it has flowers and shrubbery of all kinds, and from all over the world. I came out here four weeks ago; it has been very cold most of the time. I saw in the paper that the number of people around Bellefonte have been sick, hope they will soon be better. I often think of our Rockview high school, and the people going there; hope you got along alright on the 22. I see one of my old-school teachers, Oris Ishler, quite often.

Pine Glenn has been accused by some of her sister villages of being slow, but that it is not slow when it comes to patriotism, was demonstrated by the manner in which our schools honored the memory of our departed heroes, Washington and Lincoln. On Thursday afternoon, Laurel Run school held appropriate exercises, which were attended by the Starr school in a body, also by many patrons and others, and on Friday afternoon the Starr school rendered a special program, both Pine Glenn and Laurel Run and other visitors being present. Both schoolrooms were tastefully decorated with the national colors, and ever-green, and all in attendance expressed themselves as highly pleased with the manner in which both exercises were rendered. Much credit is due teachers for the time and work spent in preparation of the exercises, which are, not only an evidence of the progress of the schools, but which instill into the minds of every boy and girl, the principles of patriotism, and aid them to be noble, highminded citizens of the great republic.

UNCOOKED MEAT IS VERY DANGEROUS

Fearful Suffering Caused by Eggs of Parasite Which it May Contain--Statement by a Priest.

Cincinnati, O., Feb. 28—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape-worms by his preparations.

During the early part of Cooper's stay in Cincinnati individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size."

"Few indeed realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach trouble so universal is caused by these parasites."

"Individuals may have them for years and not be aware of the reason for the continued ill health but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality."

"These parasites are taken into the system by cooked food or raw meat in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of the 'New Discovery' seems to be fatal to these great 'worms,' and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This gruesome prophecy has been amply verified, for not only hundreds but thousands of Cincinnati people have been relieved of some of these fearful parasites since taking Cooper's preparations, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolis, one of the best known and best beloved priests in this section of the country, verifies this. His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pain in the lower part of my back, and would have to sit down."

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have a palpitation of the heart after ascending the stairs."

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicine as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about ninety feet in length left my system."

"I am very thankful for this great relief, and now I know what has been the cause of all my suffering."

This story of Father Arnolis is a fair sample of the experience of an astonishing number of Cincinnati people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousands bottles to date in this city alone, and the sale is still increasing.

Is Your Money Working

WHAT DOES IT EARN FOR YOU?

The INDUSTRIAL SHOE COMPANY of Brockton, Mass., Manufacturers of the celebrated MAIN LINE, STERLINGWORTH and other fine shoes, offers for general and immediate subscription 15,000 shares of its Capital stock, with guaranteed earnings of not less than 12 per cent. per annum, at its par value of \$5.00 per share.

The Industrial Shoe Company is a Massachusetts corporation with an authorized capital of \$100,000, all of which is Treasury Stock and all fully-paid and Non-assessable.

The company is engaged in the manufacture and sale of fine shoes, and by a business system peculiar to itself has eliminated competition in its particular field, so that a steady and uniform profit of from 12 to 50 per cent. per annum is positively assured.

The company has been deluged with orders ever since beginning business, and in order to keep pace with them is obliged to immediately increase its facilities for manufacturing.

It is also desired to open retail stores for the better distribution of its product and with the purpose of gaining a still larger profit.

These goods are staple, an absolute necessity, and the demand for them is constantly increasing.

That the profits of the company will be large and constant can be readily seen when it is known that its average profit is 25 cents per pair and that the proceeds from the sale of this stock will furnish sufficient capital to increase its output to 1200 pairs of fine shoes per day.

We believe this to be the greatest opportunity ever offered to make money, earn money in a legitimate manufacturing enterprise, which will stand the closest investigation, and with shares at a price which enables every one to purchase at least a few.

The offer is for immediate subscription only and is subject to withdrawal without notice at any time.

For Further Particulars, Subscription Blanks, etc., Address Dept. A.—41.
